HUZUR CUTCHERRY,

Baroda, 15*th July* 1894.

MAY IT PLEASE YOUR HIGHNESS,

I beg to submit, herewith, the following account of the administration of your Highness's State for the official year ending 31st July 1892.

I beg to remain,

Your Highness's

Most obedient and faithful servant,

MANIBHAI J.,

Dewan.

MEMORANDUM.

RELATIONS WITH THE BRITISH GOVERNMENT, &c.

The relations with the Residency and the neighbouring British Officers and Native States were as cordial and satisfactory as they had been before.

2. Mutual extradition of offenders and co-operation in police matters between this State and the neighbouring British Districts and Native States went on satisfactorily.

3. No case of mail robbery occurred during the year in these territories.

4. The arrangement made for the commutation of the Palanpore Darbar's rights in the Wantas of Chansol and Nagawasna situated in Baroda Territory into an annual cash payment of Rs. 900 (Siccai currency) was approved by the Government of India.

5. The question of reconstructing the causeway across the Runn, which was allowed to remain in abeyance pending Settlement of the boundary dispute between Okhamandal and Nawanagar, was discussed and the conclusion arrived at was that each State should construct the portion of the causeway within its limits at its own cost and by its own agency.

6. The attempt made by the Chief of Palitana to re-open a question of boundary between the villages of Rupawati and Bhanderia was negatived in 1879 by the Government of India on the ground that the said dispute had already reached final settlement many years ago. The dispute was, however, again re-opened subsequently at the instance of Palitana, and joint Commissioners met during the year to re-investigate the case.

7. Steps were taken for the demarcation of the boundary line laid down by Mr. A. F. Woodburn in effecting a partition of the village of Surval with a view to do away with the dual jurisdiction over the village. The demarcation was entrusted to the Officer in charge of the Boundary Commissioner's Office, the expenses being shared by Baroda and Radhanpur in equal proportions.

8. The archæological survey in detail of the ornamental gate-way and the Devi temple at Dabhoi and other similar valuable relics of bygone times in the Kavi Division, and the collection of a descriptive and historical account of these remains was completed during the year. This survey was made by the Archæological Survey Department of India at the request of His Highness' Government.

9. The representation made by His Highness' Government regarding its claim to superior jurisdiction over the 6½ villages belonging to the Thakore of Umetha and situated in the Petlad Mahal was disposed of by the Government of India, the result being unfavorable to us.

10. During the year 2 Post Offices were opened and 14 letter-boxes were added, while 3 letter-boxes were withdrawn. This resulted in an increase of 2 Post Offices and 11 letter-boxes. The total number of Post Offices and letter-boxes in these territories at the close of the year was, respectively, 69 and 224 as compared with 67 and 213 in the previous year. The working of the Post Offices continued satisfactory.

VISIT OF HIS ROYAL HIGHNESS PRINCE DAMRONG OF SIAM TO BARODA.

11. His Royal Highness Prince Damrong arrived at Baroda on the morning of the 30th January 1892. During His Royal Highness' stay here, visits were exchanged between him and His Highness the Maharaja. Due hospitality was shown to the distinguished guest and the best endeavours were put forth to make His Royal Highness' short stay as pleasant as possible. His Royal Highness left for Ahmedabad on the 2nd February 1892.

GIRAS SETTLEMENT.

12. Out of the total number of 8,436 cases decided by the Special and former Settlement Officers, only two awards were pending execution at the commencement of the year. Both these decisions were fully executed.

13. The Giras Assistants investigated and decided 53 claims to cash and land, 181 succession cases and 186 claims preferred by co-sharers.

14. The amount ordered to be paid from the Government treasuries in execution of the awards was Rs. 21,804 as against Rs. 70,749 in the preceding year.

15. There were 18 appeals against the orders of the Giras Assistants. The decisions of the Giras Assistants were modified in 2 cases, and in the remaining 16, the orders passed were confirmed. The Settlement Commissioner also decided two claims to cash allowances.

16. The total expenditure on account of this Department during the year amounted to Rs. 23,836.

JUDICIAL DEPARTMENT.

Civil Justice.

17. The number of suits remaining on hand at the commencement of the year under review was 3,702. The total number of suits instituted during the year was 6,621 as against 13,941 in the previous

year. This notable decrease is partly attributable to the circumstance that a pretty large number of small cause suits was included in the figure for the previous year as the Small Cause Courts Act came into force only in October 1890, and partly to the fact that the limit of pecuniary jurisdiction in small cause suits was raised during the year under review.

18. 458 suits were re-admitted or received by transfer. Thus the total number of suits for disposal was 10,781.

19. The total number of suits filed was distributed among the several Divisions as under :—

Baroda Division	2,259
Kadi Division...	2,241
Nowsari Division	985
Amreli Division	540
Baroda City including Sardar Court	596
Total ...	6,621

20. The largest amount of civil work thus fell to the judiciary of the Baroda and Kari Divisions.

21. Of the total number of suits filed, the Munsiff Courts contributed 5,907 or 89 per cent. and the Judges' Courts 714 or 11 per cent. This latter figure includes 680 suits pertaining to the jurisdiction of the Munsiff filed in the District Courts of Amreli and Nowsari, and in the Sardar Court as the Judges of these Courts try suits falling within the Munsiffs' jurisdiction.

22. The number of suits pertaining to the jurisdiction proper of the Judges filed during the year was 34 as against 54 in the preceding year.

23. The total value of the claims filed during the year was Rs. 17,26,191 or about 6 lacs less than in the previous year. The average value of a suit filed was Rs. 261 as against Rs. 167 in 1890-91.

24. The following table will show the proportion per cent. of the suits of different values to the total number of suits instituted :—

Valuation of Suits.	Percentage on the total number.
Suits not exceeding 5 rupees	1
Suits exceeding Rs. 5, but not exceeding Rs. 20	9
Do. do. „ 20 do. do. „ 50	20
Do. do. „ 50 do. do. „ 100...	27
Do. do. „ 100 do. do. „ 500...	34
Do. do. „ 500 do. do. „ 1,000	5
Do. do. „ 1,000	4
	100

25. The above table will show that 57 per cent. of the suits filed did not exceed 100 rupees in value. Nearly 91 per cent. of the suits filed did not exceed 500 rupees in value, and 9 per cent. exceeded the latter amount.

26. Looking to particular Divisions, it appears that the Courts in the City filed suits of more than Rs. 4,98,000 in value; those in the Baroda Division of more than Rs. 4,92,000; those in the Kari Division of more than Rs. 4,23,000; those in the Nowsari Division of the value of about Rs. 2,21,000; and those in the Amreli Division of the value of about Rs. 90,000.

27. The value of suits admitted by the Judges of the Sardar Court and the Nowsari and the Amreli District Courts in the exercise of the powers of a Munsiff was Rs. 2,00,801, and that of suits filed in all the Munsiffs' Courts was Rs. 11,73,336. Thus the total value of suits falling within the ordinary jurisdiction of the Munsiffs was Rs. 13,74,137. The value of suits pertaining to the jurisdiction proper of the Judges was Rs. 3,52,054.

28. Suits relating to money preponderated as usual. There were 5,499 suits relating to money, 879 to immovable property, and 243 to other matters. Thus about 83 per cent. of the suits filed related to money transactions, 13 per cent. to immovable property, and 4 per cent. to miscellaneous disputes, the corresponding proportions in the previous year being 93, 6 and 1 respectively.

29. Of the money suits, about 52 per cent. were based on written obligations, 32 per cent. on accounts stated, and 16 per cent. on running accounts, the ratios in the year previous being 56, 33 and 11 respectively.

30. The total number of suits disposed of by the various original Civil tribunals was 8,284 as against 18,880 in the preceding year. Of these, the Judges disposed of 946 as against 1,125, and the Munsiffs 7,338 as against 17,755 in the preceding year. Of the suits disposed of by the Judges 34 pertained to their proper jurisdiction.

31. Looking to the manner in which the disposals were effected, it appears that 1,606 or 19 per cent. were either compromised or withdrawn by *Razinama* or decreed on admission or oath or by reference to arbitration. 1,498 suits or 18 per cent. were struck off the file owing to the absence of plaintiffs. About 22 per cent. were heard and decided *ex-parte*, while 3,277 or about 40 per cent. were contested. The remaining 1 per cent. represented those transferred to other Courts or summarily rejected and returned.

32. In contested suits 84 per cent. of the decisions were for the plaintiff and 16 per cent. for the defendant, the proportions in the previous year being 87 and 13 respectively. In suits decided *ex-parte* 98 per cent. of the decisions were for the plaintiff and 2 per cent. for the defendant, the corresponding ratios in the preceding year being the same.

33. The general average duration for each contested suit decided was 276, and for any other suit 126 days against 305 and 123 days respectively in the year preceding.

34. The average duration in the Judges' Courts for a contested suit was 295 days, and for any other than a contested one 187 as against 518 and 181 days respectively in the preceding year. In the Munsiffs' Courts the average duration for a contested suit was 273 days, and for any other than a contested one 118 days, the corresponding figures for the previous year being 290 and 120 days respectively.

35. Of the total number of suits disposed of 6,917 related to money, 1,080 to immovable property, and 212 to other matters.

36. Two witnesses on an average were examined in each suit. The average was the same in the preceding year.

37. The balance of original civil suits remaining on hand at the end of the year was 2,497, or 1,205 less than that pending at the close of the previous year, the decrease being attributable to the comparatively small number of suits instituted during the year.

38. The details of the pending balance show that 989 suits were of less than three months' standing; 478 were of more than three but less than six months' standing; 658 were of more than six but less than 12 months' standing; and 372 were of more than one year's standing. Of suits of more than one year's standing, 278 were pending for less than two years; 52 for more than two but less than three years; 24 for more than three but less than four years; 10 for more than four but less than five years; and 8 for more than five years. Of the 8 suits of more than 5 years' standing, 7 were pending in the Amreli District Judge's Court.

39. Including the arrears, the number of miscellaneous cases for disposal was 3,342. Of these, 2,643 were disposed of and 699 were pending at the close of the year.

40. The total number of applications for execution of decrees filed during the year was 15,458 against 17,625 in the previous year.

41. Of the number of Darkhasts filed, 2,027 were filed in the Courts of the Judges, and 13,431 in those of the Munsiffs.

42. The pending balance at the commencement of the year was 6,590. Including the applications received by transfer, &c., the total number for disposal was 22,059 or 2,265 less than that for 1890-91.

43. The number of Darkhasts disposed of was 16,062 against 17,734 in the preceding year. Of these, 1,862 were disposed of by the Judges and 14,200 by the Munsiffs, the percentages to the total number of disposals being 11 and 89 respectively.

44. The total unrealized value of the decrees for the execution of which Darkhasts were filed including those received by transfer was Rs. 24,54,647. Of this aggregate amount, the value of

Darkhasts received in the Judges' Courts was Rs. 9,04,966, and of those received in the Munsiffs' Courts was Rs. 15,49,681.

45. The total amount recovered in execution proceedings was Rs. 10,42,402, being about 24 per cent. of the total unrealized amount of the decrees to be executed. The realizations in the Judges' Courts were about 10 per cent., and those in the Munsiffs' Courts about 39 per cent. of the amounts claimed.

46. About 2 per cent. of the Darkhasts disposed of related to immovable property. About 97 per cent. against 98 per cent. in the previous year were for executing decrees relating to money, and 1 per cent. represented the ratio of decrees regarding other matters.

47. On viewing the mode in which the decrees were executed, it appears that the execution of 5,502 Darkhasts or 34 per cent. was stayed at the request of the applicants, 5,641 Darkhasts or 35 per cent. were struck off the file, and in 2,417 or 15 per cent. *Razinamas* were filed. The remaining 2,486 Darkhasts, that is, about 15½ per cent. were disposed of with the aid of the Courts, the corresponding ratio for the preceding year being 14½ per cent. of the total number disposed of in that year.

48. Of the Darkhasts executed by the Courts, in 1,424, *i.e.*, about 57 per cent. satisfaction was had by payment of money. In 162 or about 7 per cent. satisfaction was rendered by granting possession, and in 23, or about 1 per cent. the judgment-debtors were imprisoned in the Civil Jail. The corresponding ratios in the preceding year were 56, 6 and 2 respectively.

49. Disposal was effected by the auction sale of movable and immovable property of the judgment-debtor in 803 or 32 per cent. of the number disposed of by the aid of the Courts. The ratio per cent. of Darkhasts in which immovable property was put up to auction was 25. The value realized at the auction sales of attached movable and immovable property was nearly 84 per cent. of the value estimated at the time of attachment.

50. The average number of days which the Courts took to dispose of a Darkhast was 160 as against 151 days in 1890-91.

51. The pending balance of Darkhasts at the close of the year was 5,997 as against 6,590 of the last year.

52. Analysing the balance of pending Darkhasts it is found that 1,787 were of less than three months' standing, 1,191 were of more than three but less than six months' standing, 1,169 were of more than six months' but less than one year's standing, 1,035 were of more than one but less than two years' standing, 540 were of more than two but less than three years' standing, 166 were of more than three but less than four years' standing, 51 were of more than four but less than five years' standing, and 58 were of more than five years' standing.

53. Turning to the appellate work of the various Courts, it appears that the number of appeals filed during the year, excluding

Registration appeals, was 1,555 against 1,560 in the preceding year. Including the opening balance at the commencement of the year, and those that were re-admitted and received by transfer, the total number of appeals for disposal was 2,465 against 2,446 in the previous year.

54. Of the appeals filed, 1,192 were regular appeals from original decrees and 363 were special appeals from appellate decrees. Of these, 470 were filed in the Varisht Court and 1,085 in the Courts of the Judges. Among the District Courts, the largest number (485) of appeals was filed in the Baroda District Court, 322 in the Kadi District Court, 145 in the City Joint Judge's Court, 87 in the Nowsari District Court, and 48 in the Amreli District Court. The Baroda District Court received more appeals this year than in the year previous.

55. The proportion of regular appeals to the number of suits disposed of by the original Courts after a hearing is 23 per cent. or nearly double the ratio in the preceding year. The ratio of such appeals to the number of decisions in contested suits is 36 per cent. as against 24 per cent. in the previous year. The ratio of special appeals to the decisions of the lower Appellte Courts in regular appeals given after a hearing is 35 per cent. as against 36 per cent. in 1890-91.

56. The total value of claims in the appeals filed during the year was Rs. 9,80,736 against Rs. 4,64,702 in 1890-91.

57. The total number of appeals disposed of was 1,529 as against 1,597 in the preceding year. Of these, the Varisht Court decided 592 (460 special and 132 regular) and the District Judges and the City Joint Judge 937 as against 453 and 114 in the previous year. Of the District Courts, the largest number of appeals was disposed of by the Judges connected with the District Court of Baroda. The Kair District comes next, and then follow the City Joint Judge's Court, the Nowsari District Court, and the Amreli District Court.

58. Viewing the mode in which the appeals were disposed of it appears that 99 appeals or about 7 per cent. were struck off the file,, and that 14 or about 1 per cent. were either compromised or otherwise settled amicably. By far the largest portion, namely, 1,414 or 92 per cent. were disposed of after a hearing. In 175 of these latter, the decisions were given *ex-parte*, and the remainder, that is, 1,239 appeals, were contested. Of the appeals disposed of after a hearing, 973 were regular and 441 special.

59. In 807 appeals or 57 per cent. of the appeals decided after a hearing, the decisions of the lower Courts were confirmed; in 171 or 12 per cent. the decisions were modified; in 146 or about 10 per cent., the cases were remanded, and in 290 or 21 per cent., the decisions were entirely reversed. The corresponding ratios in the year preceding were 53, 12, 13 and 22 respectively. Taking the proportions of cases remanded and entirely reversed together, the ratio is about 31 per cent. against 35 per cent.

60. In appeals decided *ex-parte*, the ratio of decisions confirmed was 12 per cent., while in contested appeals it was 88 per cent. The ratio of decisions modified was 10 per cent. in appeals decided *ex-parte*, whilst in contested ones it was about 90 per cent. The ratio of reversals whether by remand or otherwise was 15 per cent. in appeals decided *ex-parte*, whilst in contested appeals it was 85 per cent.

61. In 52 per cent. of the regular appeals disposed of after a hearing, the decisions of the lower Courts were confirmed; in 14 per cent., they were modified, and in 34 per cent. they were either reversed or the cases were remanded, the ratios in the previous year being 52, 11, and 37 respectively.

62. The decisions of the lower Appellate Courts were confirmed in about 69 per cent. of the special appeals decided after a hearing; in 7 per cent. they were modified and in the remainder, *i.e.*, 24 per cent., the decisions were entirely reversed or the cases were remanded. The proportions in the preceding year were 60, 11 and 29 respectively.

63. The general average duration of a contested appeal was 237 days as against 238 and of any other appeal it was 236 days against 166 in the preceding year.

64. In the Varisht Court the average duration of a contested appeal was 260 days and of an uncontested appeal 299 days, whilst in the year previous the average duration for the former was 329 and for the latter 215 days.

65. In the District Courts the average duration was for a contested appeal 222 days and for an uncontested appeal 203 days as against 199 and 148 days respectively in the preceding year.

66. The pending balance of appeals at the end of the year was 936 as compared with 849 in the previous year; of these, 264 (74 regular and 190 special appeals) were pending in the Varisht Court, and 672 in the District Courts.

67. Of the pending balance, 75 appeals were of more than one but less than two years' standing; 19 of more than two but less than three years' standing; 4 of more than three but less than four years' standing, and five of more than four years' standing. Of the appeals of more than two years' standing, 8 regular and 14 special appeals were pending in the Varisht Court, 5 appeals were pending in the Amreli District Court and 1 in the Kadi District Court.

68. The number of miscellaneous appeals disposed of in the year was 676 as against 874 in the previous year; of these, the Varisht Court decided 261 and the Judge's Courts 415. The number of such appeals on hand at the close of the year was 456 as against 246 in the preceding year. The heavy balance is attributable to the arrears of the previous year.

69. The following statement presents in one view the total civil work done by the various tribunals:—

Name of Court.	Civil.				
	Original.			Appellate.	
	Ordinary Suits.	Small Cause Suits.	Miscel-laneous.	Regular Appeals.	Miscels laneou-Appeals.
Varisht Court	.....	.....	.....	592	261
Sardar Court...	184	340	82	296	43
City Joint Jugde's Court ...	7	82	64	48	87

Total...	8,284	*11,776	2,643	1,529	676
Result for the year 1890-91.	18,880	6,980	2,990	1,597	874

Small Cause Suits.

70. The number of Small Cause Suits instituted during the year under retrospect was 12,547. Inclusive of arrears and suits re-admitted and received by transfer, the total number for disposal was 13,776. The number of such suits disposed of during the year was 12,414 or 90 per cent., and the arrears at the close of the year numbered 1,362.

71. Looking to the contribution by the several Divisions to the total number filed, it appears that the Courts in the Baroda Division filed 4,326, those in the Kari Division, 3,192; those in the Baroda City, 2,514; those in the Nowsari Division, 1,287; and those in the Amreli Division, 1,228.

72. The value of the claims involved in all the Small Cause suits instituted amounted to Rs. 6,78,417. The average value of each suit was Rs. 54 as against Rs. 33 in the previous year. 72 per cent. of the suits filed were below Rs. 50 in value, 22 per cent. between Rs. 50 and 150, and 6 per cent. between Rs. 150 and 750.

73. The pecuniary jurisdiction in cases to be disposed of with the aid of assessors or by two Judges forming a Bench has been generally

* Besides this 638 Small Cause suits have been decided by Benches.

fixed at Rs. 750. However, the Courts have been empowered under the Small Cause Suits Act to enquire into and dispose of suits falling within the pecuniary limit of the ordinary jurisdiction of Original Courts, as Small Cause Suits, if the parties to a suit file with the plaint an agreement in writing to the effect that the suit may be disposed of under the Act, although the amount may exceed the special powers of the Judge of a Small Cause Court. As no such suit was filed during the year there was no small cause suit, the amount of the subject matter of which exceeded Rs. 750.

74. The small cause suits filed may be classified as shown below according to their value :—

Valuation of Suits.						*Percentage.*
Suits not exceeding Rs. 25	...	...	...	...	...	44
Suits exceeding Rs. 25	but not	exceeding	Rs.	50		28
Do. „ 50		do.	„	75		5
Do. „ 75		do.	„	100		11
Do. „ 100		do.	„	150		6
Do. „ 150		do.	„	250		3
Do. „ 250		do.	„	300		0
Do. „ 300		do.	„	750		2

75. As regards the total pecuniary value of the small cause suits filed, the Baroda Division comes first, the Baroda City comes next, the Kadi Division takes the third place, the Nowsari Division comes fourth and the Amreli Division comes last.

76. Classifying the suits filed according to their subject matter, it appears that 12,410 or 98·9 per cent. were based on contracts; 22 or ·2 per cent. involved claims for damages and 115 or ·9 per cent. involved claims for the value of movable property. 99 per cent. of the suits based on contracts related to loan transactions and one per cent. to other matters. Of the suits relating to loan transactions, 44 per cent. were based on bonds, 53 per cent. on running accounts, and the remaining 3 per cent. on other obligations.

77. Of the 12,414 small cause suits disposed of, 3,561 were decided by the Judges and 8,750 by the Munsiffs. The remaining 103 suits were withdrawn from the register of small causes. Of the suits disposed of by the Judges, 2,923 were decided by a Judge sitting alone and 638 by Benches. Of the suits disposed of by the Munsiffs, 1,926 were decided by Benches. As in the previous year, no suit was decided with the aid of assessors.

78. On considering the manner in which the disposals were effected, it appears that 2,496 or 24 per cent. were either compromised or withdrawn by *razinama* or decreed on admission or oath or by reference to arbitration; 2,179 or 17 per cent. were struck off the file owing to the absence of plaintiffs; 4,205 or 34 per cent. were decided *ex-parte*, 2,968 or 24 per cent. were contested and 116 or 1 per cent. were either transferred to other courts or summarily rejected and returned.

79. Of the total number disposed of, 6,932 or 97 per cent. were decided in plaintiffs' favour, and 241 or 3 per cent. in defendants' favour. Of the contested cases, 93 per cent. were decided in favour of the plaintiff and 7 per cent. in favour of the defendant against 90 and 10 respectively in the preceding year. In suits decided *ex-parte*, 99 per cent. of the decisions, the same proportion as in the preceding year, were for the plaintiff and 1 per cent. for the defendant.

80. The average duration for each contested suit was 72 days and for any other suit 52 days as against 57 and 44 respectively in the preceding year. It may be noted here that the number of disposals during the year was greater than in the previous year.

81. There was on an average one witness examined in each decided suit.

82. The pending balance of small cause suits at the close of the year was 1,362 as against 1,124 in the year previous. Of the pending suits, 1,136 were of less than three months' standing; 154 were of more than three but less than six months' standing; 65 were of more than 6 months' but less than one year's standing and 7 suits were of more than one but less than two years' standing.

83. The opening balance of applications for execution of decrees in small cause suits at the beginning of the year under report was 420. The number of new applications filed was 4,627. Thus the total number for disposal was 5,047.

84. The total unrealized value of the decrees for which Darkhasts were filed during the year was Rs. 2,46,093 and the total amount recovered in execution proceedings was Rs. 1,28,894.

85. The number of Darkhasts disposed of during the year under report was 3,540.

86. Proceeding next to the mode in which the Darkhasts were executed, it appears that in 1,194 or 34 per cent. execution was stayed at the request of applicants; 1,125 or 32 per cent. were struck off the file; 678 or 19 per cent. were disposed of under *razinamas;* and 542 or 15 per cent of the total number were disposed of with the aid of the Courts.

87. In 471 Darkhasts or about 87 per cent. of those disposed of by the aid of the Courts, satisfaction was had by payment of money, in 8, the judgment-debtors agreed to pay the decretal amount by instalments, in 59 disposal was effected by the auction sale of movable property and in 4 satisfaction was had by means of imprisonment.

88. The average duration for the disposal of each Darkhast was 85 days.

89. The pending balance at the close of the year was 1,507 Darkhasts. There is thus an increase of 1,087 in the pending balance, but it has to be borne in mind that 11,784 more Darkhasts were filed in the year under review than in the preceding year.

90. Analysing the pending balance, it appears that 696 were of less than three months' standing, 435 were of more than three but less than six months' standing, 269 were of more than six months' but less than one year's standing and 207 were of more than one but less than two years' standing.

Criminal Justice.

91. Before proceeding to deal with criminal justice, it seems proper to notice the important changes made in the year under report in the procedure for the trial of petty criminal cases. Hitherto offence cases of every description were tried under one and the same procedure and regular and special appeals were allowed in all cases of whatever nature they may be. In view to the speedy dispensation of justice His Highness the Maharaja sanctioned rules for the summary disposal of petty cases. Besides these, rules for the trial of cases by Benches of Magistrates were framed and sanctioned, but Benches under these latter rules were not constituted during the year.

92. Benches of City Magistrates of the 1st Class for summary rials were first constituted in January 1892, and the Benches in other places in March following. A circular order was also issued directing that Revenue Officers should, as far as possible, be relieved of criminal work, the same being entrusted to Munsiffs and special Magistrates.

93. The number of new cases filed during the year was 10,711 as against 10,781 in the previous year, showing a decrease of 70 cases. Of these, 1,995 were filed under the rules for summary trials. The cases filed were distributed among the several Divisions in the following manner :—

4,866 in the courts of the Kadi Division,
2,892 in the courts of the Baroda Division,
1,100 in the Baroda City courts,
1,067 in the courts of the Nowsari Division, and
876 in the courts of the Amreli Division.

94. Analysing the above figures it appears that one case was filed in the Subha's Court ; 7 in the District Judges' courts ; 17 in the Sardar court; 1,507 in the courts of first class magistrates ; 1,956 in the courts of second class magistrates; 1,171 in the courts of third class magistrates; 1,031 in the courts of Town magistrates; 4,986 in the courts of special magistrates and 35 in the courts of munsiffs exercising the powers of third class magistrates. Thus the bulk of the criminal work or about 86 per cent. falls to the second and third class magistrates including special and Town magistrates.

95. All the cases filed in the Courts of 1st and 2nd class Magistrates do not, strictly speaking, fall within their proper jurisdiction; for, such cases as could be tried by 3rd class Magistrates are sometimes admitted by them.

96. The Varisht Court had 16 cases referred to it in the year and the Sessions Courts received 118 cases committed by the Magistrates. The largest number of Sessions cases, namely 48, was received by the Kadi District Judge's Court.

97. The classification of the cases filed, according to the principal heads of offences, shows that 41 per cent. related to offences against property; 35 per cent. related to offences against the person; 3 per cent. related to offences against public justice; 2 per cent. related to offences against public tranquillity; 2 per cent. related to offences against marriage and the rest to miscellaneous offences. On comparing these percentages with those of the previous year, it appears that offences against property have remained stationary and that those against the person have decreased by 3 per cent. whilst the miscellaneous offences have risen to the same extent.

98. Among the heinous offences, there were 18 cases of murder 21 of culpable homicide not amounting to murder, 181 of grievous hurt, 7 of rape, 169 of robbery, 10 of dacoity, 140 of house-breaking and 16 of forgery in all 562 as against 539 in the preceding year.

99. There was one case of infanticide pending in the court of the Baroda District Judge.

100. The number of accused persons involved in the cases filed during the year was 26,435 or less than that of the preceding year by 1,030. The ratio of the accused to the total population was, as usual, about one per cent. About 41 per cent. of the accused were involved, in offences against the human body and 39 in those against property, the corresponding ratios in the year previous being 44 and 39 respectively.

101. Out of the total number of accused persons concerned in offence cases, 17 per cent. appeared in court in custody of the Police; 78 per cent. appeared in obedience to summonses or voluntarily and 5 per cent. were arrested under warrants, the corresponding percentages in the previous year being 17, 77 and 6 per cent. respectively.

102. The number of miscellaneous cases filed was 4,332 as against 4,005 in the previous year. All these cases except 19 were filed in the courts of the Magistrates.

103. Inclusive of arrears, &c., the number of cases for disposal amounted to 11,431 affecting 28,571 persons against 11,690 cases involving 29,760 accused persons in the preceding year.

104. The disposals amounted to 11,139 cases (inclusive of 1,912 cases summarily disposed of) affecting 27,836 persons as compared with 11,375 cases affecting 28,823 persons in 1890-91, and exhibit a decrease of 236 cases and 987 persons over those of the year previous. Only 292 cases affecting 735 persons remained undisposed of when the year ended as compared with 315 cases involving 897 persons at the close of 1890-91.

105. Of the disposals, 10,775 or about 97 per cent. were finally disposed of by the courts in which they were filed; 235 or 2 per cent. were referred or transferred to other courts and 129 or 1 per cent. were committed for trial.

106. The number of persons committed to the sessions was 349 while the total number of persons tried was 27,438 which gives a ratio of a little more than 1 per cent.

107. Of the 10,775 cases disposed of in the courts in which they were filed, 17 were decided by the Varisht Court, 2 by the Subhas, 117 by the Sessions judges and 16 by the Sardar Court. The remaining 10,623 cases were disposed of by the Magistrates.

108. Proceeding next to the important question of the nature and effect of the action of the courts as regards the accused persons tried by them, it appears that 22 per cent. were let off in default of prosecution, that about 35 per cent. were let off under *razinamas*, that about 25 per cent. were discharged or acquitted and that about 18 per cent. were convicted. Comparing this result with that of the previous year it would appear that whilst the percentage of accused persons let off under *razinamas* has decreased by 5, that of accused persons let off in default of prosecution and also that of acquittals or discharges have each increased by 2. In the result, there has been an increase of 1 per cent. in the ratio of convictions.

109. If, however, the number of accused persons let off under *razinamas*, or died, or escaped, or the cases against whom were struck off the file were excluded, there would remain 11,489 persons involved in the cases proceeded with by the Courts. About 59 per cent. of these were acquitted or discharged and the remaining 41 per cent. were convicted as against 58 per cent. and 42 per cent. respectively in the preceding year.

110. On considering the convictions under the various classes of offences, it seems that the highest ratio, *viz.*, 45 per cent. is obtained in the case of offences against public justice and that the ratio in the case of offences by or against public servants is 33 per cent. In offences relating to property the ratio of convictions is 22 per cent. and that in offences against the human body 6 per cent. The corresponding ratios in the preceding year were 54, 24, 20 and 6 respectively.

111. The general average duration of each offence case disposed of was 20 days as against 21 in the previous year.

112. The average duration of a criminal case in the Varisht Court was 79 days (this includes the time taken up by the Huzoor in cases submitted for confirmation of sentences of death or imprisonment for life) as against 53 days in the preceding year. The average duration in Subha's Courts was 151 days, in the Sessions Courts 40 days; in the Sirdar Court 32 days and in the Magistrate's Courts 20 days. The average duration in the latter three Courts was respectively 44, 52 and 21 in the preceding year. No criminal case was decided by the Subhas in the previous year.

113. The total number of witnesses examined was 26,208, which gives an average of about 2¼ per case. Only about 11 per cent. of the witnesses were examined in the Courts of the Sessions Judges and the rest in those of the Magistrates.

114. Including the balance pending at the beginning of the year and the cases received by transfer, &c., the total number of miscellaneous cases for disposal was 4,832 as against 4,673 in the preceding year. The number of miscellaneous cases disposed of was 4,393, or

46 more than in 1890-91. The number of witnesses examined in these cases was 7,916, which gives an average of about two witnesses per case.

115. The average duration of each miscellaneous case disposed of was 30 days against 32 days in 1890-91.

116. The following table presents at one view the punishments awarded to the persons convicted : —

Nature of sentence.	No. of persons convicted,	
	1891-92.	1890 91.
Death	8	2
Imprisonment only	598	459
Fine only	2,442	2,358
Whipping only	40	68
Imprisonment and fine	1,622	1,676
Imprisonment with whipping	9	15
Imprisonment, fine and whipping	13	27
Total ...	4,732	4,605

117. The only point to be noted here is that there were 6 more persons condemned to capital punishpement than in the year previous.

118. Out of the total number of persons sentenced to imprisonment, 225 or 10 per cent. were sentenced to simple imprisonment and the remaining 2,008 or 90 per cent. were sentenced to rigorous imprisonment. The proportions in the preceding year were 21 and 79 per cent.

119. Of the number sentenced to imprisonment, 9 persons were sentenced to imprisonment for life, 44 were sentenced to terms of imprisonment ranging between two and seven years, 66 to terms of imprisonment ranging between one and two years, 136 to terms ranging between six months and one year, 781 to terms ranging between one and six months, 415 to terms exceeding 15 days but not exceeding one month, and 791 persons to terms not exceeding 15 days.

120. Of the total number of persons fined, 2,614 were fined Rs. 5 and under, 602 were fined between Rs. 5 and 10, 487 between Rs. 10 and 25, 267 between Rs. 25 and 50, 80 between Rs. 50 and 100 and 27 persons between Rs. 100 and 500.

121. The total amount of fines inflicted during the year was Rs. 48,547, exhibiting a decrease of Rs. 17,568 when compared with that of the previous year. The total sum realized including the realizations out of the previous outstandings was Rs. 23,797 against Rs. 24,646 in 1890-91. The realizations for the year under report were about 41 per cent. of the fines inflicted, the corresponding ratio in the preceding year being 37 per cent.

122. The amount of fines refunded in conformity with the orders passed by the Appellate Courts was Rs. 4,195 as against Rs. 5,581 in 1890-91. A sum of Rs. 2,542 was paid to aggrieved parties by way

of compensation, the corresponding figure in the previous year being Rs. 2,959. The amount of time-expired fines written off as irrecoverable amounted to Rs. 20,987 as against Rs. 32,815 in the preceding year.

123. Sentences of flogging were passed on 62 persons and they may the classified as under according to the number of stripes awarded :—

	1891-92	1890-91
10 stripes and under ...	41	75
Between 10 and 20 stripes ...	17	33
Between 20 and 30 stripes ...	4	2
	62	110

124. Of the total number of persons convicted, 4,448 were males and 289 were females ; that is, for every 15 males punished there was one female punished, the same proportion as in the previous year.

125. Turning to the appellate work it appears that there were 30 appeals pending at the commencement of the year in the various Appellate Courts. The number of appeals filed during the year was 569 as against 570 in the previous year. Thus the total number of appeals for disposal was 599 affecting 1,156 persons.

126. Of the number filed, 429 were regular appeals from the decisions of the original criminal courts affecting 760 persons, 38 were special appeals affecting 59 persons, 99 were acquittal appeals affecting 275 persons and 8 were for enhancement of sentence affecting 3 persons. Taking the total number of persons (4,732) convicted by the original criminal courts it appears that $\frac{5}{6}$th or about 16 per cent. contested the decisions passed against them by preferring appeals and that $\frac{1}{6}$th or about 84 per cent. remained apparently satisfied with the decisions passed against them, the proportions in the preceding year being very nearly the same.

127. Of the 429 regular appeals, 31 were filed in the Varisht Court and 398 were filed in the Courts of the Judges. The proportion of regular appeals to the Judges from the decisions of the Magistrates to the total number of cases decided by the latter was nearly 4 per cent. the ratio in the preceding year being 3 per cent. The proportion of regular appeals to the Varisht Court from the decisions of Judges passed in the sessions and other original cases decided by them was 23 per cent. against 29 per cent. in 1890-91. The ratio of special appeals from the appellate decisions of the Judges was 10 per cent. as compared with 12 per cent. in the previous year.

128. The total number of appeals disposed of in the year, inclusive of appeals against acquittal or for enhancement of sentence, was 572 against 536 in the preceding year. Of these, the Judges decided 437 appeals against 379 in the previous year. The Varisht Court disposed of 37 regular appeals, 40 special appeals and 58 appeals against acquittal or for enhancement of sentence, the corresponding figures in the preceding year being 60, 41 and 106 respectively.

129. The total number of persons affected by the appeals disposed of was 1,109 against 1,158 in 1890-91. The decisions of the lower courts were entirely confirmed as against 571 or about 51½ per cent. of the persons affected by the appeals disposed of, and as against 73 persons, that is about 6½ per cent., the decisions of the lower Courts were modified. Thus in the case of about 58 per cent. of the persons affected by the appeals, the lower Courts were found to have done substantial justice and the decisions as against the remaining 42 per cent. were reversed, the corresponding ratios for the preceding year being 66 and 34 respectively.

130. Of the 758 convicted persons whose appeals were disposed of by the Judges, the sentences against 417 or 55 per cent. were confirmed or modified and those against 341 persons or 45 per cent. were reversed. The ratio of reversals in the previous year was about 42 per cent.

131. In 63 per cent. of the persons affected by the regular appeals disposed of by the Varisht Court, the decisions were confirmed, in 16 per cent. they were modified and in 21 per cent. they were reversed, the ratio of reversals in the preceding year being about 30 per cent.

132. Out of the 61 persons affected by the special appeals decided by the Varisht Court, the sentences against 35 or 57 per cent. were confirmed, those against 5 per cent. were modified and those against 38 per cent. were reversed. The reversals in the year preceding were 13 per cent.

133. Of the 5 persons affected by appeals for enhancement of sentence, the sentence against one was modified and that against 2 was reversed.

134. Hitherto appeals against orders of discharge used to be received only by the Varisht Court. During the year, the District Judges were also empowered to hear and dispose of such appeals. Of the 271 persons affected by the acquittal appeals disposed of by the Varisht Court and the District Courts, those against 169 were dismissed; against 87 persons the appeals were allowed and further proceedings sanctioned; and against 13 the appeals were allowed by reversing the order of acquittal recorded by the lower Courts. Thus the ratio of reversals was 37 per cent.

135. The average duration of each appeal disposed of by the Varisht Court was 33 days as against 29 days in the previous year. The average duration of each appeal disposed of by the Judges and Subhas was 23 days the same as in the preceding year.

136. In the exercise of its powers of revision, the Varisht Court called up or received 189 cases against 207 in the previous year. Of these, the Varisht Court itself called up 123 cases, the Subha of Nowsari sent up 19 cases, the Subha of Kadi 17 cases, the Amreli District Judge 12, the Amreli Subha 10 and the other Subhas and Judges sent up 8 cases.

137. Of the 379 persons concerned in the 167 revision cases decided during the year, the decisions against 24 were reversed and in the case of 11 persons new trials were ordered. The sentences were modified as regards 52 of them whilst in respect of the remaining 289 persons, the decisions were not interfered with.

138. Besides the appeals in crime cases, 564 miscellaneous appeals including miscellaneous revision cases were received during the year, of which 77 were in the Varisht Court and 487 in the Courts of the Subhas and Judges. The proportion of appeals to the Subhas and Judges from the miscellaneous cases disposed of by the Magistrates was 11 per cent.

139. Including the pending balance, the total number of miscellaneous appeals and revision cases for disposal was 623 against 692 in the preceding year. Of these, the Subhas and Judges disposed of 451 and the Varisht Court 75, the corresponding figures for the previous year being 555 and 78 respectively. The average duration of each miscellaneous appeal disposed of was 55 days against 58 days. The number of miscellaneous appeals pending at the close of the year was 97 or 38 more than at the end of the preceding year.

140. The following table presents at one view the amount of criminal work for disposal, disposed of and remaining on hand at the close of the year :—

Name of Court.	Total for disposal including pending balance.					Disposed of					Balance.				
	Original.		Appeals and revision cases.			Original.		Appeals and revision cases.			Original.		Appeals and revision cases.		
	Criminal.	Miscellaneous.	Criminal.	Revision.	Miscellaneous.	Criminal.	Miscellaneous.	Criminal.	Revision.	Miscellaneous.	Criminal.	Miscellaneous	Criminal.	Revision.	Miscellaneous.
Magistrates	11,253	4,792	...	...	...	10,973	4,363	...	...	...	280	429	...	...	...
Judges and Subhas	160	39	453	...	334	149	30	437	...	451	11	9	21	...	83
Varisht Court	18	1	141	202	89	17	...	135	167	75	1	1	6	35	14
Total	11,431	4,832	599	202	623	11,139	4,393	572	167	526	292	439	27	35	97
Result for 1890-91	11,690	4,073	616	210	692	11,375	4,347	596	197	633	315	326	30	13	59

141. During the year under retrospect, the Inamdars admitted and disposed of, under the powers conferred on them by sanads, 49 cases involving 86 accused persons. The complaints against 44 persons were withdrawn by *razinamas*, 3 persons were either acquitted or discharged and 39 were convicted and sentenced.

142. Though 27 Inamdars have been invested with limited magisterial powers, only 8 exercised them during the year. No complaints were received against the mode in which the Inamdars or their Kurkuns performed their work.

143. The cost of the Judicial Department for the year under review was Rs. 4,70,002 against Rs. 5,04,416 in the previous year. The total income from stamps, fines, &c., amounted to Rs. 4,17,339 against Rs. 4,23,972. Thus the excess of expenditure over income was Rs. 52,663 as compared with Rs. 80,444 in the preceding year.

144. Out of the total income, the proceeds of the Civil branch amounted to Rs. 3,51,699 as against Rs. 3,58,994 in the previous year and the receipts of the Criminal branch were Rs. 65,640 or nearly the same as those of the preceding year.

145. The expenditure incurred on account of public prosecutors was Rs. 9,337 against Rs. 6,277 in the previous year. The Sirkar also paid Rs. 1,931 to Vakils engaged for the defence of poor persons accused of heinous offences.

REGISTRATION.

146. The number of Registration Offices open was 47 as against 49 in the preceding year. The abolition of the Nondhani Kamdar's Office at Kathore and the amalgamation of the City Judge's Court with the Baroda District Judge's Court account for the decrease in the number of Registration Offices.

147. The Registration Department shows good progress both in the work done and the revenue realized. The total number of documents received for registration was 12,879 as against 11,981 last year. In addition to this number, 498 documents were received in Courts under section 18 of the Nondhani Nibandh as against 459 last year, so that the total number of documents for registration was 13,377 against 12,440 in the preceding year, the increase of 937 transactions being equivalent to 7·53 per cent.

148. The total number of documents presented for registration in the Offices of the Sub-Registrars and Registrars was distributed among the several Divisions as under:—

	1890-91.	1891-92.
Baroda Division including the Baroda City.	5,300	6,125
Kadi Division	4,213	4,193
Nowsari Division	1,546	1,645
Amreli Division	922	916
Total ...	11,981	12,879

149. Thus there was a marked improvement in the number of documents presented for registration in the Baroda Division which has still maintained its first place as compared with the other ones. There was also a rise in the Nowsari Division though small.

150. Of the 12,879 documents received for registration, 12,173 or about 94½ per cent. related to transactions affecting immovable property and 453 or about 4 per cent. to movable property as against 94 per cent. and 4 per cent. respectively in the preceding year; 252 wills were registered against 183 in the previous year, exhibiting an increase of 69 or 37·7 per cent. One authority to adopt was registered against 2 in 1890-91.

151. Of the total number of documents presented for registration, 10,973 or 85 per cent. were compulsorily registrable, 35 of the documents being money bonds above one thousand rupees each, and the remaining 10,938 or 84¾ per cent. being documents relating to immovable property. The percentage in the previous year of documents compulsorily registrable was nearly the same. Registrations of the optional class numbered 1,906, that is, about 15 per cent. of the total number presented as against the same ratio last year. Of these, 1,235 related to immovable property, 418 related to movable property and the remaining 253 were wills.

152. Out of the 12,879 documents shown as presented, 12,486 were presented only once and directly to the Registering Officers; 110 were re-presented after the Sir Kamdars or the Varisht Court reversed the order of the Nondhani Kamdars refusing registration; 18 were presented under section 21 of the Nibandh after the return of documents to parties by public officers who had admitted them in evidence in miscellaneous matters on payment of fees and penalties, and the remaining 265 were sent by Civil Courts under section 23 for being copied in the Registration Books after their execution was proved in the said Courts, the corresponding figures in the preceding year being 11,717, 112, 9 and 143 respectively. The procedure under sections 21 and 23 of the Nibandh is the specialty of our law which aims at not nullifying a document for want of registration though it lays the document under money penalty and at a disadvantage regarding priority.

153. The total number of documents for disposal was 12,946 as against 12,073 last year. Of this number, 12,866 were disposed of leaving a balance of 80 which were awaiting enquiry when the year closed. Of the documents disposed of, 12,678 or about 98½ per cent were ordered to be registered and were actually copied in the Register Books, the percentage for the preceding year being very nearly the same. The number of documents of which registration was refused was 162 or about 1¼ per cent. of the documents disposed of. The percentage of refusals in the previous year was 1½.

154. Only 26 documents were returned unregistered on the application of the parties who presented them.

155. At the close of the year no document remained to be copied in the Register Books. The number of registered documents that remained with the Nondhani Kamdars as they were not taken back by the presentors was 283.

156. The following classification will indicate the nature of the documents presented for registration:—

Instruments relating to immovable property.

	1891-92.
Instruments of gift	94
Sale-deeds	2,614
Mortgages with possession	5,688
Mortgages without possession	3,114
Release or partition-deeds	79
Leases for a term exceeding 3 years	206

Leases for a term not exceeding 3 years		263
Instruments other than the above		115
		12,173

Instruments relating to movable property and miscellaneous transactions.

Money bonds	198
Instruments of mortgage with possession	10
Instruments of mortgage without possession	68
Instruments of divorce	9
Instruments other than the above	168
Wills and authorities to adopt.	453
Wills	252
Authority to adopt	1
	253
Grand Total...	12,879

157. From the above classification it will be seen that the most numerous class of registrations is that of mortgages with possession of immovable property, the proportion under this head being about 47 per cent. of the total number of transactions relating to immovable property. Next in numerical importance come mortgages without possession, their ratio to the total number of transactions relating to immovable property being 25½ per cent. Thus mortgages with and without possession cover 72½ per cent. of the total number of transactions relating to immovable property as against 74 in the year preceding. The proportion of sale-deeds is about 21½ per cent. against 20 per cent. in the previous year and 19 per cent. in 1889-90 and this increase appears to be due to the reduction of stamp duty on sale-deeds under the new Stamp Act.

158. The aggregate stated value of property affected by instruments registered in the year under review amounted to Rs. 67,30,479 against Rs. 57,84,346 in the preceding year, showing an increase of Rs. 9,46,133. Out of this total amount, mortgages of immovable property with possession represented Rs. 25,62,290 and mortgages without possession Rs. 14,07,553; so that these two classes of transactions together represented about 59 per cent. of the total value of property affected, against 65 per cent. in the preceding year. The stated value of immovable property affected by deeds of sale was Rs. 12,91,922 which gives a ratio of 19 per cent. against the same ratio in the two preceding years. The value of immovable property affected by leases amounted to Rs. 1,30,033 against Rs. 83,886. Wills represented a value of Rs. 5,82,814 against Rs. 4,09,009 and the other transactions represented comparatively small values.

159. Arranged according to the values of documents presented, the result shown by the different Districts is as follows:—

	Rs.
Baroda Division including the City	37,91,421
Kadi Division	15,58,994
Nowsari Division	8,96,982
Amreli Division	5,03,085
Total ...	67,30,479

160. Out of the 12,879 documents representing the total value of Rs. 67,30,479, those up to Rs. 200 were 5,214, those exceeding Rs. 200 but not exceeding Rs. 1,000 were 6,465 and those exceeding Rs. 1,000 were 971. Thus the majority of the documents presented ranged in value as usual between Rs. 200 and Rs. 1,000. Exclusive of 187 instruments in which no value or consideration was shown, the average value per transaction comes to Rs. 530 as against Rs. 483 in the previous year and Rs. 473 in the year 1889-90.

161. The total number of miscellaneous operations was 3,702 against 3,327 last year. The principal miscellaneous operations are compared with those of the preceding year in the subjoined table:—

Description of transaction.	1890-91.	1891-92.
Registration on payment of fine under section 28 of the Nibandh	110	115
Registration on payment of fine under section 29 of the Nibandh	142	161
Visits paid by Noudhani Kamdars at private residences ..	237	308
Copies filed, the originals being written in incorrect orthography	502	501
Applications for copies of registered documents ...	196	242
Applications for searches	148	160
Documents returned after payment of fine, because the parties did not take them away in time	79	67
Copies filed of documents of Takavi advances made by revenue officers to ryots	11	19
Copies of Court sale certificates	406	476
Special powers of attorney filed	107	143
General powers of attorney filed	169	240
Documents in which summonses were issued	757	817
Documents in which warrants were issued	133	143
Cases in which refund was ordered	33	12

162. The above comparative figures show that most of the miscellaneous transactions have more or less increased. The increase in the number of visits paid by Noudhani Kamdars at private residences and applications for copies of registered documents and for searches indicate increased appreciation of the benefit of the Registration law.

163. The number of deeds impounded by registering officers during the year on the ground of insufficiency of stamp was 55 against 71 in the previous year. In two of such cases, the deeds so impounded were held to be sufficiently stamped, in 25 the action of the impounding officer was upheld by the Subha and 28 deeds awaited disposal at the close of the year.

164. Proceeding next to the work done by the Sar Kamdars, it appears that 16 appeals and 98 applications were filed during the year against the orders of the Nondhani Kamdars refusing registration as against 19 appeals and 105 applications in the preceding year. This work of the Sar Kamdars has been diminishing every year. The pending balance of appeals and applications at the close of the last year was 8 and 21 respectively. Thus the total number of appeals and applications for disposal was 143 against 169 in the previous year. Out of this number, 117 were disposed of and 26 remained as the pending balance at the end of the year. The average duration of the appeals and applications disposed of was 127 days as against 117 days last year. The number of witnesses examined was 291 which gives an average of 2 witnesses per case.

165. Out of the 20 appeals and 97 applications disposed of, registration was ordered in 16 appeals and 87 applications, so that the percentage of documents ordered to be registered by the Sar Kamdars comes to 88.

166. The number of appeals preferred from the decisions of Sar Kamdars was 16 against 12 last year. All these 16 appeals were against orders passed on applications by the Sar Kamdars. Out of this number, registration was ordered by the Varisht Court in 13, 2 were struck off the file and one appeal was pending at the close of the year. The average duration of each case of appeal against appellate orders was 39 days against 211 days in the preceding year and 226 days in the year 1889-90 and this indicates a very satisfactory improvement. Besides these, 3 miscellaneous appeals were disposed of.

167. Of the 47 candidates who appeared at the Departmental Examination two only were declared successful.

168. The financial results of the year's operations were as follows :—

Receipts.

	Rs.
Ordinary Registration fees	22,200
Copying fees	7,773
Fines under sections 28 and 29 of the Nibandh ...	3,088
Other receipts	2,418
Fees and fines on documents received in Courts under section 18	9,164
Court-fee stamps	284
Total...	44,932

Expenditure.

	Rs.
Fixed salaries	6,841
Percentage paid to Noudhani Kamdars	11,574
Amount paid to Nondhani Kamdars to make up the minimum amount of Rs. 20 per mensem	478
Other charges	4,311
Postage service stamps	421
Total...	23,625

169. It will be observed from the above figures that the balance of income over expenditure for the year under report was Rs. 21,307 against Rs. 14,949 in the preceding year. The financial condition of the department was thus satisfactory.

170. Excluding the fees and fines realized in courts under section 18 and the receipts from court-fee stamps, the income was distributed over the several Divisions as under :—

	Rs.
Baroda Division	16,566
Kadi Division	10,689
Nowsari Division	5,539
Amreli Division	2,681
Total ...	35,475

171. Looking to the details of income according to the sub-divisions of Registration offices, it appears that the receipts in the offices of Special Nondhani Kamdars were about 90 per cent., while those in the offices of *Ex-Officio* Kamdars were 10 per cent. against 91 and 9 per cent. respectively in the previous year.

172. On the principle of dividing the ordinary fees by the number of registrations, the average cost of each registration comes to Rs. 2-5-3, of which Rs. 1-11-7 were for the ordinary *advalorem* or fixed fee and annas 0-9-8 were for the copying fee. The average amount of ordinary registration charges per document in the preceding year was Rs. 2-4-9. The average charge per document compulsorily registrable came to Rs. 2-5-5 and that per document of the optional class came to Rs. 1-14-3, the corresponding averages for the previous year being Rs. 2-6-10 and Rs. 1-9-6 respectively.

173. The detailed statistics of the department are contained in the Appendices.

JAILS.

174. There has been no change in the number of jails and lock-ups during the year.

175. While the total number of convicts and under-trial prisoners admitted to the jails during the year fell to 7,802 from 7,975 in the preceding year, the number of convicts admitted increased from 3,261

to 3,373. The following table gives the figures for the past five years:—

Year.	Total admissions.	Admission of convicts.	Percentage of admission of convicts to total admissions.
87-88	8,215	3,187	39
88-89	10,361	3,986	38
89-90	8,928	3,450	39
90-91	7,975	3,241	40
91-92	7,802	3,373	43

176. While the admissions were more by 132 than those in the preceding year, the daily average strength showed a decrease of 82 inmates. This was due to a comparatively large number of short term prisoners admitted.

177. *Central Jail.*—This jail at the capital is under the control of an officer called the Superintendent. The number of prisoners remaining in this Jail at the commencement of the year under report was 633 (591 convicts, 29 under-trial prisoners and 13 lunatics) and the admissions during the year were 841. Of these latter, 606 were convicts, 220 were accused persons awaiting trial and 15 were lunatics. Thus the total number of prisoners confined in the Central Jail was 1,474 as compared with 1,427 in the previous year.

178. The total admissions were less than those in the year preceding by 7, while those of convicts alone exceeded by 77.

179. The daily average number of prisoners confined was 615 as against 565 in the previous year.

180. The following statement gives particulars regarding the prisoners in the Central Jail for the year under report:—

1	2	3			4			5			6			7			8			9		
Number.	Class of prisoners.	Remained on 31st July 1891.			Received during the year 1891-92.			Total.			Discharged, &c.			Remained at the end of the year 1891-92.			Daily average of each class.			Total daily average of whole Jail.		
		Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total	Males	Females.	Total

	Corresponding figures for 1890-91	537	33	570	891	47	938	1,428	80	1,508	741	40	781	592	41	633	530	35	565	530	35	565

181. Of the convicted prisoners, 1 was transferred to another jail, 58 were released on appeal compared with 29 in the preceding year, 354 were released on expiry of sentence, 145 on payment of fine and 1 was set at liberty by order of the Sirkar for exemplary behaviour during incarceration. Of the rest, 6 were executed, 5 escaped, 24 died and 603 remained in the jail at the end of the year.

182. All the five prisoners who escaped were convicts and they managed to do so while on extramural work. Of these, three were re-captured and two remained at large.

183. Twenty-nine prisoners were awaiting trial at the commencement of the year and 208 males and 12 females were admitted under-trial during the year, thus making a total of 249 under-trial prisoners. Of these 43 were convicted and sentenced, 55 were released and 140 were transferred to other jails. The remaining 11 were awaiting trial when the year closed.

184. Of the lunatics, 8 were released after recovery and 4 were handed over to their relatives.

185. Among the convicts remaining in the jail at the beginning of the year, there were 37 re-convicted prisoners. Of the admissions during the year, 40 had been once previously convicted, 6 twice and 3 more than twice. Thus at the close of the year under review there were 86 re-convicted prisoners and their percentage to the daily average number of convicts in the jail was 14·64 as against 14·87 in the preceding year.

186. The number of juvenile convicts admitted to jail was 10 as against 13 in the previous year.

187. The number of jail offences committed by prisoners rose from 82 in the preceding year to 93 during the year under report. These chiefly consisted of smoking and possession of forbidden articles, wilful damage to jail property and other breaches of jail discipline. The number of instances of the infliction of corporal punishment was 26; that of solitary confinement was 2; that of reduced diet was 58 and that of other punishments was 7.

188. Of the 606 admissions, 528 or 87·13 per cent. were Hindus and 73 or 12·05 were Mahomedans, the corresponding percentages in the preceding year being very nearly the same.

189. Out of the 570 male convicts admitted to the jail, 211 were laborers and 284 agriculturists; these two clases ,forming 86 per cent. of the admissions. Shop-keepers and Government servants were in the

proportion of 29 and 56 per cent. respectively. Of the 36 female convicts admitted, only one was unmarried.

190. The following will indicate the nature or length of sentence passed on the convicts admitted into the jail during the year under review:—

Nature and term of sentence.	Males.	Females.	Total.
Executed	6	...	6
Life imprisonment	7	...	7
Above 10 years and not exceeding 14 years	1	...	1
Above 5 years and not exceeding 7 years ...	2	...	2
Above 3 years and not exceeding 5 years ...	22	...	22
Above 1 year and not exceeding 3 years...	105	3	108
Above 6 months and not exceeding 1 year	134	7	141
Above 1 month and not exceeding 6 months	213	20	233
Not exceeding 1 month	80	6	86
Total ...	570	36	606

191. From the above it will be seen that more than one-half of the total number of convicts admitted, *viz.*, 52·64 per cent. were sentenced for periods not exceeding six months, 23·27 per cent. for periods between six months and one year, 21·45 per cent. for periods between one and five years and nearly 0·49 per cent. for upwards of five years. Seven convicts were sentenced to life imprisonment and 6 were executed.

192. To the Central Jail there is a manufactory attached. A portion of the jail population is employed in it, others as jail servants within the walls and the remainder extramurally in watering, clearing and repairing roads in Government gardens.

193. The percentages of convicts employed on manufactures and extramural labor were respectively 34·58 and 45·65.

194. Including the assessed value of extramural labor, the total earnings of the convicts in the Central Jail amounted to Rs. 12,911 against an expenditure of Rs. 47,267 on that institution.

195. The average profit per prisoner was Rs. 22 as against Rs. 23 in the previous year.

196. There were 24 deaths during the year under advertence and all these occurred among convicts. The percentage of deaths to the daily average number of convicts was 4·09 and to the total daily average of inmates 3·9 as against 2·60 and 2·48 respectively in the previous year. The increase in the number of deaths was largely due to influenza, from which, in all, 11 deaths occurred. The other chief causes of death were dysentery and diarrhœa. During the year under review there was no case of cholera in the jail, though the epidemic prevailed in the City.

197. The daily average of sick prisoners in the jail was 42·31 as against 39·3 in the preceding year. The total number of patients treated in the Jail Hospital was 1,192, of whom, 470 were in-door patients.

198. The total expenditure during the year was Rs. 47,267 as against Rs. 44,501 in the year previous, thus showing an increase of Rs. 2,766, which is mainly attributable to the increase in the average daily number of prisoners.

199. The average annual cost per prisoner was Rs. 76-13-8 as against Rs. 78-12-2 in the preceding year, indicating a decrease of Rs. 1-14-6. The following comparative table will show that the decrease was effected without curtailing any of the comforts or necessaries of the convicts. Under the head 'Diet' there was actually a perceptible increase which was more than counterbalanced by the decrease under the heads 'Establishment and Guarding':—

Heads of charges.	Average cost.	
	1891-93.	1890-91.
	Rs. a. p.	Rs. a. p.
Diet	34 15 3	33 12 5
Establishment	26 9 3	30 7 3
Guarding	8 1 8	8 13 2
Clothing	2 14 7⅓	2 14 5
Hospital charges	1 4 6	1 3 9
Dead stock...	1 5 4	0 1 6
Contingencies	1 11 ½	1 7 8
Total ...	76 13 8	78 12 2

District and other Jails and Lock-ups.

200. The number of prisoners remaining in the District and Subordinate Jails and Lock-ups at the commencement of the year was 382 and the admissions during the year were 6,992 or less than in the last year by 158. Of the total number (7,374), 3,026 were convicts, 4,329 were under-trial prisoners and 19 were lunatics, as will appear from the particulars given in the subjoined table:—

1	2	3			4			5			6			7			8			9		
Name of Jail.	Class of Prisoners.	Remaining at the commencement of the year.			Received during the year.			Total.			Discharged, &c.			Remaining at the end of the year.			Daily average of each class.			Total daily average of all classes.

	Corresponding figures for 1890-91...	409	17	516	6,717	433	7,150	7,216	450	7,666	6,858	426	7,284	358	24	382	531	33	564	531	33	564

201. The total number of 6,992 admissions includes prisoners transferred to other jails before or after conviction and under-trial prisoners entered as new admissions after conviction, the total number under both the heads being 3,106. This number must be considered as twice entered under admissions so that the number actually admitted was 3,886.

202. The total daily average in the District and Subordinate Jails and Lock-ups together was 355, *i. e.*, 344 males and 11 females, as against 564, *i. e.*, 531 males and 33 females in the year preceding.

203. Taking the daily averages in the different classes of jails separately, it appears that in the District Jails there was a decrease of 128 and in the Subordinate Jails and Lock-ups of 81 as compared with the corresponding averages for the previous year.

204. The details with regard to the disposal of convicts discharged from all causes are given in the subjoined table:—

Convicts.

Cause of discharge.	District Jails.	Subordinate Jails.	Look-ups.	Total.
Transferred to other Jails	185	121	582	888
Released on appeal	39	19	61	119
„ on expiry of sentence	399	156	836	1,391
„ on payment of fine...	164	7	157	328
„ by Huzur order and from other causes ...	.....	1	4	5
Executed	4	.....	1	5
Escaped	4	.....	.....	4
Died	4	2	1	7
Total... ...	799	306	1,642	2,747

205. Of the 4 convicts shown to have escaped, 2 belonged to the Kadi Jail and 2 to the Okhamandal Jail; the former effected their escape while employed on extramural work. Of these four escaped convicts two are still at large.

206. The following table gives the details regarding the disposal of under-trial prisoners:—

Under-trial Prisoners.

Cause of discharge.	District Jails.	Subordinate Jails.	Lock-ups.	Total.
Convicted and sentenced	225	175	1,205	1,605
Released	315	314	1,351	1,980
Transferred to other Jails	33	46	534	613
Escaped	.....	1	1	2
Died	4	1	3	8
Total ...	577	537	3,094	4,308

207. Of the two under-trial prisoners who escaped, one belonged to the Petlad Jail and the other to the Padra Lock-up. Both these prisoners were re-captured soon afterwards.

208. The total number of deaths in the District and Subordinate Jails and Lock-ups was 19, of which, 7 were among convicts. The chief causes of death were fever, diarrhœa and dysentery.

209. The total expenditure incurred on account of the different classes of jails amounted to Rs. 35,452 as per details below :—

District Jails...	Rs. 24,212
Subordinate Jails	„ 4,014
Lock-ups	„ 7,226
	Rs. ... 35,452

210. The total expenditure incurred in the preceding year was Rs. 41,883. There was thus a decrease of Rs. 6,431 in the year under review, which was due to the smaller daily average number of prisoners. The decrease occurred in the District and Subordinate Jails.

211. The average cost per prisoner was Rs. 136-0-4 for District jails, Rs. 111-7-11 for Subordinate Jails and Rs. 51-4-0 for Lock-ups, the corresponding figures for the preceding year being Rs. 98-5- 9, Rs. 107-15-3 and Rs. 33-3-7 respectively. It will thus be seen that there was a perceptible increase in the average cost per prisoner in all the three classes of jails.

212. The total earnings of the convicts in the different District Jails amounted to Rs. 3,603 against Rs. 2,325 in the year previous.

213. The following comparative table furnishes particulars of the inmates of all the jails severally noticed above for the year under report and the year preceding :—

	Convicted.		Under-trial.		Lunatics.		Total.	
	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.

Disposed of during the year ...	3,312	3,341	4,742	4,446	24	29	8,078	7,816
Remaining at the end of the year	850	882	149	132	16	18	1,015	1,032

POLICE.

214. The actual strength of the Police Force on the last day of the year, including the non-effectives, was 4,426 or 477 less than the sanctioned strength. The force as graded is shown below :—

Commissioner		1
Superintendents or Police Naib Subhas.		4
Sir Fouzdars and Fouzdars		51
Subordinate Officers and men—		
Foot	3,972	4,258
Mounted	286	
Non-effectives		112
Total		4,426

215. The above force (exclusive of the Commissioner and the Police Naib Subhas) was distributed among the four territorial divisions thus :—

Divisions.	Sir Fouzdars and Fouzdars.	Subordinate officers and men.		Non-effectives	Total.
		Foot.	Mounted.		
Baroda Division	16	1,359	86	37	1,498
Nowsari „	11	725	45	22	803
Kadi „	17	1,343	105	29	1,493
Amreli „	7	546	50	24	627
Total ...	51	3,973	286	112	4,421

216. The above figures should not be taken as representing the regular Police Force who do duties of a purely police nature, for they include 116 non-effectives. Deducting these, there were 4,309 who formed the Police proper.

217. The proportion of police to population was 1 to 505 against 1 to 482 in 1890-91.

218. The sub-joined statement shows the distribution of the force (exclusive of non-effectives) among the several Divisions according to religion:—

Name of Division.	Hindus.		Mahomedans.		Parsis, Jews and Christians.		Total strength of each Division.
	Strength.	Percentage to the force.	Strength.	Percentage to the force.	Strength.	Percentage to the force.	
1	2	3	4	5	6	7	8
Baroda Division	861	58·89	599	40·97	2	0·14	1,462
Nowsari do.	531	67·90	248	31·72	3	0·38	782
Kadi do.	552	37·68	907	61·91	6	0·41	1,465
Amreli do.	373	61·75	231	38·25	...	...	604
Total ...	2,317	53·72	1,985	46·02	11	0·26	4,313.

219. In the Baroda and Amreli Divisions, about three-fifths of the force consisted of Hindus and nearly two-fifths of Mahomedans. In the Nowsari Division, a little more than two-thirds were Hindus and a little less than one-third were Mahomedans; while in the Kadi Division, the proportion of Hindus and Mahomedans was nearly one-third and two-thirds respectively.

220. Looking to the details of the composition of the force, it appears that the different castes and creeds were well represented Amongst officers, 38·26 per cent. were Mahomedans, 0·63 per cent. were Parsees and 61·11 per cent. were Hindus of all castes. Of the Hindus, 44·43 per cent. were Brahmins, 11·83 per cent. were Rajputs, 22·81 per cent. were Marattas, 5·49 per cent. were Parbhoos and Senoys and 15·44 per cent. were Hindus of other castes.

221. Of the men, 48·23 per cent. were Mahomedans, 0·03 per cent. were Parsees and 51·74 per cent. were Hindus of all castes. Of the Hindus, 19·10 per cent. were Brahmins, 15·71 per cent. were Rajputs, 29·11 per cent. were Marattas, 1·61 per cent. were Parbhoos and Senoys, 1·27 per cent. were Wagheers, 12·08 per cent. were Kolees and Bhils and 21·12 per cent. were Hindus of other castes.

222. As compared with the previous year, the proportion of Mahomedans in the actual strength of the whole force shows an increase of 2·18 per cent., while that of Hindus shows a decrease of 1·77 per cent.

223. The increase in the number of Bhils and Kolees, though small, is to be noted with satisfaction. The number of Wagheers in the force has risen from 8 to 23.

224. During the year 6 officers and 111 men were dismissed, 30 officers and 23 men were reduced to lower grades and 3 officers and 17 men were criminally punished. As compared with the previous year, the number of dismissals increased by 41, that of members of the force reduced to lower grades by 18, and that of those criminally punished by 8; thus the conduct of the members of the Police Force during the year would appear not to have been as satisfactory as it was in the year preceding. On the other hand, 86 officers and 697 men were promoted as against 246 officers and 683 men in 1890-91; and 8 officers and 15 men received money-rewards for good services against 37 officers and 42 men. Of the 697 promotions, 594 occurred in the Baroda Division, which large number was attributable to the reorganization of the Police of the Division, in the carrying out of which the pay of the men were raised.

225. During the year 99 persons tendered resignation, 177 were discharged otherwise, 182 deserted the force and 88 died. As contrasted with the previous year, the number of resignations and discharges increased by 17 and 41 respectively.

226. The proportion of men who could read and write was 36·03 per cent. or 4·30 per cent. less than the ratio for the year preceding The decrease occurred generally in all the Divisions. Although there was a perceptible decrease in the Baroda Division, it stood foremost with regard to the proportion of educated men in the force; the Nowsari Division took the second place and then followed in order the Amreli and the Kadi Divisions. The number of persons under instruction also fell from 257 in 1890-91 to 197 in the year under retrospect.

227. The different classes of duty on which the Police force was employed were as under:—

	Officers.	Men.
Jail, Treasury and other guards	68	194
Tainat duty	26	271
General Police duty	860	2,894
Total...	954	3,359

228. The total cost of the force amounted to Rs. 7,57,659 against Rs. 7,56,906. The figures for each Division separately were as under:—

	1891-92.	1890-91.
	Rs.	Rs.
Baroda Division	3,04,067	2,69,285
Nowsari do.	1,20,829	1,23,092
Kadi do.	2,34,780	2,77,325
Amreli do.	97,983	87,204
. Total...	7,57,659	7,56,906

229. Thus it will be seen that the aggregate decrease in the Kadi and Nowsari Divisions was more than counterbalanced by the increase in the Baroda and Amreli Divisions.

230. The heads under which the actual expenditure indicated above was incurred were as follows :—

	Rs.
Pay and allowances	6,14,020
Clothing and accoutrements ...	1,09,253
Miscellaneous charges... ...	34,386
Rs....	7,57,659

231. The cost per policeman came to Rs. 171-2-11 as against Rs. 162-13-6 or Rs. 8-5-5 more than that incurred in the year preceding. This increase is attributable to the supply of new arms and accoutrements to a portion of the Police Force.

232. On the whole, crime was on the decrease. The total number of offences reported was 4,854 against 5,135 in the preceding year. The number of offences this year was not only less than that reported in the preceding year by 281, but it was the lowest figure ever reached during the decade ending 1891-92 as will be seen from the subjoined figures. This satisfactory decrease is attributable to the efficient working of the Police, to the favorable character of the season and to various other causes :—

1882-83	... 6,947
1883-84	... 6,285
1884-85	... 6,613
1885-86	... 6,450
1886-87	... 6,719
1887-88	... 7,095
1888-89	... 7,733
1889-90	... 6,216
1890-91	... 5,135
1891-92	... 4,854

233. The following table gives particulars relative to crime in the four Divisions of the State for the year under review and the preceding year:—

No.	Nature of crime.	Baroda.		Nowsari.		Kadi.		Amreli.		Total	
		1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1891-92.	1890-91.	1890-91.	1891-92.
1	2	3	4	5	6	7	8	9	10	11	12
1	Murder	12	14	2	1	9	9	7	4	30	28
2	Culpable homicide not amounting to murder	1	1	1	3	18	18	4	...	24	17
3	Rape	4	6	3	...8	6	10	...	1	18	17
4	Grievous hurt	53	58	12	2	84	75	17	17	166	158
5	Dacoity	5	3	3	2	4	7	...	...	11	12
6	Robbery	46	55	12	15	40	57	13	12	111	189
7	House-breaking	4'	37	37	26	164	142	49	50	280	255
8	Theft	982	1,211	197	236	1,497	1,407	195	217	2,871	3,131
9	Receiving stolen property	20	30	6	6	41	75	11	8	78	119
10	Criminal breach of trust	47	57	14	9	71	80	8	3	140	149
11	Mischief by fire	46	47	2	2	10	32	12	9	70	90
12	Miscellaneous offences	339	311	159	120	480	562	82	77	1,060	1,020
	Total.....	1,595	1,840	437	4.8	3,424	2,469	398	398	4,854	5,135

234. Of the offences reported during the year, 30 were cases of murder, 24 of culpable homicide not amounting to murder, 13 of rape and 166 of grievous hurt, against 28, 17, 17 and 158 respectively in the preceding year. Thus serious offences against the person alone taken collectively show an increase. The offences of murder and culpable homicide not amounting to murder perceptibly increased in the Amreli Division. As regards the 166 cases of grievous hurt, it may

be here remarked that the section of the local criminal law which deals with this offence is wider than the corresponding section of the Indian Penal Code and consequently includes certain classes of hurt which, under the Penal Code, would be regarded as falling within the definition of simple hurt. The cases of actual grievous hurt were, therefore, not so numerous as the above figure would lead one to suppose.

235. Looking to the particulars of offences against property attended with violence, it appears that there was a decrease in the number of dacoities reported in the Kadi Division—a satisfactory result attributable to the numerous convictions of dacoits in each successive year and to the improved knowledge of the criminal population possessed by the local police. Cases of robbery have been fewer during the year, 111 cases having been reported against 139 in the year previous. The decrease in this latter class of offences occurred in all the Divisions except Amreli.

236. Cases of house-breaking show an increase, 280 cases having been reported against 255 in the previous year. The offences of theft, receiving stolen property, and mischief by fire show a decrease, while the miscellaneous offences show a slight increase.

237. Including the arrears of the previous year, the total number of offences brought under enquiry during the year under retrospect was 5,223. Of these 1,216 or 23·28 per cent. were struck off the criminal registers, as in these cases no offence was found to have been committed; in 330 cases or 6·32 per cent. *razinamas* were tendered by the complainants before enquiry; 84 cases or 1·61 per cent. remained on the dormant file; 566 cases or 10·84 per cent. remained undetected at the end of the year and 3,027 or 57·95 per cent. were sent to Magistrates. Out of these latter again, 151 cases were disposed of by *razinamas* and 162 were pending before the Magistrates when the year closed; so that the number of cases affording a test of police operations was 2,714, out of which, 1,907 cases or 70·26 per cent. resulted in convictions and 807 or 29·74 per cent. in acquittals as against 65·92 and 34·08 respectively in the preceding year. This improvement in the ratio of convictions occurred in all the Divisions, the Baroda and Nowsari Divisions exhibiting an increase of 8 and 7 per cent. respectively. As regards the percentage of convictions, the Amreli Division comes first, the Kadi Division comes next, the Nowsari Division takes the third place and the Baroda Division comes last, the order in the previous year being the same. The subjoined

table gives for each Division separately the result of cases sent to Magistrates for enquiry :—

Division.	Result of cases.						
	Resulted in acquittals.	Disposed of by Razinama.	Resulted in convictions.	Remained pending at the close of the year.	Total No. of cases sent to Magistrates for enquiry.	Percentages of convictions to cases sent to Magistrates for enquiry.	
						1891-92	1890-91
Baroda Division ...	295	62	579	48	984	66·24	58·33
Nowsari do. ...	98	9	235	13	355	70·57	63·88
Kadi do. ...	365	70	899	50	1,384	71·12	69·32
Amreli do. ...	49	10	194	51	304	79·84	76·51
Total ...	807	151	1,907	162	3,027	70·26	65·92

238. The total number of persons arrested during the year under report was 6,298 as against 6,771 in the year preceding. There was thus a decrease of 473 in the number of arrests during the year. Of the persons arrested, 739 were let off without trial, 4 died, 1 escaped, 2 remained in Police custody, 81 were on bail at the end of the year, and the rest, *viz.*, 5,471, were committed to take their trial before Magistrates as against 5,902 in the year previous. Although there was a decrease in the total number of offences dealt with and in that of persons arrested in connection with them, there was an increase in the number of persons discharged without trial, a result which indicates the exercise of less discrimination in arrests on the part of the police. The percentage of persons discharged without trial to those arrested was 11·73 against 10·56 in the year preceding. There was a satisfactory falling off in this respect in the Baroda and Amreli Divisions, which was more than counterbalanced by the increase in the Kadi and Nowsari Divisions.

239. Of the 5,471 persons sent to Magistrates for trial, 248 were released on *razinamas*, 6 died after commencement of trial, 1 escaped, 2,983 were convicted, 1,968 were acquitted, and 265 awaited trial at the close of the year. The proportion of persons convicted was 60·25 per cent. of those sent to Magistrates for trial, the corresponding ratio in the year preceding being 57·48. This higher ratio of convictions cannot but be deemed satisfactory. The improvement was general and occurred in all the four Divisions.

240. The above increase in the general average was mainly due to the higher percentages shown by the Baroda and Nowsari Divisions, the figures for the two Divisions being 55·68 and 61·00 respectively against 47·40 and 57·12 in 1890-91.

241. The Amreli Division stands highest as regards percentage of convictions to the number of persons sent to Magistrates for trial, 70·60 per cent. having been convicted. Then follow the Kadi and Nowsari Divisions, the percentage of convictions being 61 per cent. in each, and the Baroda Division comes last, the percentage in that Division being 55·68. The following statement gives details for each Division as to the manner in which the persons sent to Magistrates for trial were dealt with:—

Division.	Disposal of persons sent to Magistrates for trial.						
	Released after Examination.	Convicted.	Acquitted.	Died after commencement of trial.	Escaped.	Pending trial at the close of the year.	Total.
Baroda Division ...	93	951	757	...	1	60	1,862
Nowsari do. ...	16	330	211	...	...	14	571
Kadi do. ...	125	1,397	873	4	...	108	2,507
Amreli do. ...	14	305	127	2	...	83	531
Total ...	248	2,983	1,968	6	1	265	5,471

242. Of the total number of persons convicted, 2,832 were males and 151 females. Out of the 2,832 males, 2,629 were Hindus of all castes and 203 Mahomedans, the proportions being 92·83 and 7·17 per cent. respectively. Of the Hindus again, 1,459 or 51·62 belonged to the Koli and Bhil population.

243. In 1,921 cases property to the extent of Rs. 2,19,387 was alleged to have been stolen as against 2,033 cases involving property of the value of Rs. 1,66,471 in the previous year. The increase in the stated value of property stolen mostly occurred in the Kadi Division. Rs. 1,60,219 worth of property was recovered in 1,549 cases as against Rs. 1,08,014 worth of property in 1,501 cases in 1890-91. Thus the proportion of property recovered and that of cases in which it was recovered compare favorably with those of the preceding year, the percentages being respectively 73·03 and 80·64 against 64·88 and 73·83.

244. As regards the percentage of property recovered, an improvement upon the result of the preceding year is observable in all the Divisions except Amreli which shows a decline of a little more than 8 per cent. The Nowsari Division which stood last in this respect in the previous year takes the first place during the year under review, there being an increase of more than 28 per cent. in that Division. The Kadi Division also shows an increase of more than 11 per cent. over the previous year's result. With regard to the number of cases in which property was wholly or partially recovered, there was a general improvement in all the four Divisions.

245. Both as regards the number of cases in which property was recovered and the proportion of property recovered, the Nowsari Division shows the best result, the Kari Division comes next, the Baroda Division takes the third place and the Amreli Division stands last. The following comparative table gives the necessary details with regard to the recovery of stolen property for each Division :—

Division.	1891-92.				1890-91.				Percentage of property recovered to property stolen.		Percentage of cases in which property was recovered to those in which is was stolen.	
	Cases in which property was alleged to have been stolen.	Alleged value of property stolen.	Cases in which property was recovered.	Value of property recovered.	Cases in which property was alleged to have been stolen.	Alleged value of property stolen.	Cases in which property was recovered.	Value of property recovered.	1891-92.	1890-91.	1891-92.	1890-91.
1	2	3	4	5	6	7	8	9	10	11	12	13
	No.	Rs.	No.	Rs.	No.	Rs.	No.	Rs				
Baroda Division	604	81,060	453	54,654	748	83,647	466	54,473	67·42	65·12	74·83	62·30
Nowsari do. ...	141	3,758	130	3,100	168	8,808	153	4,773	82·49	54·19	92·20	91·07

Amreli do.	202	9,494	145	4,893	216	9,340	145	5,591	51·54	59·86	71·78	67·1
Total ...	1,921	219387	1,549	160219	2,033	166471	1,501	108014	73·03	64·88	80·64	73·83

246. The reorganization of the Police Force of the Baroda Division was taken in hand and completed about the close of the year under review.

247. The construction of 25 Police Thanas at an aggregate cost of Rs. 42,904 was sanctioned.

EXTRADITION.

248. During the year under report, the Baroda Government made extradition demands in 115 cases, against 109 of last year, and received similar demands in 112 cases from British Districts and Native States, against 106 of last year, as shown below:—

Demands by Baroda.

On	No. of demands made.		No. of demands withdrawn.	
	Cases.	Men.	Cases.	Men.
British Districts	70	162	2	7
Native States	45	119	.....	3
	115	281	2	10

Demands on Baroda.

By	No. of demands made.		No. of demands withdrawn.	
	Cases.	Men.	Cases.	Men.
British Districts	51	83	3	5
Native States	61	155	1	6
	112	238	4	11

249. Cases are carefully scrutinized before demands are preferred by His Highness' Government. Hence the number of cases withdrawn after the demands had been made is small, a result which must be regarded as satisfactory.

250. During the same period, 305 men were surrendered to Baroda in 118 cases, while Baroda surrended 220 men in 99 cases as shown below:—

Surrenders to Baroda.

From	No. of surrenders on demands made during the year.		No. of surrenders on demands made during previous years.		Total No. of surrenders during the year.	
	Cases.	Men.	Cases.	Men.	Cases.	Men.

Native States ...	42	101	19	50	61	151
	76	159	23	61	99	220

251. Out of the total number of 342 persons surrendered to Baroda in 127 cases (including 9 cases involving 37 men of the previous year), 333 persons were tried in 123 cases. Of these latter, 140 men were convicted and 193 acquitted as detailed below :—

From	No. of cases for trial.						No. of trials.		No. of convictions.		No. of acquittals.		Pending.	
	Pending at the close of the preceding year.		Received during the year.		Total.									
	Cases.	Men.	Cases.	Men.	Cases.	Men.	Cases.	Men.	Cases.	Men.	Cases.	Men.	Cases.	Men.

	9	37	118	305	127	342	123	333	78	140	45	193	4	9

252. Certificates for trial in British India were issued in 5 cases (all of non-extraditable offences with the exception of one case) involving 24 men.

253. One man, named Sadla Dola, surrendered by the Political Agent, Rewakanta, on a charge of murder, was sentenced to capital punishment; and two men, named Narandas Baldev and Modji Anaji, surrendered by the District Magistrates of Kaira and Ahmedabad respectively, on the same charge, were sentenced each to rigorous imprisonment for life.

CENSUS.

254. According to the last Census which was synchronous with that of British India and which was taken on the night of the 26th February 1891, the population of this territory was 24,11,447 souls—12,50,769 males and 11,60,778 females. Including the population of the Baroda Camp, the grand total was 24,15,396 souls or 12,52,983 males and 11,62,413 females.

255. The population is distributed over the several Divisions as under:—

No.	Name of Division.	Total population.	Total males.	Total females.
1	Amreli	1,80,188	93,844	86,344
2	Kadi	10,98,742	5,63,363	5,35,379
3	Nowsari	3,19,443	1,60,913	1,58,530
4	Baroda Division, excluding City and Cantonment	7,00,603	3,71,992	3,28,611
5	Baroda City	1,12,471	60,557	51,914
6	Baroda Cantonment	3,949	2,314	1,635
	Grand Total ...	24,15,396	12,52,983	11,62,413

256. For Census purposes, the City of Baroda was regarded as a separate Division. The figures for the City being added to those of the Baroda Division, the total for the Division comes to 8,13,074.

257. The above figures will show that the Kadi Division contains the largest percentage, namely, 45·49 per cent. of the population, and Amreli the smallest, 7·46 per cent.

258. The Baroda Division including the City contains nearly ⅓rd or 33·32 per cent. and the Nowsari Division 13·23 per cent. Compared with the previous Census the Divisions stand in the same order with regard to population.

259. The total increase of population on the Census of 1881 is 2,30,391 souls in both the sexes together, that is, an increase of 10·54 per cent. This gives a rate of 1·05 per cent. increase of population every year.

260. During the ten years that elapsed between this Census and the previous one, there was nothing of any importance which could have had any appreciable effect on disturbing the ordinary rate of

increase of the population. The total increase was spread over the different Divisions as under:—

Name of Division.	Population according to the census of 1891.	Population according to the census of 1881.	Increase.
Amreli	1,80,188	1,47,468	32,720
Kadi	10,98,742	9,88,487	1,10,255
Nowsari	3,19,443	2,87,549	31,894
Baroda Division including the City	8,17,023	7,61,501	55,522
Total ...	24,15,396	21,85,005	2,30,391

261. Nearly half the increase numerically falls to the Kadi Division, the increase being 1,10,255 souls, and nearly half of this again (55,522) comes to the share of the Baroda Division, including the City, while the increase in the Amreli and Nowsari Divisions is respectively 32,720 and 31,894. If we take the Capital City and the Cantonment separately, the former shows an increase of 10,653 souls, while the latter shows a decrease of 745 owing to a reduction in the strength of the British Regiment stationed there.

262. The following table gives the total results of the Census of 1881 and 1891 Mahalwar, with the differences of population and the rates of increase or decrease:—

Name of Mahal.	Total.			Percentage of the variation over the total population of 1881.
	1891.	1881.	Variation.

Total Baroda Division (including the City and Cantonment.)	8,17,023	7,61,501	+55,522	+7·29

263. The foregoing table shows that the population in 35 out of 44 Mahals has increased and that most of the Talukas have maintained their positions in the list with regard to their population.

264. That there should be a steady increase on the whole under ordinary circumstances of human life of the kind we have had during the decade ending 1890 is the natural law of population. The figures of the above table bear out this law.

265. The average density of population is 293·20 per square mile for the whole territory exclusive of the Cantonment and 293·63 inclusive of the Cantonment, against 254·95 of the previous Census, the maximum being 1093·77 in the Gandevi Taluka and the minimum 47·49 in the Songad Taluka.

266. Arranging our three Gujarat Divisions with the neighbouring five collectorates in the order of density of their population we have, Kaira 541·7, Baroda 427·7, Surat 391·1, Kadi 349·2, Ahmedabad and Broach 233·4, each, Panch Mahals 194·3 and Nowsari 161·2. Out of the 8 places, our Baroda and Kadi Divisions take the 2nd and 4th place, and Nowsari the last. Though the Baroda Division is handicapped by having some of its Mahals bordering on the Panch Mahals and Rewakanta, still it is the only one to come next to the densely populated fertile Kaira District; no doubt, Baroda has an advantage in the large population of over a lakh for the Capital City. Kadi, though contiguous to Ahmedabad, has a much higher density. In fact, Kadi enjoys as much superiority over its close neighbour Ahmedabad as Kaira does over Baroda. In total averages, our Gujarat Divisions show an average of 317·6, slightly higher than the average 300·9 of the Gujarat Zillas. But the Panch Mahals do not properly appertain to Gujarat and by their poor density deduct from the average of the Gujarat Zillas.

267. From the neighbouring British Districts we may turn to the important Native States in India for comparison. The total population of Hyderabad is nearly 5 times, and that of Mysore double that of this State, which comes nearly on a level with Kashmir. But in point of density more than double the Hyderabad number, and more than seven times the Kashmir number are supported by Baroda per square mile; it is also 50 per cent. better than Mysore. Excepting the Madras group of Feudatory States, no other group or State comes up to 282, the density for Baroda. From the Provincial returns we find that the population in the territories of His Highness Maharaja Scindhia was 17,54,370 in this Census; the area of these territories is estimated at over 29,000 square miles, *i.e.*, more than 3½ times that of Baroda. But with the very low figures for population, the density comes up to only 60 per mile, or nearly a fifth of Baroda. The figures for the territories of His Highness the Maharaja Holkar are, area 8,400 square miles, *i.e.*, same as ours and population 10,55,217, which gives a density of less than half of that of Baroda. Of the group of Mahratta States under the Bombay Presidency, the most important one is that of Kolahpur. Its area, 2,916 square miles, is about a third of that of Baroda; but it has a population of 9,12,800 souls, which gives a density of 324, *i.e.*, higher than that of Baroda by 12 per cent.

268. There are 7,81,171 houses in this territory, *i.e.*, an increase of 19 per cent. on the number returned by the preceding Census. Out of the total number, 5,38,967 houses were occupied on the Census night and 2,42,204 were unoccupied as against 4,79,643. The parallellitude in the increase of occupied houses and population is striking, the population having increased as stated already by 10·54 per cent. on the old numbers.

269. The marginal table gives the increase by Divisions. The increase has been greatest in Amreli, where there is also a very high increase comparatively in the population. Kadi and Navsari shew the same increase as the average for the whole territory, and Baroda shews two-thirds of the average increase. The greatest number of persons dwelling in one house, on an average, is 5·25 in Navsari and the least 4·31 in Baroda. The corresponding figures for Amreli and Kadi are 4·68 and 4·49 respectively. In the whole territory taken as one, the number of persons per dwelling house is 4·48. In 1881 the average for British Gujarat was nearly the same, 4·51. There is another coincidence also worth noting. There, too, Surat District shows a figure over 5, just as our contiguous Nowsari Division does, while in the more Northern Districts, each occupied house on an average contains a little over 4 inhabitants. Collecting at one view, the number of houses per square mile, the average number of persons per house and the density of the population per square mile, we get the following results for the different Divisions:—

Division.	Total houses.		Ratio of increase.
	1891.	1881.	
Amreli	69,180	46,839	48
Kadi	386,094	332,199	20
Navsari	77,235	64,611	20
Baroda.....	148,662	223,519	12
Total.....	781,171	657,148	19

Division.	No. of houses per square mile.	Persons per occupied house.	Persons per square mile.
Amreli	32·4	4·68	151·5
Kadi	7·94	4·4	349·2
Nowsari	30·7	5·25	161·25
Baroda	99·3	4·31	427·7
Baroda State	65·52	4·48	293

270. The total population of the State is distributed between the sexes in the following manner :—

No. of males.....	12,52,983
No. of females	11,62,413
Total...	24,15,396

271. The excess of males over females is 90,570, there being 519 males to 481 females in every thousand persons ; that is, there are 108 males to every 100 females. The proportion according to the result of the previous Census was 109 males to 100 females.

272. The increase as compared with the Census of 1881 is at the rate of 9·96 per cent. for males and 11·18 for females.

273. In the Kadi and Nowsari Divisions, the increase is greater in the number of females than in males by 3,437 and 3,022 respectively ; while in the Baroda and Amreli Divisions, the male increase preponderates over the female increase by 2,138 and 872 respectively. In the City of Baroda, there have been 2,719 more males than females. The greater increase of females than of males in the Kadi and Nowsari Divisions can be attributed chiefly to two causes—more female births and greater accuracy of enumeration. Again, for the same causes, the Baroda Division, excluding the City, shews a greater increase of females than of males; but this slight excess of 200 females is swamped by the much larger excess of male increase in the City itself, which is attributable to the immigration of male artisans, traders, officials and others, either temporarily only or with a view to try their fortune before a permanent settlement in such a large City; until they get settled, they leave their families behind, in their native places.

274. The population of the State is thus distributed between the several religionists :—

Hindus...	21,37,562
Mahomedans	1,88,740
Jains	50,332
Parsees...	8,206
Christians	646
Caste returned in lieu of religion ...	29,854
Sikhs, Jews, &c.	56
Total...	24,15,396

275. The Hindus form 88·50 per cent. of the total population of the State. The Mahomedans form 7·81 per cent., the Jains 2 per cent. and the animistic tribes nearly 1·25 per cent. The Parsees show a percentage of ·34 and the Christians of ·03.

276. Looking to the Divisions separately, we find that the percentage of Hindus is highest in the Kadi Division and lowest in the Nowsari Division. In the Amreli Division, the proportion of Hindus is 86·9 per cent. of the population of the Division and in the Baroda Division 87·4 per cent. In the Nowsari Division, the percentage of

Hindus falls low, because there are 4·2 per cent. of forest tribes, not included among Hindus. If these were included, as was done in 1872, the percentage would rise to 89·7 per cent.

277. Taking the proportions of Mahomedan population for the different Divisions, it is found that nowhere the Mahomedans are more than 11·5 per cent. This proportion is reached in the Amreli Division. The Kadi Division stands lowest in this respect, the proportion of Mahomedans being 6·25 per cent. of the population of the Division. In the Baroda Division, the Musalmans are a little over 9 per cent., and in the Nowsari Division over 7½ per cent. The Jains are as numerous as 3 per cent. in the Kadi Division and as low as ·69 per cent. in the Nowsari Diviion. The Parsees are found in any signifi. cant numbers, only in Nowsari, where they form 2·33 per cent. of the population of the Division. The Forest tribes are most numerous—4·2 per cent. in the Nowsari Division and 1·86 per cent. in the Baroda Division; they form an insignificant percentage in the Kadi Division and do not exist in the Amreli Division.

278. The distribution of the population according to civil condition is as follows:—

	Total.
Single...	8,89,992
Married	12,87,575
Widowed	2,37,829

279. It will thus be perceived that more than one-third or nearly 37 per cent. of the total population are single, that more than half are in the married state and that about one-tenth have passed through the first two stages and entered into widowhood.

280. The numbers under the headings of civil condition are distributed according to sex in the following manner:—

	Males.	Females.	Percentage of males to the total male population.	Percentage of females to the total female population.
Single ...	...5,41,592	3,48,400	43·23	29·97
Married...	...6,46,315	6,41,260	51·58	55·17
Widowed	... 65,076	1,72,753	5·19	14·86

281. The following table gives the numbers of males and females in each civil state and the percentage of males and females in each:—

Civil condition.	Total.	Males.	Females.	Percentage of	
				Males.	Females
Single	8,89,992	5,41,592	3,48,400	60·85	39·15
Married	12,87,575	6,46,315	6,41,260	50·10	49·80
Widowed...	2,37,829	65,076	1,72,753	27·36	72·64
Total...	24,15,396	12,52,983	11,62,413	...	...

282. Of the 8,89,992 unmarried persons, 5,41,592 are males and 3,48,400 are females, that is, for every 61 single males, there are only 39 single females. This shows that there is a surplus of marriageable young men, on the whole, and a want of girls. This state of things is what may be expected wherever the bulk of the population is Hindu.

283. Out of a total number of 12,87,575 married persons in this territory, 6,46,315 are males and 6,41,260 are females ; that is, in every one hundred married persons, 50.19 are males and 49·81 are females. If we take the different religions separately, the case is otherwise among Parsis and Animistes; that is, there is an excess of married females over married males among Parsis and in castes returned in lieu of religion. For the Parsis, the reason lies in the fact of many married males emigrating from the Nowsari Division, in search of occupation, leaving their homes behind. It is not equally easy to account for the excess among the Forest tribes.

284. Turning to the third heading of civil condition, we find that out of a total number of 2,37,229 widowed persons, 65,076 are males and 1,72,153 are females, which shows that in every one hundred widowed persons we have 27 males and 72 females, or for every one hundred widowers there are 265 widows. Again, the percentage of widowed males to total male population is 5·19 and that of widowed females to total females is 14·9.

285. His Highness the Maharaja has most at heart the spread of education in this State. Impartial facilities for receiving instruction are put within the reach of all, at a great cost to the State. A Committee was recently appointed to report on the present state and to suggest means for the future development of education in the State. The report is printed and widely distributed. Female education and education of the backward classes, such as, Dhankâs, Bhils, &c., are specially encouraged. But, as many of these measures are of a very recent date within the last two years and brought into force after the date of the last Census enumeration, the effects of these will not be markedly visible in the present Census. It is hoped that in the next Census a marked improvement will be visible in matter of education in this territory. The Baroda State boasts of Zenana Schools, where grown-up women receive instruction; Music Schools in efficient condition; Cookery Classes ; Antyaj Schools and Boarding-houses; Schools for the Dheds and similar backward classes ; Gramya or Village Schools, maintained from the Village Service Funds; Training Schools for males and femeles and a Kala-Bhavan or Technical and Arts School. These are special institutions in addition to the regular Arts College, Science College, High Schools, Anglo-Vernacular Schools and Vernacular Schools for boys and girls.

286. Baroda does not compare unfavorably with the neighbouring British Provinces in the matter of the education of its people. The subjoined table compares the numbers and percentages with the Census of 1881 :—

	Persons.		Percentage to total population.	
	1881	1891	1881	1891
Learning	22,324	41,546	1·02	1·72
Literate...	1,00,980	1,40,916	4·62	5·83
Illiterate	20,61,615	22,32,934	94·35	92·45
Unspecified	86	...	0·01	...
Total ...	21,85,005	24,15,396	100·00	100·00

287. There is thus an improvement on the whole. Out of every hundred persons there are now 92 illiterate persons against 94 in 1881. Improvement is perceptible not only in persons who have already gone through some course of instruction, but also in those who are under instruction; for, the number of persons under instruction is not only numerically greater now than before, but the percentage is also higher.

288. The following table gives for each Division separately, the number of illiterate persons to one able to read or write, or under instruction as compared with the results of 1881 :—

Division.	Males.		Females.	
	1881	1891	1881	1891
Amreli	7·24	5·56	1021	186
Kadi	13·76	10·14	1073	390
Nowsari...	8·00	6·34	166	75
Baroda	7·35	5·41	538	134
Baroda City	3·34	2·70	164	37
Total ...	9·40	7·13	516	171

289. The extremes are afforded by the educated males for the City and the females for Kadi. In the Baroda City, there are 10 educated males out of 27, whereas in the Kadi Division, there is only one female who can read and write from among 390 females. But there has been a satisfactory improvement everywhere. There is now one literate in every 8 males for the whole State, as contrasted with 10½ in 1881; for the females, the progress is still greater—for one literate female out of 516 in 1881, we have now one out of 171 females. The relative progress is marked in Amreli, where the proportion for females has improved to more than 5½ times the old ratio. The extensive Kadi Division, having the greatest scope for advancement, shows good progress for both the sexes. The figures for the City also are noteworthy, specially the progress made in female education, inasmuch as for one educated female out of 164 in 1881 we now have one out of every 37.

290. While the general average of males able to read and write is 10·89 per cent., the Hindus have only 9·49 per cent, the Mahomedans 13·01, the Jains 62·95, the Parsees 49 74, the Christians 62·79 and the Animistes 0·30.

291. On examining the numbers under each religious persuasion, it apepears that the illiterates have decreased everywhere for both sexes, except for Christian males, who form only a floating small population. The greeatest improvement is among the Parsees, whose illiterate males have de reased from 28 to 23 per cent. and illiterate females from 80 to 60per cent. The least advance is made by the Aboriginals, whose illiterate males have decreased from 99·91 to 99·36 per cent. and whose females are returned completely illiterate now, as in 1881. The genral improvement in the population at large has been a decrease in illiterate males from 89 to 86 per cent., and in illiterate females from 99·81 to 99·42 per cent. Among Hindus, the illiterate males have decreased from 90·51 to 87·67 per cent., and females from 99·92 to 99·65. The Mussalmans have advanced more than the Hindus, for their illiterates have decreased for males from 89·54 to 83·50 and for females from 99·5 to 99.

292. The castes have been classified according to occupations.

293. The numbers and percentages for each of the major classes among the Hindus are:—

	Total No.	Percentage.
A.—Agricultural Class	13,44,687	62·91
B.—Professional Class	2,12,074	9·92
C.—Commercial Class	89,628	4·19
D.—Artisan and Village Menial ...	4,46,532	20·83
E.—Vagrant minor Artisans and performers	44,985	2·10

294. The large Agricultural Class forms 62·91 per cent. of the total Hindu population, leaving only 37·09 per cent. for the other 4 classes. The village menials (who are not artisans) contribute greatly to the size of this class. Less than half of Class D (Artisan and village menial), is Class B, Professional, comprising nearly 10 per cent. of the population. Less than half the (Professional) Class is class C, Commercial, comprising 4·19 per cent. of the population. Just half of

this last mentioned class is class E, the smallest of all, Vagrants minor Artisans and performers, forming 2·1 per cent. of the population.

295. Again, the Leva and Kadva Kanbees, who are almost equal to each other in percentage, are each of them numerically as strong as the entire Professional Class. Each of the large agricultural castes, Kanbees and Kolis, comprises over 20 per cent. of the total Hindu population. They are far in excess of any other caste. The Dheds, the next in number, afford 5·82 per cent. of the population. They are followed by the Rajputs claiming 4·57 for their share. If the Vanias be all taken together, they form 2 per cent. of the Hindu population. In the Artisan Class, the potters, the barbers, the blacksmiths and the carpenters are the most numerous.

296. The following table gives the main sects of the Mahomedan community, containing more than 5,000 souls:—

Name of sect.	Males.	Females.	Total.	Percentage on the Musalman population.
Molesalam	8,364	7,708	16,072	8·52
Malek	6,250	5,829	12,079	6·40
Vohora (Agricultural) ...	7,301	7,897	15,198	8·05
Muman	2,707	2,750	5,457	2·89
Fakir	3,524	2,960	6,484	3·44
Vohora (Commercial) ...	5,416	5,464	10,880	5·77
Memon	3,524	3,097	6,621	3·51
Momana	4,207	3,858	8,065	4·27
Pinjara	2,623	2,556	5,179	2·74
Ghanchi	2,688	2,429	5,117	2·71
Saiyad	4,801	4,525	9,326	4.94
Shaikh	15,257	14,159	29,416	15·53
Pathan	9,728	8,248	17,976	9·52
Others	20,741	20,222	40,963	21·71
Total ...	97,131	91,702	1,88,833	100·00

297. The total number of occupations returned in our schedules is about 550. They have been thrown together in 77 sub-orders which have been further grouped into 24 orders distributed over 5 classes. In the 1881 Census, the standard adopted was, that the persons included in the occupation returns should actually do work contributing to family income. The 1891 Census is fuller, but takes a slightly different view of occupations. We have adopted on this occasion the *means of subsistence* of every man, woman or child in the State as the standard. If a man be returned as a clerk, his wife and children and himself were shown as subsisting by such employment, they themselves having no other work to subsist by. If the women and children had independent means of subsistence, they were, of course, shown under their respective occupations.

298. Gujarathi is the language of the country and is spoken by 22,46,785 or 93·02 per cent. of the population; over one-half per cent. speak its dialect, Kachhi. Marathi is the native language of the Rulers and is used by over 2 per cent. of the people. Musalmani is spoken by 3·29 per cent. of the population. Thus the three languages, Gujarathi with its dialect Kachhi, Marathi and Musalmani are spoken by 99 per cent. of the population of the whole State. The subjects of His Highness the Maharaja speaking the other diverse tongues form only one per cent. of the total population.

MILITARY.

299. The strength of the Regular Force at the end of the year under report as compared with the fixed strength was as follows:—

	Fixed strength.			Actual strength during the year under report.		
	Effectives.	Non-effectives.	Total.	Effectives.	Non-effectives.	Total.
Artillery.						
Light Field Battery including the Rumi gunners.	94	66	160	94	57	151
Cavalry.						
The Guards	135	10	145	115	10	125
The Moti Khas Paga ..	455	24	479	328	18	346
The Choti Khas Paga ...	455	24	479	414	17	431
The Fatesingrao Regiment of Cavalry ...	455	24	479	441	17	458
Total ...	1,500	82	1,582	1,298	62	1,360
Infantry.						
1st Regiment	698	29	727	678	23	701
2nd do.	698	49	747	693	49	742
3rd do.	698	29	727	681	29	710
4th do.	514	27	541	505	26	531
Okha Battalion	461	14	475	456	14	470
Total ...	3,069	148	3,217	3,013	141	3,154
Band	111	6	117	111	6	117
Senapati, General and Staff Officers.	6	2	8	6	2	8
Grand Total... ...	4,780	304	5,084	4,522	268	4,790

300. Thus the total actual strength of Artillery, Cavalry, Infantry, &c. (inclusive of non-effectives), was as under:—

	Strength.
Artillery	151
Cavalry	1,360
Infantry	3,154
Band	117
Senapati, General and Staff Officers ...	8
Total	4,790

301. The Force (non-effectives excluded) was composed of 12 Europeans and Eurasians, 92 Pathans, 1,105 Musalmans, 1,459 Marathas, 1,361 Pardeshees, 188 Rajputs and Kolees, 161 Guzerathees, 42 Brahmins and Parbhoos and 102 other castes.

302. The cost of maintaining the above Force as compared with that of the preceding year was as follows:—

	Cost in 1890-91.	Cost in 1891-92.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Artillery	37,852	36,692	...	1,160
Cavalry	6,35,325	6,17,514	...	17,811
Infantry	4,99,244	5,12,667	13,423	...
Band	26,899	34,616	7,717	...
Senapati, General, &c. ...	48,431	44,725	...	3,706
Store Magazine	2,487	...	...	2,487
Polo establishment. ...	1,048	8,746	7,698	...
Military Medical establishment	21,968	18,560	...	3,138
Total ...	12,73,254	12,73,790	28,838	28,302
		Net increase...	536	

N. B.—The Veterinary charges have been proportionately added to the cost of Artillery and Cavalry.

303. The decrease under Artillery and Cavalry was chiefly due to the absence of extraordinary expenditure such as that incurred in the previous year in purchasing new bullocks for the Battery and remounts for the Moti Khas Paga.

304. The increase under 'Infantry' was attributable to the purchase of dead stock articles and to the supply of full dress and accoutrements to the Okha Battalion.

305. The increase under 'Band' was due to the purchase of new musical instruments.

306. The increase of Rs. 7,693 under the head 'Polo establishment' is nominal and is attributable to the circumstance that a large portion of the expenditure incurred in the previous year was charged to the Huzerat Paga.

307. The average cost per annum per effective man in the Artillery was Rs. 390, in the Cavalry Rs. 475, in the Infantry Rs. 170 and in the Band Rs. 311. Taking the whole Force together the average cost per effective man was Rs. 281 against Rs. 283 in the year preceding.

308. Thirty-one men were discharged on payment of gratuity amounting to Rs. 10,800.

309. The average daily attendance of sick in the Force was 224·1 against 225·3 in the year previous.

310. The rate of mortality in the above Force was 8·4 per mille in the year under report.

311. The number of regimental children attending Government schools was 126 against 180 in the previous year.

312. The numerical strength of the Irregular Force at the close of the year was as shown below :—

Horse.

	Strength.
Siledari	1,141
Shibandi	389
Paganihaya	199
Khalsa	275

Foot.

Shibandi	1,139
Khalsa	667

313. Thus taking the Departments together there were 2,004 mounted effectives and 1,806 foot, total 3,810.

314. The following table shows the expenditure incurred on account of the Irregular Force in the year under review as compared with that of the preceding year :—

	Cost in 1890-91.	Cost in 1891-92.	Increase.	Decrease.
Horse.	Rs.	Rs.	Rs.	Rs.
Shiledari :—				
Class A	6,70,955	6,34,910	.....	.....
Class B	25,586	23,911	.....	.....
Class C	12,839	12,191	.....	.....
Total.....	7,09,380	6,71,012	.....	38,368
Shibandi :—				
Class A	2,34,101	2,08,375	.....	.....
Class B	12,257	9,036	.....	.....
Class C	9,721	8,579	.....	.....
Total.....	2,56,079	2,25,990	.....	30,089
Paganihaya :—				
Class A	92,775	79,837	.....	.....
Class B	16,251	10,920	.....	.....
Class C	504	1,329	.....	.....
Total	1,09,530	92,086	.....	17,444
Khalsa, including Lab Nagarkhana	2,13,966	1,82,840	.....	31,126
Baroda Prant Senapati Kamdar.	1,893	.....	.....	1,893
Kadi do. do. ...	7,818	5,710	.....	2,108
Amreli do. do. ...	3,977	4,492	515	.....
Nowsari do. do. ...	1,783	2,483	700	.....
Total.....	13,04,426	11,84,613	1,215	1,21,028
Foot.				
Shibandi	1,30,539	1,13,219	.....	17,320
Khalsa	65,493	63,842	.....	1,651
Total.....	1,96,032	1,77,061	.....	18,971
Other Establishments.				
The Shiledar and Shibandi Baxees' Offices	6,506	6,411	.....	95
Shikar establishment	7,239	6,646	.....	593
Godgaste	2,336	1,105	.....	1,231
Pensioners	50,281	63,195	12,914	.....
Mahratta Panchayats	306	499	193	.....
Repairs to Military Buildings ...	.....	58,613	58,613	.....
Fatesingrao Paga	588	.....	.....	588
Total.....	67,256	1,36,469	71,720	2,507
Grand Total.....	15,67,714	14,98,143	72,935	1,42,506
			Net Decrease.	69,571

315. The decrease in 'Shiledari,' 'Shibandi' and 'Paganihaya' was due partly to less payments made on account of arrears and partly to the reduction effected in the number of sowars.

316. The average cost per mounted effective man per annum in the 'Shiledari' was Rs. 556, in the 'Shibandi' Rs. 535, in the 'Paganihaya' Rs. 401, and in the 'Khalsa' Rs. 664. Taking all the establishments together, the average cost per mounted man comes to Rs. 591 against Rs. 633 in the preceding year.

317. As regards the foot, the average cost per man in the 'Shibandi' was Rs. 99 and in the 'Khalsa' Rs. 95 per annum; or taking both together, the average cost was Rs. 98 against Rs. 110 in the previous year.

318. The total amount of pensions in the whole force, Regular and Irregular, paid in the year under report, was Rs. 63,195 against Rs. 50,281 in the previous year.

319. The cost of the whole force, Regular and Irregular, was less than that of the previous year by Rs. 69,035 as shown below :—

	1890-91.	1891-92.
Regular	12,73,254	12,73,790
Irregular	15,67,714	14,98,143
Total.....	28,40,968	27,71,933

PUBLIC WORKS DEPARTMENT.

320. The total expenditure on Public Works amounted, during the year, to Rs. 20,96,298 and exceeded that of the previous year by Rs. 8,15,853. This expenditure gives a percentage of 11·88 on the total revenue of the year against 8·19 in the year 1890-91.

321. In round figures, the expenditure on 'Original works' was Rs. 16,51,000, on 'Repairs' Rs. 2,18,500, on 'Establishment' Rs. 1,95,000, on 'Tools and plant' Rs. 15,000, and on 'Workshop' Rs. 14,500.

322. The subjoined table shows the total outlay as compared with that of the previous year :—

Heads of Service.	Expenditure in 1890-91.	Expenditure in 1891-92.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Original Works	9,48,125	16,51,277	7,03,152	.....
Repairs	1 60,638	2,18,527	57,889	.....
Establishment	1,46,924	1,95.772	48,848	.....
Workshop	19,502	14,494	.....	5,008
Tools and plant	4,253	15,225	10,972	.....
Miscellaneous	1,093	1,093	.....	.....
Total.....	12,80,415	20,96,298	8,20,861	5,008
Net Increase	.....	8,15,853	.....	.....

323. The increase under the head 'Original Works' is principally owing to the very large expenditure incurred in connection with the construction of Wahiwatdars' and Mahalkaries' cutcherries and Munsiffs' courts.

324. The increase under the head 'Repairs' is attributable to the extensive repairs executed to the several Government buildings in the City.

325. The increase under the head 'Establishment' is partly due to the promotions carned by the staff and partly to the temporary establishment entertained for clearing off the arrears of the City Executive Engineer's Office and for settling the Laxmi Vilas Palace accounts.

326. The ratio of the cost of establishment to the total outlay was 10·47 per cent. as against 13·25 in the year preceding.

327. The outlay under the heads 'Original Works' and 'Repairs' may be classified as under :—

Heads of Service.	Original works.	Repairs.	Total.
	Rs.	Rs.	Rs.
Military	78,762	6,078	84,840
Civil Buildings	10,33,448	1,12,226	11,45,674
Communications	1,50,751	38,912	1,89,663
Public Garden	6,539	22,487	29,026
Miscellaneous Public Improvements	82,961	7,941	90,902
Baroda Water-works	2,60,510	4,109	2,64,619
Drainage and Irrigation	30,601	9,851	40,452
Water-supply	7,705	16,923	24,628
Total Rs.....	16,51,277	2,18,527	18,69,804

328. Amongst the principal works in various stages of progress, there were 16 Wahiwatdars' and Mahalkarees' cutcherries, 9 Munsiffs' courts and 7 school-houses. The school-houses at Bahadarpur, Dhenuj and Manood were completed during the year and handed over to the Educational Department.

329. The Public Offices building at Amreli, the construction of which was commenced in May 1891, was almost completed. The expenditure incurred on this work was Rs. 1,10,010 (mixed currency).

330. The question of the removal of the head-quarters of the Subha, Kadi Division, to Mehsana, having been finally decided upon, a suitable site was selected for the Public Offices at Mehsana by the Chief Engineer, in consultation with the Architect, Mr. F. W. Stevens, of Bombay. The designing of these offices has been entrusted to Mr. Stevens.

331. The Laxmi Vilas Palace was almost completed, and a few remaining minor works, such as the construction of the kitchen-house, polishing the mosaic floor of the Darbar Hall, &c., were being pushed on when the year closed. The work of laying out the grounds around this Palace and the one at Makarpura made satisfactory progress under the direction of the Garden Architect, Mr. W. Goldring.

332. The outlay on new works connected with roads amounted to Rs. 1,50,751.

333. The following are the important road-works constructed during the year :—

Works.	Amount of estimate.	Expenditure during the year.
	Rs.	Rs.
Road connecting the Laxmi Vilas Palace with the Vishwamitri bridge	31,997	12,730
Road from Gogo Dhanduka road to Sarsadi bridge near Ruttanpur	8,770	1,856
Road from Kodinar to Ghatwad	18,237	5,169
Road from Dwarka to Korunga, 1st Section	16,975	18,507

334. The two latter roads were taken in hand as relief works with a view to mitigate the distress which prevailed for a short time in the outlying Mahal of Okhamandal.

335. The expenditure incurred in keeping the existing roads in repair amounted to Rs. 38,912.

336. The site for the central market in the City of Baroda was cleared and the construction of the building which is estimated to cost over four lacs of Rupees was taken in hand during the year. The designing of the edifice has been entrusted to Mr. R. F. Chisholm, F. R. I., B. A.

337. The following are some of the more important works which were completed in the year under review :—

No.	Description of Work.	Amount sanctioned.	Total expenditure.
		Rs.	Rs.
	ORIGINAL WORKS.		
	Military.		
	Baroda City.		
1	Additional works in connection with the Choti Khas Paga	8,190	7,003
2	Sowars' lines attached to Choti Khas Paga	9,120	10,007
3	Stables for do. do. do.	70,000	71,370
4	Officers' bungalows for do. do.	60,830	48,302
	CIVIL BUILDINGS.		
	Educational.		
	Baroda City.		
5	Additions and alterations to the Sirdar School, Baroda	11,128	12,290
6	Compound wall and latrine of the Anglo-Vernacular School, Baroda	9,183	6,102
	Baroda Division.		
7	School-house at Badharpur	5,790	4,909

No.	Description of Work.	Amount sanctioned.	Total expenditure.
		Rs.	Rs.
	Revenue.		
	Baroda Division.		
8	Additional works in connection with the Vahiwatdar's Cutcherry at Shinore	7,431	6,712

339. The ceremony of opening the Baroda Water-Works, which were completed during the year, took place on the evening of the 29th of March 1892, the Chief Engineer and the Municipal Commissioner having made the necessary preparations for the occasion. There was a large gathering, the European ladies and gentlemen of the State as well as all the principal Sirdars, Darakdars and State Officers, being present.

340. The ceremony was performed in the open space near the site of the new market, where a pretty fountain had been set up and a semi-circular stand erected for the accommodation of the ladies and gentlemen invited for the occasion. The presence of crowds of people in the vicinity and on the huge mounds formed from the excavations of the market foundations indicated the interest felt by the public in the ceremony. In the centre of a large basin, which was surrounded with beautiful foliage, plants and choice exotics, a large 30″ cast-iron pipe was concealed by artificial masses of rock covered with ferns and palms, and in the centre of this pipe, and raised about a foot, was another 10″ pipe with a 6″ gilded nozzle. Inside the stand was a dais, in the centre of which rose a pedestal, draped in crimson silk and surmounted by a handsome model in silver of the

Ajwa Valve tower, by the means of which His Highness the Maharajah was to turn the valve admitting the water.

341. The company having assembled, the proceedings were commenced by the Chief Engineer, who gave a brief history of the various projects that had been proposed for a water-supply, and of the present one carried into execution. He said :—

"Your Highness, Colonel Reynolds, Ladies, Gentlemen and Citizens of Baroda,—we have met here to-day to witness the inauguration of our water-works scheme by the admission of the first purified filtered water into the City. You have most of you been enjoying the water from Ajwa for a year past, but it has been in its unfiltered and unpurified state, and from to-day the supply you will draw from the stand-pipes, and in your houses, will be, I venture to say, far superior to any you have been in the habit of using before. Before asking His Highness to inaugurate the ceremony by turning the valve admitting the water, I trust, I may be allowed to say a few words and give a brief *resume* of the present and the former water-works projects that were investigated for your benefit. It will not, perhaps, be within the memory of very many here to-day, that so long ago as 1856, the late His Highness Maharajah Khanderao Gaekwar, considered the question of a water-supply for your city, and Mr. Forde's plan of bringing the water from the Nurbudda was carefully gone into and reported on. This proposal was to pump the water from the Nurbudda, near Chandod, and allow it to flow by a conduit to Baroda, where it was to be again lifted to give it the necessary gravitating pressure. The estimate for this project was 30 lakhs of rupees, and would have entailed, had it been carried out a large yearly expenditure for the double pumping and consequent renewals of machinery. As this scheme was considered too costly, nothing was done, and the water-supply question remained dormant for a time. It was not until 1876 that it was again taken up by the late Sir T. Madava Raw, who considered some other means of water-supply should be looked for. For this end the services of Mr. Crosthwaite were obtained and he proceeded to investigate the various river sources of supply that had been formerly suggested, and also examined the country in the neighbourhood of Pavagad, but without any real success. Eventually he proposed his "well" scheme, which, I have no doubt, is familiar to very many here: it was to sink 6 large wells 50 feet in diameter, near the Railway Station and pump the water from them into a service reservoir for the supply of the City. This project was estimated at 21 lakhs. His Excellency Sir T. Madava Raw, at this time, however, thought from the report that the evidence that an inexhaustible supply of water existed was insufficient and that, as the scheme was costly, effect should not be given to it then. Proposals for a well-supply of 3 and 4 gallons per head of population were afterwards made at a cost of 6 and 7 lakhs, but these were also abandoned. As the Baroda Administration desired a gravitating supply and the Pavagad Hill was, after a preliminary inquiry, suggested by the Municipal Commissioner, Mr. Little was asked in 1880 to

investigate and report on this scheme. The gathering ground, however, was found to be deficient and so this plan was dropped. You see that so far the water-supply question had made very little practical progress and it was not until His Highness' accession to power in December 1881 that it was again taken up. I think I am right in saying that it was almost the first act of His Highness, after his accession to power, to take up and go into the question of water-supply for his subjects, and to further the work, various experiments were made with reference to the several well-projects. It was during a short trip to Saoli, soon after his accession, that His Highness drew attention to the fact that the Mual tank might be made available as a probable source of supply. He, thus, we may say, gave the clue for impounding the water by a dam, and which has really been carried out in the Ajwa Scheme. Acting on his suggestion, the Mual tank was first investigated by Mr. Jagannath, and he reported that by raising the dam a sufficient quantity of water could be impounded to give a 20-gallon per head supply, and, as the catchment area was insufficient, a canal could be made from the Karad river. The estimate for this project was 30 to 35 lakhs. Now, as His Highness was desirous of having an experienced opinion on this project, the services of Mr. P. Reynolds were placed at his disposal. This gentleman, in making his report, proposed certain alterations and suggested the survey of the river above the village Samlaia, in order to shorten the length of feeder and pipe main, and this survey led to the discovery of the main lake project, which was eventually surveyed and reported upon favorably by both Mr. Reynolds and Mr. Jagannath. The estimate for this scheme was 46 lakhs. This so far brings me to the end of 1883. Whilst Mr. Jagannath was engaged in the survey of the surrounding country in connection with the Moni and Mual projects, it occurred to him that if it were possible to have the works entirely in His Highness' territory it would be an advantage, and with this view he inspected the Sûrya site, and from what he saw felt certain that it was feasible. Having communicated his views to Mr. Reynolds, the survey was, with the sanction of His Highness, prepared, and the detail plans and estimates got out, and the original scheme prepared by Mr. Jagannath was, after revision by Mr. Reynolds, and having been favorably reported on by General Merriman, the Chief Engineer of the British Government, sanctioned, and it is to witness the inauguration of the completion of this work that we have met here to-day. Before His Highness turns on the water, a few facts and figures may not be out of place. The work of the impounding dam, nearly three miles long, was begun in January 1885, and completed in June 1890, and the monsoon water of that year stored; last year it rose still higher to within 5'-6" of the overflow weir, half filling the lake, and I hope, with a bumper rain-fall this monsoon, to see it nearly up to or flowing over the waste weir. When full, the lake will hold about eight years' supply and contain thirteen hundred million cubic feet. The area of the lake when full, will be about 5 square miles, and the water is gathered from a catchment area of 36 square miles Investigations have, and are being made to increase this by a feeder. The cost of the work in

round figures is 30 lakhs. Of this, the dam took ten, the P. J. Main ten, filter beds and tanks five, and the city distribution five. I will not weary you with any more figures, but will, if your Highness will allow me, congratulate you on behalf of those present and myself on the very successful completion of the works and thank you for your so kindly coming here to-day to perform the ceremony on the Hindu New Year's Day."

342. The Dewan, Dewan Bahadur Manibhai Jasbhai, then rose and spoke as follows:—

"Your Highness, I am requested by the inhabitants of the City to read on their behalf a petition in connection with the splendid water-works, which your Highness is going to open to-day, and it is with peculiar pleasure, that both as your Highness' Minister and subject, and thus doubly bound to your Highness, I undertake that duty.

"May it please your Highness,—As out of your goodness, your Highness has caused a great reservoir to be made and has built filters to purify the water therein contained, and brought that pure water in pipes to this City and distributed it among the streets and houses of the City, we, your Highness' subjects, in our gratitude, beg most respectfully that your Highness will be graciously pleased to allow us to give the reservoir the name of the "Sayaji Sarovar," that our children and children's children may have your Highness' name on their lips and your Highness' memory in their hearts, as belonging to a Prince who bestowed a thousand good gifts on his subjects, of which this pure water poured forth in floods at the mere pressure of an empty hand is a fitting symbol."

343. After a short pause His Highness the Maharaja addressed the assembly as follows:—

"Though Mr. Lynn rightly places this scheme as one of the earliest I considered, I must allow, that chronologically it was my railways that first occupied my thoughts. I am right glad that I have seen 118 miles of railway constructed and can look forward to further progress. It is not only that the public convenience has been consulted, but my scattered dominions are now linked together by the iron road to the improvement of the administration of the head-quarters of my talukas. These are now tied together—Patan, Sidhpur, Kheralu, Vadnagar, Visnagar, Mehsana, Kalol, Petlad, Baroda, Dabhoi, Sankheda, Karjan, Navsari, Gandevi, and in the near future, as I hope, many other places again. But to-day I put the thought of my railways aside and joyfully confess that I look upon the Ajwa reservoir and this water scheme as the most important single public work brought to completion since my accession to power. I am well content with your suggestion that the artificial lake should be called the "Sayaji Sarovar," and so let it be. But in my mind I shall associate

with this work the names of Mr. Playford Reynolds and Mr. Jagannath Sadashiv. The Laxmi Villas Palace has, perhaps, cost more, but I cannot strictly place among works of public utility the construction of that richly-chiselled pile and of the more costly Makarpura Palace, now encircled by the tasteful gardens we owe to Mr. Goldring. No, it is this gift of pure filtered water that I am most pleased to have bestowed upon the capital. The great domed College, the Countess of Dufferin Hospital, the school-building whose tower we can discern from here on the bank of the reservoir, which my predecessor gave to Baroda, the Chimna Bai Market which will cover all the space on which we stand, the Museum in the Public Park, the vast public offices which are in contemplation, all these monuments of my friend Mr. Chisholm's skill are works of utility and adornment to Baroda and will be revealed to us as one harmonious whole, when, after solving our next great difficulty, the proper conservancy of the City, we shall rapidly widen and re-adjust our main streets and communications according to plans I have long since matured. But all these to my mind are nought, compared with this blessing of pure water, the first requisite of sanitary well-being; abundance of water, sanitary reform, these are the good things I wish to give my people in profusion. This water scheme is but the foremost instance of what I am doing or hope to do for all the three thousand five hundred towns and villages of the State. Good wells are being provided for all villages which have not yet got them, few in number as such villages are. Except where water is quite close to the surface or where a river flows past the village site, means have been provided, from Rs. 6 to Rs. 8 per 100 of population, for the drawing of water from the well morning and evening to feed the people and the village cattle. As for sanitation a great army of scavengers will soon, I trust, be called into existence to be disciplined by special officers. Rs. 8 per 100 of population are to be devoted to the purpose in all villages, while in the market towns I have just doubled the conservancy funds, and I look to the Panchs, my civil surgeons, and the newly created Sanitary Commissioner, to see that these funds are turned to good use under the clear and simple rules which I hope my people will study. It is the co-operation of my people which I require to gain for them the advantages of physical health. Some simple book learning, therefore, I wish the masses to acquire that I may take them into my confidence and partnership. I am all, as you know, for publishing the laws, the regulations, the acts, the appointments of Government; but will the masses learn to avail themselves of the information? I entertain the hope, however chimerical it may appear. In this City and in most of the big towns there are now many schools, some of them advanced. Our Baroda College now teaches up to the First and Second B. A. and B. Sc.; in Patan, a High School has been started; institutions have been called into existence for the study of handicrafts, for that of agriculture, for that of law, and even for that of music. Books are being compiled and books are being translated. So we do not think of expansion alone. Our one habit of occasionally sending a few selected pupils to Europe, there to receive a generous teaching, proves that. But I will say that after the multiplication of female schools, there is

no measure I have more at heart than the dissemination of primary education among *bonâ-fide* cultivators, and more especially by gifts and other inducements among the depressed classes of my subjects. I have lately promised to subsidise a school-master and to aid the school with books, slates, and other necessaries for any village, which will supply a regular attendance of at least 16 pupils. Let my people take advantage of this proffer of assistance. I note that within the last two months 128 villages have opened each its little school. The movement is in its infancy. Requests for schools are pouring in. I want and expect to see hundreds of villages put themselves in the way of obtaining elementary instruction Why? That the masses may learn to help themselves intelligently. It is in order to encourage self-help that I have issued orders intended to give fresh life to the village community, headed by the Patels, assisted by the Panch. The salaries of the Patels throughout the State are being uniformly raised, and to the village Police guard is now apportioned 4 per cent. of the entire revenues paid by the village to Government. I trust that these and some other similar measures such as the apportionment to each community of a Devasthan fund, will lead to good government, security, and helpful activity. Remember that the Government aid cannot go very far, it depends mainly upon you to turn its assistance to good account. Physical improvement, mental development, the independence of self-help, cannot, I am aware, be expected, so long as the State lays upon its subject a crushing taxation. It has, therefore, been my task to reduce the aggregate Government demand while equalising it as far as possible, and spreading its burden over many shoulders, while at the same time, simplifying the demand so that both Government and the tax-payer may know what each man pays and why. This is why I have reduced the tax on Government lands by from 10 to 50 per cent, and more, in the great majority of villages now surveyed and settled. This is why I have called on alienated lands to contribute a share of the revenue, granting at the same time to their landlords, sanads, which make their position more secure than it has hitherto been. This is why I propose to regulate the dues of the non-agricultural community. This is why at one stroke of the pen I wrote off 23 lakhs of arrears due to the State by cultivators. This is why I have patiently heard and brought to a close, once and for all, the thousands of disputes which had been left to simmer for a quarter of a century between Government and my subjects, regarding the rates and tenures of certain lands. We start afresh, my people and I. Each man will now be called on to pay in accordance with a simple demand, based on clear grounds, publicly set forth. Here let me put in a hearty word of thanks to Mr. Elliot for the assistance he has given me in these measures. I repeat that it is my want to take my people into my confidence by publishing the acts of Government so that all who wish may read and criticise. I own that recent changes have produced a momentary sense of confusion and disturbance which I trust, will subside as the years go by, giving way to a feeling of general contentment. I own that in many directions Government is still groping for a way to rule wisely. Have patience. Let time shew the real value of what is being now done. I assure you that all my energies are being devoted to free and enrich my people,

and to improve the machinery of the administration. You are aware how, within the last year, export dues have been almost entirely swept away, and the range of import dues is shortly to be greatly restricted, and how many a small impost has been abolished? Some of you may also be aware of what I propose to do to relieve Inamdars and others of their burden of debt. The measure has been lately published. Others, again, may have noticed the tentative efforts of the State Bank, and the freer hand with which Tuccavi advances are made. This and other measures are being undertaken to free you, while to enrich you I have caused and am causing, great drainage works to be made. I am making an endeavour to conserve our forests, to push on agricultural experiments, to discover what riches, if any, the earth holds for us in her bosom, in short, to utilise within the State the savings from my revenues. As for the machinery of Government, I own that in some fear and trembling I am attempting to decentralize and at the same time to supervise. The new Small Cause Court system and the bench system for civil and criminal cases, the separation of the judicial from the executive branch and the panchayat system are among the efforts I am making to improve and simplify our administration. We stand at the very threshold of reform. The basis of a tolerable administration is the business-like keeping of accounts. We needed improvement in this respect, and perhaps we shall obtain it with Mr. Anna Bhivrao's help, now that we have confessed our shortcomings to Mr. Rajaninath Roy, who has suggested remedies, for which, I owe him acknowledgments. But to do better in future, we must aim high, very high. We must use more despatch, summon up more courage, enforce and submit to more discipline, cherish more public spirit. Then will the stream of our progress flow smooth and pure and reach all our homes, as does this water from Ajwa which cleanses our lips, fortifies our bodies, and bids our spirits to rejoice."

344. At the conclusion of the address, the Chief Engineer invited His Highness the Maha Raja to perform the ceremony and on His Highness turning the valve, the band played the National Anthem, and the clean water rose in a splendid jet to the great delight of the people assembled.

345. The usual distribution of flowers and *pan-supari* took place, which over, the assembly broke up.

PUBLIC PARK.

346. The Public Park was maintained during the year at a cost of Rs. 22,487 and continued to be the favorite resort of the public for health and recreation.

347. The work of the Museum building in the Park, which was stopped in the preceding year, owing to the cracks that appeared at some places in the foundations, was recommenced and made fair progress. The expenditure incurred during the year in connection with this building was Rs. 40,800.

348. The Public Park serves as a sort of nursery for the Makarpura and Laxmi Vilas Palace gardens in course of construction.

GEOLOGICAL SURVEY.

349. With a view to ascertain how far the mineral resources of the country can be developed, a Geological Survey of this State was started in October 1891, when Mr. R. Bruce Foote, F.G.S., F.M.U., joined the service of this State, after his retirement from the Geological Survey of India.

350. Field work was begun in Sankheda Taluq, on the 28th October, and continued till the greater part of the Taluq had been completed; only so much of the Taluq was left uncompleted as lies in the Amroli and Tilakwada Tappas to the south, and to the north so much as lies outside of sheet 44 (184), as owing to the non-publication of sheets $\frac{43}{183}$ and $\frac{45}{185}$ of the Gujarat Topographical Maps (1"—1 mile), no maps were available on which to lay down the geological boundary lines. These two tracts can now be completed, as the two sheets required are now available.

351. On completion of the work then possible in the Sankheda Taluq, Waghodia Taluq was taken up, and its eastern side carefully explored. The eastern and central parts of Savli Taluq were taken up in succession, and the country carefully inspected right up the extreme northern corner of the Baroda Division north of the Godhra Rutlam line of Railway.

352. The minerals of economic value met within the Baroda Division may be briefly enumerated as follows, for the three Taluqs abovenamed, and in the order of their economic value.

(a) *In Sankheda Taluq.*

1. The marble beds of Motipura and Wadel (green, grey, brown and cream-coloured of several shades and fine quality).

2. The marble beds of Sandara on the Heran river (green, grey, banded, black and white and buffy brecciated).

3. The Songir sand-stones and their extensions north and south of the Heran river.

4. The pink and grey granites of Motipura and the Orsang Valley as building stones and road metal.

5. The felsitic gneiss of Tandalja.

6. The white quartz runs at the south end of the Vidwaswami Mata hill, and in the Motipura reach of the Orsang river.

7. The quartz breccias of the Kanakua and Sarangpur quartz runs as material for decorative slabs and panels.

8. The trapdikes in the granite of Bodeli as sources of road metal.

(b) *In the Waghodia Taluq.*

1. The basaltic rocks of Bairapur.

2. The basaltic and other trappean rocks in the bed of the Dev (Deo) river above Viara.

3. The mottled calcareous sand-stones in the Dev river at Jaipur.

4. The intertrappean lime-stones and grit beds in the Vishwamitri river west of Asoj.

5. Numerous outcrops of trap in the Vishwamitri and Surwa valleys available for road metal.

(c) *In the Savli Taluq.*

1. Gritty calcareous sand-stones and pebbly lime-stones of lower cretaceous (Bagh) age in the valley of the Karod river at Dhantej.

2. Similar gritty calcareous beds in the Goma river at Sánvdásal.

3. Similar beds in the Mesri at Karachhla, and

4. Pebbly lime-stones and calcareous gritty sand-stones on the left bank and in the bed of the Kun south and south-west of Timba.

From all the above localities, supplies of moderately good building stones are procurable; and much lime-stone could be raised for slaking.

5. Many banks and veins of prettily coloured chert occur in the lime-stones, which would supply very pretty materials for cutting and polishing for ornamental purposes, at present, they are totally unused.

6. The basaltic traps of the northern end of the Taluq and many of the agglomerate beds in the Mahi river could be quarried for high-class building stones.

7. At intervals along the banks of the Mahi, below Poicha, beds of grit and conglomerate occurring at the base of the river alluvium have been sufficiently consolidated to furnish coarse sand-stones, which would be available for many rough buildings, notably for building rough walls and revetments, which would go far to check the great erosion which takes place annually in the gully systems, which have been worn into the high loam banks of the Mahi.

353. The examination of the northern end of the Baroda Division having been completed, the venue of the survey work was shifted south to the Nowsari Division, and in this fresh ground was first broken at Sayan Station, and the valley of the Tapti carefully examined from Kathore upward and all the lands belonging to the Kamrej Taluq on the north (right) bank of the river well scrutinized.

354. From Rudhwara in the eastern part of the Taluq, a couple of flying marches were made across the intervening part of the Surat Collectorate, and the survey of Vyara and Songad Taluqs entered upon. The season being favorable from the absence of Malaria, a great network of traverses was made through the forest region in the Vajpur Mahal of Songad Taluq.

355. A fairly close acquaintance with that wild and broken hill region was thus secured sufficient for understanding its structure and mineral contents.

356. Unfortunately, no finds of specially valuable economic materials were made; no special source was found for the vast quantity of

magnetic iron-sand which occurs in the banks and bed of the river and its larger tributaries. This must, therefore, have been brought down from higher reaches of the river lying beyond the Gaekwadi boundary.

357. Excepting a very remarkable number of large dikes cutting through ordinary flows of trap of very various kinds, nothing could be made out in this region, which had to be left uncompleted, because of the near approach of the monsoon, which only just allowed of my reaching Surat before the rains began. The economic results of the examination of the valley of the Tapti were the following :—

1. The discovery of a considerable spread of gravels rich in agates or akik stones on the little plateau to the north-east of Galha in Kamrej Taluq, and which bed may very probably be found to extend under the alluvium on the south bank of the Tapti.

2. The finding of large beds of pale, grey and white clays of good quality in the Eocene (Nummulitic) rocks over-lying the agate beds to the north and west of Karjan.

3. Attention was drawn to an important bed of laterite under-lying the Galha agate gravels, and forming a low hilly ridge, which coincides with the boundary of the State for several miles. The laterite is ganerally a fairly rich ore of iron in the form of gritty red hematite and limonite not unfrequently mixed together. In former times, it furnished material for a local smelting industry near Galha, but at present it is unworked, owing to the absolute want of forest to supply fuel. The purer parts of the red and yellow brown laterite could be ground up into pigments of excellent colour. Even if fuel were abundant on the spot, the ore could hardly be made into iron at a rate allowing it to compete with imported iron.

4. The question whether the great quantity of magnetic iron-sand brought down by the Tapti, occurs in large enough quantity to be worked in a charcoal iron industry profitably on a large scale, has been raised, but sufficient enquiry has not yet been made to allow of a decisive conclusion being arrived at.

5. Very many of the great flows of porphyritic trap, and of the hard dioritic dikes, which are such a prominent feature in the Songad and Vyara hill tracts, could be quarried for building and decorative stones of great beauty and excellent quality.

353. The porphyritic flows near Vyara town are very extensive.

359. The total expenditure incurred in connection with the Department during the 10 months from 1st October 1891 to the 31st July 1892, amounted to Rs. 17,817 (mixed currency).

MUNICIPALITIES.

360. The following figures give a comparative idea of the expenditure incurred on account of Municipalities during the year under report and the one preceding it:—

	1891-92.	1890-91.
	Rs.	Rs.
Baroda City Municipality	3,06,291	3,30,280
Town Municipalities in the Districts ...	89,170	71,488
Total ...	3,95,161	4,01,768

Baroda City Municipality.

361. The following statement shows details of the expenditure incurred in 1891-92 on account of the City Municipality:—

No.	Item.	1890-91.	1891-92.	Decrease.	Increase.
		Rs.	Rs.	Rs.	Rs.
1	General Establishment ...	33,724	30,485	239	.....
2	Public Works—				
	(1) Roads—				
	(i) New	.....	6,140	.....	6,140
	(ii) Repairs	35,053	36,871	.....	1,818
	(2) Wells and tanks—				
	(i) New	.....	1,611	.....	1,611
	(ii) Repairs	21,066	2,803	18,263	.....
	(3) Buildings—				
	(i) New	5,207	14,134	...	8,927
	(ii) Repairs	3,000	1,463	1,537	.....
	(4) Other charges	391	.....	391	.....
3	Planting trees	968	948	20	.....
4	Conservancy	78,282	76,687	1,595	.....
5	Watering roads	42,737	35,177	7,560	.....
6	Lighting	23,176	22,887	289	.....
7	Fire Establishment	5,792	5,023	769	.....
8	Dead stock and live stock ..	16,697	.....	16,697	.....
9	Miscellaneous	67,187	72,062	.....	4,875
	Total	3,30,280	3,06,291	47,360	23,371

362. The general question of the City roads improvement not being finally decided, no grant for new roads was sanctioned. However, eight bye-lanes, the condition of which caused much inconvenience to the public, especially in the rainy season, were Macadamized at a cost of Rs. 3,351, the expenditure being met from the ordinary grant for repairing roads.

363. Besides maintaining over 37 miles of existing metalled and kanker roads, about 50 miles of ordinary roads were kept in good order.

364. About 60 wells and tanks were cleared and repaired at an expenditure of Rs. 2,803. The decrease under this head is attributable to the absence of extraordinary expenditure such as that incurred in the previous year in executing repairs to the Sursagar tank in the City.

365. In the Public Health Branch, Rs. 76,687 were spent in maintaining the City conservancy, as against Rs. 78,282 in the previous year. The different items under this head may be generally specified as a thorough surface cleanliness and the removal outside the town of the street-sweepings, garbage, gutter-refuse, &c.

366. The expenditure on the watering of the City and suburban roads amounted to Rs. 35,177, being less than that of the previous year by Rs. 7,560. The total length of the roads watered, was nearly the same as in the preceding year or 50 miles in all.

367. There were in all 21 fires in the City during the year, causing damage to the extent of Rs. 8,778 as against 25 fires in the year preceding, resulting in damage amounting to Rs. 50,920.

368. The total number of compensation cases decided by the Municipal Commissioner was 128. The compensation for houses, shops, &c., taken up for public improvements during the year under review amounted to Rs. 79,177.

369. The following is a comparative statement of expenditure incurred in the year under report and the previous, year, under different service heads: —

Service heads.	1890-91.	1891-92.
	Rs.	Rs.
Public health	1,01,641	78,245
Public safety	42,289	28,693
Public convenience	44,644	35,196
Public communications	1,03,511	1,23,622
Establishment	36,408	36,765
Miscellaneous	1,787	3,770
Total ...	3,30,280	3,06,291

370. In addition to the above outlay, Rs. 6,825 were expended by the City Municipality on account of other departments for which refunds were received by it.

371. The miscellaneous revenues of the City Municipality derived generally from the sale of land and light fees charged for permissions granted to erect new houses, privies &c., was Rs. 25, 943 as against Rs. 17,435 in the previous year.

District Municipalities.

372. Municipal improvements have not been confined to the Baroda City. Minor towns according to their importance have also been receiving increased attention, especially in matters of sanitation. These towns are, by degrees, becoming more healthy and more cleanly.

373. In the latter part of the year, the work connected with the Town Municipalities was entrusted to the local Medical Officers and subordinates and increased grants were sanctioned according to the following scale :—

(*a*) Eight annas per head per annum for a town with a population of 7,000 and upwards.

(*b*) Six annas per head per annum for smaller towns.

374. Formerly the grants were fixed at a uniform rate of four annas per head.

375. Where the population is 7,000 and upwards, the medical subordinates were given an extra allowance of Rs. 25 per mensem for the additional work connected with the Town Municipalities, and where the population is below 7,000, the allowance was fixed at Rs. 20 *per mensem*.

376. The conservancy grants for the moffussil towns aggregated Rs. 1,48,630 against Rs. 73,457 and the actual expenditure Rs. 89,170 against Rs. 71,488. It should be remembered that the expenditure does not include anything on account of schools or dispensaries and that it has been incurred mainly for ensuring cleanliness.

377. The following statement shows in one view the towns which received in the year under review, special or fixed grants, the amount of these grants and the expenses incurred :—

Names of Municipal towns.	Receipts.					Expenditure.	
	Grant.	Special Grant.	Last year's saving.	Municipal receipts.	Total.	1890-91.	1891-92.
1 Kadi	4,859	7,346	1,099	146	13,450	4,568	9,296
2 Visnagar ...	5,865	901	18	108	6,892	3,960	6,563
3 Wadnagar ...	4,646	.....	766	309	5,721	5,251	4,436
4 Sidhpur	4,061	.....	.....	204	4,265	2,300	2,925
5 Patan	9,435	.....	1,686	143	11,264	8,035	10,606
6 Vijapur	2,867	.....	.....	32	2,899	2,085	2,724
7 Mehsana ...	2,657	.....	.....	405	3,062	1,353	1,612
8 Kheralu	2,538	.....	.....	40	2,578	2,004	1,872
9 Chanasma ...	2,100	.....	.....	66	2,166	1,451	1,603
10 Kalol	1,593	392	.....	54	2,039	1,259	1,851
11 Dehgam	1,470	.....	.....	36	1,506	775	944
12 Nowsari ...	3,691	1,340	779	8,864	14,674	11,043	11,449
13 Billimora ...	1,300	287	.....	886	2,473	1,231	1,451
14 Gandevi ...	1,761	451	193	1,294	3,699	1,629	1,803
15 Kathore ...	796	.....	240	45	1,081	605	614
16 Vyara	1,187	.....	529	14	1,730	1,801	1,157
17 Songad	1,000	782	90	.....	1,872	910	1,579
18 Dabhoi	3,750	.....	2,198	123	6,071	3,314	3,176
19 Petlad	4,708	.....	177	138	5,023	3,050	4,554
20 Sojitra	2,750	.....	1,093	97	3,940	1,627	2,069
21 Sinore	1,650	.....	4,320	84	6,054	1,224	1,191
22 Padra	2,567	.....	4,570	69	7,206	1,368	1,343
23 Waso and Pura ...	3,204	224	6,412	89	9,929	1,522	2,199
24 Sankheda ...	1,410	.....	447	14	1,871	1,183	1,368
25 Savli	1,775	60	1,286	49	3,170	959	1,756
26 Amreli	4,433	.....	597	24	5,054	2,788	3,754
27 Dwarka ...	1,572	180	48	143	1,943	1,331	1,295
28 Dhari	847	.....	116	10	973	575	754
29 Dammagar ...	865	83	1,993	31	2,972	422	679
30 Kodinar ...	1,890	357	156	288	2,691	1,105	1,639
31 Bet	1,949	.....	73	8	1,130	769	998
Total ..	84,296	12,403	28,886	13,813	1,39,398	71,488	89,170

378. The District Municipal expenditure was distributed among the several Divisions as under:—

Divisions.	1890-91.	1891-92.
	Rs.	Rs.
Kadi	33,041	44,342
Nowsari	17,218	18,053
Baroda	14,238	17,656
Amreli...	6,991	9,119
Total ...	71,488	89,170

RAILWAYS.

Dabhoi Railway (2'-6" Gauge).

379. The capital outlay authorized in connection with this line up to the end of June 1892 amounted to Rs. 19,61,244 as per particulars noted below :—

	Rs.
Capital outlay authorized up to the 30th June of 1891.	19,47,199.
Authorizations during the twelve months ending 30th June 1892	14,045
	19,61,244

Survey of the proposed line from Baroda to Khakharia...	1,900
Do. do. Padra to Kanjat...	1,764
Construction of quarters for Firemen and Cleaners at Chandode...	1,437
Do. running room for Drivers and Firemen and one Cleaner at Dabhoi	1,908
Do. loading and unloading ramp for engines at Miagam	929
Rebuilding culvert No. 29 on the Dabhoi-Miagam line...	6,107
	14,045

380. The total capital contributions up to the end of the Calender year 1891 amounted to Rs. 18,05,949 and the actual expenditure on capital account up to that date was Rs. 17,76,393.

381. The gross revenue for the Calender year 1891 amounted to Rs. 2,01,165 against Rs. 1,95,027 which shews an improvement of Rs. 6,138 on the realizations for the previous year. There was also an increase of Rs. 12,582 in the working expenses, the result being a decrease of Rs. 6,444 in the net earnings of the line which amounted to Rs. 68,126.

382. The result of the year's working was equivalent to a return of 3·88 per cent. on the productive capital as compared with 4·36 per

cent. obtained in the previous year. The financial position reached by this line at the close of the year is noted below :—

	Rs.
Net revenue realized from the date of the opening of the line	7,10,196
Interest on capital expended up to 31st December 1891...	7,82,989
Excess of interest over net revenue	72,793

383. The proportion of charges to earnings for the year was 66·13 per cent. as against 61·76 in the preceding year.

384. The mean mileage open was the same as in the previous year, *viz.*, 71·66.

385. The earnings, expenses and net profit per mile open, were :—

	1891.
Earnings	Rs. 2,807
Expenses	,, 1,856
Net profit	951

386. The train mileage run and the average receipts, expenses and net profit per train mile were as follows :—

Year.	No. of train miles run.	Average earnings per train mile.	Average expenses per train mile.	Net profit per train mile.
		Rs. a. p.	Rs. a. p.	Rs. a. p.
1891.	81,676	2 7 5	1 1 1	0 13 4
1890.	78,227	2 7 10	1 8 7	0 15 3

387. The following statement shews the gross earnings under their main heads compared with those for the previous year :—

Heads.	1890.	1991.	Increase or decrease.
	Rs.	Rs.	Rs.
Coaching traffic	1,15,471	1,16,071	+ 600
Goods traffic	77,592	83,171	+ 5,579
Telegraph earnings	1,304	1,191	— 113
Sundries	660	732	+ 72
Total ...	1,95,027	2,01,165	+ 6,138

388. It will be seen from the above statement that while there was an increase of Rs. 6,251 in the earnings from 'Coaching traffic', 'Goods traffic' and 'Sundries', there was a falling off of Rs. 113 in the 'Telegraph earnings," the result being an improvement of Rs. 6,138 in the total earnings.

389. The following statement compares the number of passengers carried during the year and the receipts derived therefrom with those of the previous year:—

Class.	1890.		1891.	
	No.	Rs.	No.	Rs.
Upper	3,887	4,237	4,527	4,277
Lower	3,52,971	1,07,450	3,58,465	1,07,163
Total.....	3,56,858	1,11,687	3,62,992	1,11,440

390. The tonnage of goods fell from 49,054 to 48,582 and the earnings rose from Rs. 77,592 to Rs. 83,171. Excluding the revenue stores, the tonnage lifted and the earnings therefrom, compare as under with those of the previous year:—

	Tons.	Receipts. Rs.
1891	40,780	79,265
1890	44,335	75,399

391. The following statement of principal commodities carried, shows the variations in the Goods Traffic both as regards tonnage and receipts:—

Description.	Increase over 1890.		Decrease on 1890.	
	Tons.	Rs.	Tons.	Rs.
Cotton, raw	.....	71	688	.....
Cotton, piece goods (European and Indian)	.....	9	23	.....
Firewood	.....	.....	2,226	3,385
Grains (wheat)	407	546	.....	.....
Do. (other than wheat) ...	.....	22	390	.....
Mowra flowers and seeds ...	188	2,225	.....	.....
Oil-seeds	442	744	.....	.....
Salt	240	625	.....	.....
Sugar and jagree	22	11	.....	.....
Stones and lime (other than marble)	2,177	2,935	.....	.....
Timber	481	1,538	.....	.....
All other articles	.....	.....	4,186	1,475
Total.....	3,957	8,726	7,512	4,860
Net	.....	3,866	3,555	.....

392. The Goods traffic forwarded to and received from the B. B. & C. I. and other Railway stations compares as under :—

Details.	1890.		1891.	
	Tons.	Receipts. Rs.	Tons.	Receipts. Rs.
Forwarded	21,409	36,693	20,519	40,069
Received	9,012	14,704	8,471	15,997
Total ...	30,421	51,397	28,990	56,066

393. The increase in receipts in traffic forwarded to the B. B. & C. I. Railway was chiefly in grains (other than wheat), mowra flowers and seeds, oil-seeds and timber, and that in traffic received from that line was in salt, sugar, jagree and miscellaneous goods.

394. The line was worked by the B. B. & C. I. Railway at a total cost of Rs. 1,33,039, which was more than that in the previous year by Rs. 12,582. The particulars by main heads of working expenses are given below :—

Heads.	1890.	1891.
	Rs.	Rs.
Maintenance of way, works and stations	41,666	49,885
Locomotive expenses	40,456	40,844
Carriage and Wagon expenses	6,449	9,386
Traffic expenses	20,165	21,284
General charges	11,721	11,640
Total Rs.....	1,20,457	1,33,039

395. The expenditure under "Maintenance of way, works and stations" shows an increase of Rs. 8,219, which is chiefly due to the increased expenditure under the several heads incurred in repairing the line damaged by the monsoon floods and to a heavier charge for carriage of Revenue stores.

396. The excess of Rs. 2,937 under the head "Carriage and Wagon expenses" is attributable to increased expenditure incurred in repairing coaching and goods vehicles, the number repaired being 474 as against 243 in 1890.

397. The increase of Rs. 1,119 under "Traffic expenses" is partly due to wagon covers and ropes issued during the year and partly to a slight increase in the station and train staff owing to more mileage having been opened for traffic.

398. On account of the heavy rain-fall in the latter part of July 1891, communication between Miagam and Dabhoi was stopped from 28th July to 7th August, owing to a break on the line, and between Dabhoi and Vishwamitri from the 29th to 31st July, as there was flood water over the rails.

399. Appendix **A. W.** will shew the principal commodities carried on the State Railway, as compared with those carried in the year preceding.

Petlad Railway (Standard Gauge).

400. The total capital outlay on this line at the end of the calendar year 1891, amounted to Rs. 6,92,508.

401. The working of the line during the year shows the following results:—

Gross earnings	Rs. 59,113
Gross expenses	,, 22,767
Net Profit Rs.....	36,346
Percentage of working expenses to earnings	38·51
Return per cent. on the capital outlay	5·25
Train miles run	19,517
Earnings per train mile	Rs. 3·03

402. The mean mileage open being 13·35, the earnings, expenses and net profit per mile open were as under:—

Earnings	Rs. 4,428
Expenses	,, 1,706
Net Profit Rs...	2,722

403. Of the earnings, Rs. 38,411 were from "Coaching traffic," Rs. 19,998 from "Goods traffic," Rs. 503 from "Electric Telegraph" and Rs. 201 from "Sundries."

404. The number of passengers (including season ticket holders) carried on the line and the earnings derived therefrom were as noted below:—

Class.	No.	Earnings.
First class	147	Rs. 105
Second class	1,940	,, 729
Third class	2,04,215	,, 36,284
Total.....	2,06,302	Rs.... 37,118

405. The tonnage of goods carried was 23,996 tons and the earnings therefrom were Rs. 19,536. The principal commodities conveyed were as under:—

Description.	Tons.	Earnings.
Cotton, raw	727	1,125
Cotton, piece-goods	358	450
Grains (other than wheat)	941	616
Oil-seeds	287	175
Provisions	658	644
Salt	662	563
Sugar and jagree	431	317
Stones and lime	10,466	6,005
Timber	929	793
Tobacco	5,697	6,291
All other articles	2,860	2,557
Total	23,996	19,536

406. The working expenses arranged under the main heads were as under :—

Maintenance of way, works and stations	... Rs.	5,192
Locomotive expenses	,,	8,609
Carriage and Wagon expenses	,,	2,769
Traffic expenses	,,	3,562
General charges	,,	2,190
Special and miscellaneous expenditure	,,	445
Total Rs....		22,767

Mehsana Railway System (Metre Gauge).

407. The total capital outlay up to 31st December 1890, on the lines composing the system was Rs. 25,44,340. The construction expenditure during the year under review amounted to Rs. 3,59,710. Thus the capital outlay stood at Rs. 29,04,050 on 31st December 1891, as will be seen from the following details :—

Mehsana-Vadnagar Kheralu Section	Rs.	9,09,855
Mehsana-Viramgaum Section	,,	12,30,567
Mehsana-Pattan Section	,,	7,47,304
Carriage and Wagon reserve stock (cooking car)	,,	16,324
Total Rs...		29,04,050

408. The total mileage open at the close of the year was 92·63 against 27·73 in 1890. The increase was due to the opening of 40·21 miles of line from Mehsana to Viramgaum on 1st July 1891, and 24·69 miles from Mehsana to Pattan on 20th July 1891. The mean mileage worked shows an increase of 47·96 miles.

409. The results of the working of these three sections is shown below :—

Earnings...	Rs	1,94,247
Expenses	,,	88,446
Net Profit...	Rs.	1,05,801
Percentage of working expenses to earnings		45·53
Return per cent. on the capital outlay ...		3·64
Train miles run		83,174
Earnings per train mile	Rs.	2·33

410. Of the earnings, Rs. 93,641 were from "Coaching Traffic" Rs. 99,860 from "Goods Traffic," Rs. 529 from "Electric Telegraph," and Rs. 217 from "Sundries."

411. The number of passengers carried on the lines and the earnings derived were as under :—

Class.	No.	Earnings. Rs.
First	180	357
Second	2,021	1,498
Third	3,82,402	87,068
Total...	3,84,603	88,923

412. The working expenses arranged under their main heads were as under:—

	Rs.
Maintenance of way works and Stations	17,501
Locomotive expenses	36,720
Carriage and Wagon expenses	9,815
Traffic expenses	12,580
General charges	10,533
Special and Miscellaneous expenditure	1,247
Total Rs....	88,446

413. As compared with the previous year there was an increase in the working expenses under all the heads owing to the opening for traffic of the Mehsana-Viramgaum and Mehsana-Pattan branches.

414. On the 25th July 1891, at mile 17, near Manund road on the Mehsana-Pattan branch, the earth and ballast of the line for 90 feet in length were washed away and passengers had to be transhipped. Again, on the 29th July, the line was washed away near Manund road and Pattan and the traffic had to be stopped till the 4th August.

415. The Mehsana-Viramgaum branch was flooded on the 28th July 1891, between miles 12 and 13. Again, on the 29th July, the line was breached at mile 22 near Detroj. The branch was, therefore, temporarily closed and re-opened on the 10th August for traffic.

416. On the 2nd August 1891, the Mehsana Kheralu branch was breached at mile 27 near Kheralu and the passengers were transhipped.

417. At the instance of His Highness' Government, plans and estimates were prepared by the B. B. & C. I. Railway authorities for an extension of our 2'-6" gauge Railway from the Vishwamitri Station to Padra. The estimate amounted to Rs. 1,84,000 and the construction of the line was sanctioned by His Highness' Government.

418. During the year, arrangements were made for surveying a line from Bahadarpur to the Songir quarries.

419. In 1891, with a view to construct a line from Khijadia to Chalala *vid* Amreli and on to Dhari, enquiry was made whether the Jetpur shareholders would consent to the exchange of the portion of their land in the village of Shedubhar that may be required for the line, for land of equal value in the adjoining Baroda village. The share-holders seemed willing to the exchange and steps were taken for the survey of the line.

420. During the year, His Highness' Government requested the B. B. & C. I. Railway authorities to carry out the preliminary survey of a branch line from the Ranuj Station on the Mehsana-Pattan line to Chansáma, and of another branch to connect Harij either with Chansáma or with Pattan. The Railway authorities suggested an alternative line, *viz.*, one branch only from Pattan to Harij *vid* Chansáma,

as it would obviate the additional cost of working two branches having separate junctions with the existing line.

421. Arrangements were made for the survey of the extension from Ranuj to Harij *vid* Chansámá and of the portion of the proposed alternative line from Pattan up to Chansámá, so that His Highness' Government might be enabled to decide which of the two lines, from Ranuj *vid* Chansámá to Harij, or from Pattan *vid* Chansámá to Harij, should be adopted.

EDUCATION.

422. The following is a comparative statement of the total expenditure of the Educational Department during the year under retrospect as compared with that of the preceding year:—

	Expenditure in mixed currency.	
	1890-91.	1891-92.
	Rs.	Rs.
Baroda High School and College	87,744	1,01,099
Pattan High School and the Anglo-Vernacular Schools	28,472	34,412
Contribution to the Anglo-Indian Institution ...	1,800	1,800
Grant-in-aid to the Nowsari Zarthosti Madressa ...	3,500	3,500
Do. do. Gandevi English School	600	600
Do. do. D. C. Tata Anglo-Vernacular School	600	600
Do. Billimora Anglo-Vernacular School	600	720
Vernacular Schools	2,97,031	3,63,066
Educational Buildings	64,986	98,137
Total... ...	4,85,333	6,03,934

423. Excluding the expenditure under the head of 'Educational Buildings,' the total expenditure for the year comes to Rs. 5,05,797 as against Rs. 4,20,347 in the previous year. Very nearly three-fourths of the increase is attributable to the opening of new Vernacular schools,

to the increase of pay earned by masters already in employ and to the employment of additional hands according to the scale sanctioned for the various schools.

Baroda College and High School.

424. Mr. T. S. Tait, M. A., B. Sc., the Principal, took six months' special leave from 18th April 1892, during which period, Mr. H. Littledale, B.A., Vice-Principal, acted for him.

425. As the High School was not separated from the Baroda College till March 1892, it will be inconvenient to treat of the two institutions separately this year.

426. During the year, a new chair of a Professor of Logic and Moral Philosophy and Lecturer in Law was created, and the appointment of an extra teacher in the Baroda High School was sanctioned. Thus, at the end of the official year under retrospect, the staff of the College and High School consisted of:—

(1) The Principal, the Vice-Principal, eight Professors and a Sanskrit Shastri.
(2) A Head Master and eighteen Assistant Masters, of whom seven were graduates.
(3) One Farm Superintendent.
(4) One Gymnasium Teacher.
(5) One Writing Master.
(6) One Drawing Master.
(7) Two Laboratory Assistants.
(8) Librarian.

Total, 37 in all.

427. The subjoined table shows the number of students on the rolls for the month of July 1892 and for the corresponding months in the three preceding years :—

Institutions.	1889.	1890.	1891.	1892.
College	75	101	113	146
High School	571	556	563	561
Total...	646	657	676	707

428. In connection with the High School, Mr. Tait remarks that "taking into consideration the sources from which students are drawn, it appears that the school has about attained its maximum."

429. The average daily attendance was 541·3 against 470·4 in the year preceding.

430. The income derived from fees and other sources amounted to Rs. 11,970 and the ordinary and extraordinary expenses to Rs. 1,01,099 as against Rs. 10,038 and Rs. 87,744 respectively, in the previous year.

431. The average cost of educating each pupil was Rs. 111-3-3 in mixed currency as against Rs. 111-12-2 in the preceding year.

432. As regards caste or creed, the students were distributed as follows:—

	1890-91.	1891-92.
Hindus	634	674
Parsees	26	16
Mahomedans	11	14
Others	5	3
Total...	676	707

433. Of the 82 students sent up for the Matriculation examination of the University of Bombay, 31 or 38 per cent. came out successful.

434. 47 students appeared for the Previous examination, of whom 12 or 26 per cent. passed.

435. For the 1st B. A. 33 students were presented, of whom 9 or 27 per cent. passed, 3 of them securing the 2nd class. Of the 7 that appeared for the 2nd B. A. examination, three were successful.

436. None of the 2 students who went up for the 1st B. Sc. examination was successful.

437. Of the 4 students sent up for the 2nd B. Sc. examination one succeeded in passing the examination.

438. In the first year's examination in Agriculture, 17 were sent up, of whom 11 came out successful, 3 of them passing in the 2nd class.

439. Out of the 4 students sent up for the 2nd year's examination in Agriculture, 2 did not appear at the examination and the other 2 failed.

440. Of the 20, who went up for the University School Final examination, 12 came out successful.

441. Of the successful candidates, 9 joined the final B. A. class, 9 the Intermediate class, 10 the 2nd year's class in Agriculture, 24 the Previous class, and 3 the 1st year's class in Agriculture.

442. There were 6 students holding Sirkar scholarships of Rs. 20 per mensem each, 5 prosecuting their studies in the Victoria Technical Institute, Bombay, and one in the Grant Medical College.

443. The Melvill Memorial scholarship of the value of Rs. 20 was awarded to a student of the Previous class. The Desai Bhow Saheb scholarship of the value of Rs. 12 and the Hebbert and La Touche scholarship of the value of Rs. 18 per mensem, awarded by the University of Bombay, were held by two students of the Previous class.

444. The Kazi Shahabudin scholarships of the value of Rs. 6 (British) each, were held by two students, one studying in the first B. Sc. class, and the other in the 2nd year's Agricultural class. Khan Bahadur Kazi Shahabudin also gave a scholarship of Rs. 10 (British), per mensem, to a poor Mahomedan student of the Previous class from 1st January 1892.

445. Dewan Bahadoor Manibhai Jasbhai gave scholarships of the value of Rs. 10 each per mensem to 3 Nagar students, two of whom were in the Previous class and one in the 1st Agricultural class.

446. The Poona Deccan Association awarded one scholarship of the value of Rs. 12 to a Mahratta student of the Previous class.

447. The Jasbhai Memorial scholarship of the value of Rs. 4 (Babashai), per mensem, was held by a student of the 6th Standard class.

448. The prize fund and the merit scholarships awarded to students in the College and High School remained unaltered.

449. From the Drawing class, 17 students appeared at the First Grade examination of the Sir J. J. School of Art and 13 came out successful. Two were sent up for the Second Grade examination, of whom one passed. The result being satisfactory, a sum of Rs. 150 (British) was awarded as bonus under the rules to the Drawing Master.

450. The boarding-house was fully occupied during term time and was considered a valuable boon by the mofussilites.

451. The gymnasium attached to the College and High School was well attended and 125 students went through a shorter or longer gymnastic training. The average daily attendance was 41.

452. Cricket continued to be a favorite game with the students.

The Pattan High School and the Anglo-Vernacular Schools.

453. The number of Anglo-Vernacular schools remained the same as in the preceding year.

454. The following table gives particulars regarding the number of students in the several Anglo-Vernacular schools, their nationality, average attendance and the average annual cost of educating each pupil :—

No.	Name of Institution.	When established.	Number of pupils on the rolls at the end of the official year.				Average daily attendance.	Average monthly number on the rolls.	Monthly rate of school-fees.	Monthly cost of establishment.	Total cost, including all charges.	Average annual cost of educating each pupil.
			Hindus.	Mahomedans.	Parsees.	Total.

		Total....	992	28	15	1,035	818·3	1,026·2	...	2,709	34,412	25 2 0

455. The total number of students who attended the Anglo-Vernacular schools was 1,035 or 7 less than that of the preceding year, but the average daily attendance and the average monthly number on the rolls were better than those in the previous year.

456. The total percentage of passes was 64·1. In the previous year it was 71·2 and in the year before that 56·7.

457. Twelve students were sent up for the Matriculation examination from the Pattan High School, all of whom failed. In this connection Mr. Tait remarks that "as none of them had studied the standard completely, there is little wonder that all failed."

458. A new building for the Sojitra Anglo-Vernacular school was sanctioned and the work was taken in hand.

459. The total expenditure for the year was Rs. 34,412 and the annual average cost of educating each pupil was Rs. 25-2-0, as against Rs. 28,472 and Rs. 25-0-7 respectively in the preceding year.

Grant-in-aid schools.

460. The following table shows the number of students attending the Grant-in-aid schools, their nationalities, the average daily attendance, &c.:—

No.	Name of Institution.	No. of pupils on the rolls at the end of the official year.				Average daily attendance.	Average monthly No. on the rolls.	Total annual cost including all charges.	Annual average cost of educating each pupil.
		Hindus.	Parsees.	Mahomedans.	Total.				
1	2	3	4	5	6	7	8	9	10
								Rs.	Rs. a. p.
1	Sir C. J. Nowsari Zarthosti Madressa.	32	116	2	150	134·23	144·1	8,146	53 10 6
2	Sir C. J. Gandevi English School.	14	26	...	40	34·9	39·41	1,364	33 4 9
3	Dadabhai C. Tata Nowsari A. V. S.	5	115	...	120	101	209	2,416	10 2 7
4	Rastomji P. B. Billimora A. V. S.	14	36	1	51	43·13	52·58	1,745	30 4 0
	Total...	64	293	3	361	313·26	445·09	13,671	28 10 6

461. The number of students at the end of the year was 364, while last year it was 373 and in the year before that 411.

462. Seven students passed the Matriculation examination from the Nowsari Zarthosti Madressa out of 13 presented. Of these 7, 6 were Parsees.

463. The Nowsari Zartosti Madressa and the Billimora Anglo-Vernacular school were examined and the Tata school at Nowsari was inspected by the Director of Anglo-Vernacular Instruction, assisted by Professor Tapidass Dayaram, while the Gandevi English school was examined by Professor Tapidass.

464. During the year under review, the Committee of the Tata Anglo-Vernacular school received from a Parsee gentleman, an offer of Rs. 20,000, as a contribution towards the erection of a new school building, and His Highness' Government in consideration of this munificient offer, granted an equal sum and a free site for the purpose.

The Experimental Farm.

465. The farm was managed by the Farm Superintendent under the direction of Professor Middleton.

466. The farm consists of about 85 acres of land, of which about 52 acres were cultivated during the year and 33 acres were under grass, buildings and roads.

467. Improved English and American implements were used in the farm.

468. The manures used, consisted of night-soil, sweepings and bone-meal.

469. Of the irrigated crops raised in the farm, the principal were sugar-cane, maize, potatoes and tobacco, country, as well as Borneo. These crops, with the exception of maize and Borneo tobacco, did not flourish owing to their being destroyed by Borers, fungoid disease and bad weather.

470. Of the dry crops sown, kodra and tur yielded well ; sunn, hemp, sundhio and diveli, fairly, and bajri, math, guar, rice and cotton poorly.

471. Four varieties of cotton were tried on the farm, *viz.*, Rozee, Kahanam, Goghari and Louisiana, of which only the first two flourished to some extent, the last two being destroyed by Katras.

472. The grass land, besides supplying all the needs of the farm, yielded a considerable quantity of hay for sale.

473. On the whole, Mr. Middleton considers that the results of the year were not good. Mr. Middleton considers that with proper supervision, the model farm "will in time become a first class Educational Institution."

VERNACULAR INSTRUCTION.

474. The number of Government schools at the beginning of the year was 380 and 35 new schools were opened during the year thus making a total of 415 schools at the end of the year under

review. Of the new schools opened during the year, six were boarding schools for Dhanka and Antyaj students.

475. The number of Vernacular schools with that of the pupils attending them at the close of the year is given below:—

Class of schools.	No. of schools.		No. of scholars.	
	1890-91.	1891-92.	1890-91.	1891-92.
Government	380	415	43,478	45,520
Funded	2	2	198	171
Aided indigenous	121	161	7,303	9,152
Total.....	503	578	50,979	54,843

476. It will appear from the above table that there has been a perceptible increase in the number of both Government and aided schools and that of scholars attending them.

477. Of the Government schools, the number of Vernacular schools for boys was 368 or 28 more than that of the last year and the attendance rose from 37,666 pupils to 39,428, the increase in the former being 8·2 per cent. and that in the latter 4·5 per cent.

478. There were 47 Government schools for girls against 37 in the year preceding, and the average number on the rolls was 5,034 which was in excess of that for the preceding year by 914 or 22 per cent. The average daily attendance was 2,879 against 2,469 last year.

479. One of the new girls' schools opened during the year was for the girls of the Antyaja class and the head mistress belonged to the same class. The number of girls attending the school at the end of the year was 47.

480. The number of Grant-in-aid schools and that of the pupils attending them increased from 121 and 7,303 to 161 and 9,152 respectively. The grants awarded according to results amounted to Rs. 7,215 against Rs. 3,511 in the previous year, and this increase is due partly to the additional number of schools registered during the year and partly to the greater efficiency of the old schools. This indicates that the revised grant-in-aid rules passed in 1885 are working satisfactorily.

481. The schools may be classified as follows according to the grades based on the number of pupils attending each school:—

Grade.	1890-91.		1891-92.	
	No. of Schools.	No. of Scholars.	No. of Schools.	No. of Scholars.
1st Grade Schools having 400 pupils and upwards.	12	5,698	13	6,037
2nd Grade „ „ 300 „ ...	14	4,798	11	3,776
3rd Grade „ „ 200 „ ...	28	6,478	32	7,614
4th Grade „ „ 100 „ ...	128	17,167	124	16,579
5th Grade „ „ 50 „ ...	163	11,619	206	14,291
6th Grade „ below 50	139	4,634	170	5,701
Total.....	484	50,394	556	53,998

482. In the above statement the Female Training school, the Music schools, Cookery school for boys and the Sanskrit schools, numbering 22 in all, have not been included.

483. The classification of schools according to the languages taught is as follows:—

Languages.	1890-91.		1891-92.	
	No. of Schools.	No. of Scholars.	No. of Schools.	No. of Scholars.
Gujarati	431	44,634	503	48,271
Marathi	31	3,074	34	3,222
Sanskrit	17	489	16	467
Urdu	24	2,782	25	2,883
Total.....	503	50,979	578	54,843

484. The classification according to the Districts in which the schools are situated is as follows:—

District.		1890-91.		1891-92.	
		No. of Schools.	No. of Scholars.	No. of Schools.	No. of Scholars.
Kadi Division		184	17,845	195	18,419
Baroda Division.	Baroda City	51	6,088	59	6,578
	Baroda Division (excluding Baroda City) ...	147	16,766	194	18,869
Nowsari Division		69	6,263	74	6,688
Amreli Division.	Amreli Division (excluding Okhamandal) ...	40	2,966	44	3,362
	Okhamandal Mahal ...	12	1,051	12	927
Total.....		503	50,979	578	54,843

485. The average monthly number on the rolls throughout the year rose from 49,472 to 53,992 and the average daily attendance from 36,153 to 41,346. The ratio which the daily average attendance bears to the average monthly number on the rolls is 76·7 against 73·7 in the previous year.

486. The following table gives details regarding the schools in the Baroda City:—

Schools.	1890-91.		1891-92.	
	No. of Schools.	No. of Scholars.	No. of Schools.	No. of Scholars.
Special Institutions	2	98	4	243
Sanskrit Schools	11	258	11	264
Marathi Boys' Schools ...	15	2,081	18	2,229
Gujarati Boys' Schools including Antyaja Schools ...	15	2,508	17	2,667
Urdu Schools	2	294	2	272
Girls' Schools	6	849	7	907
Total.....	51	6,088	59	6,582

487. The following table shows the number and percentage of pupils belonging to each community :—

Section of the community.	1890-91.		1891-92.	
	Average No. of pupils.	Percentage.	Average No. of pupils.	Perc
Hindus	42,135	82·65	45,348	
Jains	3,195	6·3	3,469	7·2
Mahomedans...	5,123	10·05	5,426	9·8
Parsees	477	·9	504	·9
Other creeds..	49	·1	96	·1
Total.....	50,979	100	54,843	100

488. The primary education of girls has made a good advance, the number of schools and pupils having increased from 39 to 46 and from 4,486 to 4,802 respectively. In addition to this number attending the regular girls' schools, so many as 828 girls attended the boys' schools where they were admitted as an experimental measure, and the result seems to be satisfactory. There were five Zenana classes for giving instruction to grown up girls and females unable to attend the regular schools for girls and 154 ladies attended them. The system of awarding scholarships to girls above the age of 10 as an inducement to remain longer in school, proved for the most part successful and the arrangement was, therefore, continued. Drawing classes were first opened in two of the principal girls' schools in the Capital, and as they were well attended, the subject was introduced in the girls' schools at Petlad and Pattan in the latter part of the year. The two Music classes attached to the Gujarathi and Marathi girls' schools No. 1 continued to increase in popularity.

489. The Sanskrit schools which are conducted on the old system faired well. The classes opened for teaching *Dharma Shastra* and the *Aryan* system of medicine and those opened in 1889-90 with a view to impart knowledge of the English and Vernacular languages to the students of the Sanskrit schools were continued during the year. The results of the annual examination of these schools were reported to be satisfactory.

490. The Inspectors and the Deputy Inspectors examined 427 schools and visited 30 schools. The Director and the Assistant Director examined 16 and visited 12 schools. Two special examiners were appointed during the year to examine the schools, as the Inspecting staff was found inadequate to cope with the work.

491. The following table will show the examination results of schools in each Division:—

Name of Division.	No. on the rolls.	Percentage of number presented to number on the rolls.	Percentage of number passed to presented.	Percentage of number passed to presented in 1890-91.
[redacted] Division	14,715	81·4	67·6	68·4
Baroda Division. Baroda City ...	4,730	77·8	52·5	52·9

Total...	53,703	80·3	54·6	64·5

492. The expenditure of the department during the year under review as compared with that of the preceding year was as follows:—

Item.	1890-91.	1891-92.	Increase.	Decrease.
Direction and subsidiary charges	16,528	14,745	.....	1,783
Inspection and subsidiary charges	19,503	20,722	1,219	.....
Instruction including all educational expenditure not coming under the above heads	2,61,000	3,27,598	66,598	.....
Total...	2,97,031	3,63,065	67,817	1,783

493. The total expenditure amounted Rs. 3,63,065 as against Rs. 2,97,031 last year and Rs. 2,89,425 in the year before the last. T[illegible] increase is mainly due to the opening of new schools, to the incre[illegible] sanctioned to the salaries of teachers already in employ, [illegible] employment of additional hands in several schools according [illegible] sanctioned scale, and to the opening of a cookery school in the [illegible] City for boys and Boarding schools for Antyaja and D[illegible] communities.

494. The budget allotment and the expenditure under each [illegible] were as under:—

No	Heads.	1891-92.	
		Sanction.	Expenditure.
		Rs.	Rs.
1	Direction	16,301	14,745
2	Inspection	20,058	19,550
3	Sanskrit supervision	1,248	1,173
4	Sanskrit Library	4,084	2,086
5	Baroda Central Book Depôt	2,007	1,989
6	Instruction, acting and travelling allowance, &c. ...	2,55,772	2,36,789
7	Contingencies, &c.	28,891	27,703
8	Grants-in-aid	5,111	7,215
9	Scholarships	4,373	4,186
10	Grant for the encouragement of literature	1,778	1,784
11	Temporary appointments	18,116	15,719
12	Tile turning...	9,867	9,381
13	Service tickets	2,277	2,083
14	Dead stock	20,005	18,653
	Total	3,89,888	3,63,065

495. The pretty large saving under the head "Instruction" was due to the opening of new schools late in the year.

496. Rs. 7,771 were spent on account of prizes against Rs. 4,603 in the preceding year. Besides this, prizes and sweetmeats of the value of Rs. 3,287 were distributed in several schools by various private visitors.

497. The average number of pupils receiving education *gratis* is 34·5 per cent. of the total number of pupils attending Government schools as against 42·1 per cent. in the preceding year.

498. The fee collections amounted to Rs. 34,107 as against Rs. 32,337 in the previous year.

499. The average cost of educating each pupil comes Rs. 5-3-3 against Rs. 4-12-3 in the previous year.

500. The total expenses may be summed up as under :—

	1890-91.	1891-92.
	Rs.	Rs.
Instruction, Direction, &c.....	2,97,031	3,63,066
Deduct amount of fees	32,337	34,107
Net expenditure...	2,64,694	3,28,959

501. Thus, the net expenditure exceeded that of the preceding year by Rs. 64,265.

Female Training School.

502. This institution has continued to maintain its usefulness in providing competent trained teachers for girls' schools. At the close of the year, there were 26 scholars attending the school. Of these, 17 were Brahmins, 2 were Banias, 2 were Rajputs, 2 were Barbers and the remaining 3 belonged to the Lavana, the Bhat and the Atit castes.

503. The following table will show the number presented and passed at the annual examination held by a Committee consisting of the Director, Inspectors and Deputy Inspectors :—

	2nd year.	1st year.	Preparatory class.	4th standard.	Total.
Students on the rolls ...	7	4	1	6	18
Do. presented for examination	7	3	1	6	17
Do. passed ...	4	3	1	5	13

504. The passed students of the second year's course were retained in the school to form the third year's class. Music, fancy and embroidery work, Sanskrit, drawing and hygiene were taught in the school.

505. The average annual cost of educating each pupil was Rs. 116-9-7 against Rs. 123-14-4 in the previous year. This cost includes scholarships paid to the pupils attending the institution.

506. During the year, a head-master was appointed for the better discipline and management of the pupils attending the institution.

Music Schools.

507. The music schools for boys and music classes for girls which are all novel institutions on this side of the Bombay Presidency have continued to increase in popularity.

508. A new music school was opened at Nowsari and the one which was opened in the capital city in the year previous by private enterprize and which received grant-in-aid from the State was turned into a Government school. Thus, at the end of the year there were four music schools for boys and two music classes for girls.

509. The results of the annual examination of the different music schools were as under:—

Raopura (City) music school	...	...	85·7 per cent.
Dandia Bazar (City) music school	...	...	86·05 ,,
Pattan music school	...	...	66·7 ,,
Nowsari do.	...	...	86·8 ,,

510. The progress of the two music classes attached to the Gujerathi Girls' School No. I. and Marathi Girls' School No. I. was satisfactory and they were attended by 63 and 22 pupils respectively. The cost of maintaining these music schools and classes amounted to Rs. 4,20

511. The work of translating *Sangita Parijata*, a Sanskrit wo on music was nearly completed.

Cookery School for boys.

512. A school for imparting theoretical and practical knowledge of cookery to boys was opened in the month of November 1891. There were two branches in this school, one for teaching the preparation of vegetarian and the other non-vegetarian food. At the close of the year, 16 boys attended the school, 5 in the former branch and 11 the latter. The cost of maintaining the school during the latter eight months of the year was Rs. 2,965.

513. There were at the commencement of the year, two Dhanka boarding schools, one at Songhad and the other at Arkanti. Two more boarding schools for Dhankas were opened during the year in Mahuwa and Vyara and four boarding schools for Antyajas in Baroda, Patan, Nowsari and Amreli.

514. The boarding schools at Songhad and Arkanti did well. The Songhad boarding school was attended by 100 boys, the same number as last year and the one at Arkanti by 54 boys. The highest standard taught in the Songhad boarding school was the VI. The results of the annual examination in both the schools were satisfactory. In the Songhad school, carpentry and agriculture were taught to the students and they appeared to have made a fair progress in both the branches.

515. There were 15 Night schools and the total number of pupils attending them was 616. In the latter part of the year, drawing was introduced in the Night schools at Petlad and Pattan, and a proposal to introduce the subject in the other Night schools is under consideration.

516. Ten more numbers of the series called *Prachina Kavya Mala* were edited and published during the year, thus making a total of thirty useful works of old popular Gujerathi poets, published under the supervision of the Committee appointed for collecting such works.

517. To further enrich the vernacular literature, 11 Sanskrit works from the Pattan Jain Bhandars were translated into the vernacular and 5 of them were published during the year. Two useful works in the Marathi language were translated into Gujerathi and published by the Department and four works translated from Marathi by private authors were patronized by the State. 'Paradise of Childhood,' a work on the famous Kindergarten system was translated into Gujerathi and published.

Book Depôt.

518. The permanent advance made towards the purchase of books to be kept in stock remained the same as in the preceding year, *viz.*, Rs. 15,000.

519. The Government stock account is as shown below:—

Receipts.	Rs.	*Disbursement.*	Rs.
Value of books on hand on 1st August 1891 ...	21,997	Sale proceeds of books ...	2,014
Value of stock received during the year ...	21,375	Commission paid during the year...	788
Commission realized during the year	4,006	Balance (books and cash) on 31st July 1892 ...	26,448
Total.....Rs.	47,378	Total.....Rs.	47,378

520. The following statement shows the number and value of books sold during the year and the three preceding years:—

Year.	No. of books sold.	Value of books sold.
		Rs.
1888-89	81,782	14,023
1889-90	97,607	16,315
1890-91	1,03,868	16,985
1891-92	1,13,918	20,142

Kala Bhawan.

521. Mr. T. K. Gajjar, M.A., B.Sc., continued in charge of this useful institution, which acquired so much popularity, that there was a considerable influx of students during the year, so much so that candidates had to be prevented from joining the institution for want of space.

522. The following table indicates the number of students prosecuting their studies in the different branches of the Institute at the close of the year under retrospect, their average daily attendance, &c.:—

School.	No. on the roll at the end of July 1892.	Average monthly number on the roll.	Average daily attendance.
School of Art, Second Grade	9	11·2	6·9
Do. First Grade	17	56·3	37·2
Do. Preparatory Class	62	62·0	41·2
School of Carpentry and Cabinet-making, Second Grade ..	21	21·7	13·5
Do. do. do. First Grade ..	27	33·4	22·3
School of Mechanical Technology, Second Grade	48	46·9	28·6
Do. do. do. First Grade...	73	75·0	47·3
School of Chemical Technology, Second Grade.	42	45·5	30·6
Do. do. do. First Grade...	66	59·5	40·2
School of Agriculture, Second Grade	...	21·0	19·8
Do. do. First Grade	25	24·2	17·5
School of Podagogy, Third Grade	7	6·5	5·9
Do. do. Second Grade	23	22·7	20·3
Do. do. First Grade	42	42·4	38·6
The Practising School	227	233·0	160·1

523. Taking the *Bhawan* as a whole, the average monthly number on the rolls was 418 and the average daily attendance 300·4.

524. Classified according to the profession of their fathers or guardians, the students in the different schools were distributed as under :—

School.	Government officers.	Other Government servants.	Landlords.	Farmers and tenants.	Following the learned professions	Following the mechanical professions.	Merchants and bankers.	Petty tradesmen and commercial clerks.	Artisans.	Labourers.	Following no definite profession.	Priests.	Professions not known.	Total.	Remarks.

525. The following would indicate the nationality of the students studying in the *Bhawan* :—

Hindus	435
Mahomedans	8
Parsees	19
	462

526. The first annual examination was held in October 1891 by a Committee of respectable and educated gentlemen who pronounced the results to be satisfactory on the whole.

527. The following table represents the passed students according to the classes obtained by them :—

Names of Schools.	First class.	Second class.	Third class.
School of Art, Second Grade	3	4	.....
Do. do. First Grade	5	8	5
Do. Carpentry and Cabinet-making, First Grade ...	2	3	3
Do. Mechanical Technology, First Grade...	1	8	24
Do. Chemical Technology, First Grade	3	7	9
Do. Agriculture, First Grade	5	11	2
Do. Pedagogy, Third Grade...	2	4	.....
Do. do. Second Grade	1	18	.....
Do. do. First Grade...	1	24	.....

528. After the annual examination, classes for the second year students were started and the curriculums for the different classes were recast and adopted.

529. During the year under report, the School of Art in the Institute was recognized as a centre for the examination of the J. J. School of Art, Bombay. Of the students who presented themselves for the examinations, 6 came out successful in the First Grade and 4 in the Second Grade. Some of the students in this school were making themselves useful in the preparation of cabinet designs.

530. The school of Carpentry and Cabinet-making continued to be appreciated. The workshop was better fitted up and practical instruction was imparted to the students. Architectural drawing was specially attended to.

531. The school of Mechancial Technology—At the suggestion of Babu Rajninath Ray, the Financial adviser, in consultation with whom, the account system of the *Bhawan* was to be fixed, the Public Works and Khangi Workshops were amalgamated with that of the *Bhawan*. This arrangement afforded great facilities for imparting practical knowledge to the students of this branch of the *Bhawan*. The amalgamation of the workshops necessitated the strengthening of the staff.

532. The school of Chemical Technology succeeded in turning out students whose services were engaged by merchants from Calcutta, Cawnpore, Delhi and Amritsar and by Mill-owners. The new printing machinery ordered out from Messrs. Edmerston and Company of Manchester, was received and fitted up. The Dye-house also was better furnished. A room was fitted up for qualitative analysis and practical chemistry was specially attended to. Arrangements were made to engage the services of Dr. Ehrhardt as Professor of Chemical Technology in place of the late Professor Schumacher.

533. As the demand for passed students of the School of Agriculture was comparatively less, very few students attended it. There was but one class during the year under report, with only 25 students.

534. In the school of Pedagogy the curriculum was thoroughly revised and methodical sequence introduced. Drawing was introduced and English was attempted as second language. The number of students attending the Practising class at the end of the year under review was 227.

535. The Workshop turned out work to the amount of Rs. 20,735 as against Rs. 10,059 in the previous year and the net earnings amounted to Rs. 1,465.

536. The total initial expenditure, including cost of drawing materials, carpentry tools, dyeing and mechanical applianees, furniture, books, &c., amounted to Rs. 37,275, mixed currency.

537. The total current expenditure, including salaries, scholarships, house-rent and contingencies was Rs. 38,552, mixed currency, as against Rs. 28,484 in 1890-91. The annual average cost of educating each pupil was Rs. 84-11-9, the corresponding figure for the preceding year being Rs. 77-9-9.

125065

538. The *Bhawan* building had during the year, a photographic and drawing studio added to it and the students were thus enabled to pursue the useful phototype processes.

539. In accordance with the orders of His Highness the Maharaja, Industrial schools were opened during the year at Kathore, Petlad and Pattan and were provided with efficient staff and necessary books, instruments, furniture and machinery.

540. In conformity with the orders of His Highness the Maharaja the preparation of a vernacular series of works on scientific and technical subjects from standard works in English, was taken in hand during the year, under the supervision of Mr. Gajjar, the Principal of the *Bhawan*, under the name of "The Dnyan Manjusha Series." The volumes ready for publication, treated of Physics, Chemistry and Linear Perspective.

541. The staff of the *Bhawan* at the end of the year consisted of:—

1. The Principal.
2. The Vice-Principal and Professor of Literature.
3. Director of the Dye-house and Professor of Dyeing.
4. Superintendent of Workshops and Professor of Mechanical Technology.
5. Superintendent of the Farm and Professor of Agriculture.
6. Head Teacher in Drawing.
7. Professor of Chemistry.
8. Professor of Physics.
9. Lecturer in Mathematics.
10. Gymnastic Teacher.
11. Boarding Supreintendent.
12. Shastri.
13. Head Master of the Practising School.

Besides these, there were 9 Assistant Masters, 3 Demonstrators, 3 Mistries and 1 Laboratory Assistant.

BARODA STATE LIBRARY.

542. During the year under report, there was no change in the constitution and management of this useful institution.

543. Several useful books were added to the Library during the year. At the close of the year there were:—

2,277 English books,
1,063 Marathi books,
897 Gujarathi books,
366 Sanskrit books, and
190 Hindustani books;

4,793 in all, that is, 313 books more than those in the preceding year.

544. The receipts of the Library were Rs. 2,198, while the expenditure amounted to Rs. 2,418, mixed currency, as against Rs. 2,066 and Rs. 2,428 respectively in the preceding year.

545. There were 328 subscribers for the State Library and 108 for the Branch Library against 320 and 107 respectively in the previous year.

GOVERNMENT PRINTING PRESS.

546. The Accountant-General having decided that the Press [illegible]ounts should, in future, be closed at the end of July, so that the [illegible]me might correspond with the revenue year, the figures given below [illegible]or the year under review cover a period of 15 months from 1st May 1891 to 31st July 1892. Those for the previous year 1890-91 are for 12 months (May 1st to April 30th) only.

547. The gross earnings of the Printing Press were Rs. 87,463 and the expenditure including wear and tear of the plant amounted to Rs. 71,821. Thus the net profit was Rs. 15,642.

548. The particulars of the expenditure were as under:—

	1891-92.	1890-91.
	Rs.	Rs.
Establishment ...	16,934	10,123
Contingencies ...	4,630	2,138
Printing paper ...	36,832	19,149
Machinery and other dead-stock articles...	8,875	901
Miscellaneous ...	4,550	...
Total...	71,821	32,311

549. Thus there was an increase under all items. The work in connection with the *Sirkar Gazette* or the *Adnya Patrika* was heavy. The number of copies issued per week was 2,360 in the last month of the year under retrospect.

MEDICAL DEPARTMENT.

550. The number of hospitals and dispensaries in the State remained the same as in the year preceding, *viz.*, 39. The temporary dispensary at the Ajwa Water-Works was closed and a new institution was opened at Khamba in the Amreli Division.

551. The total strength of the Department at the close of the year consisted of 20 Officers, 46 Hospital Assistants of all grades, 55 Medical pupils, 1 Midwife, 4 Nurses and 2 Veterinary Surgeons against 17, 54, 60, 5 and 2 respectively in the previous year. The departmental staff was strengthened during the year by the addition of two graduates and the appointment of a Medical Store-keeper and Superintendent of Animal Vaccination.

552. The total number of patients treated rose from 2,64,129 in the preceding year to 2,75,661 in the year under review. Of these, 5,565

were in-door and 2,70,096 out-door, against 6,366 and 2,57,763 respectively in the previous year, as will be seen from the subjoined table :—

Name of Institution.	1890-91.			1891-93.			Increase.	Decrease.

553. It will be seen that there is a decrease of 801 among the in-door patients and an increase of 12,333 among the out-door patients, thus resulting in a net increase of 11,532. The increase, it is gratifying to note, is general, more than half the number of institutions exhibiting a higher figure than in the previous year. Increased admissions were conspicuous at the Jamnabai Hospital and the Countess of Dufferin and Sayajirao Military Hospitals in the City and at the Civil Hospitals in Mahuwa, Vyara, Nowsari, Billimora, Amreli, Sojitra, Padra, Petlad, Savli, Damnagar, Dehgaum and Dhari.

554. Of the total number of patients treated, 2,53,958 were from the civil population, 19,514 were from the military, 318 were from the police, and 1,871 belonged to the jail population, as against 2,42,133, 19,284, 387 and 2,325 respectively in the previous year.

555. Of the 5,565 in-patients, 5,080 were cured or relieved, 94 absented or were discharged otherwise, 180 died and 211 remained under treatment at the close of the year. The percentage of deaths to the total number of in-patients treated was 3·2 as compared with 1·9 in the previous year. The higher death-rate was largely due to numerous deaths from cholera and fever.

556. The daily average attendance of in-door patients was 186·4 against 207·1 in 1890-91.

557. Of the total number of out-door patients treated, 2,66,593 were cured, 22 absented or were discharged otherwise, 303 died and 3,173 remained under treatment at the close of the year. The ratio per cent. of deaths to the total number treated was the same as in the year preceding, *viz.*, 0·1.

558. The daily average attendance of out-door patients was 3025·6 against 3192·4 in 1890-91.

559 Of the total number of patients treated, 142,070 were males, 48,924 females and 84,667 children. Thus out of every 100 persons treated, 51 were males, 18 females and 31 children, the corresponding proportions in the previous year being 54, 17 and 29 respectively.

560. Classifying the total number of patients according to religion, it appears that 2,13,778 or 77·58 per cent. were Hindus, 43,705 or 15·84 per cent. Mahomedans, 15,236 or 5·52 per cent. Parsees, 266 or 0·09 per cent. Christians, and 2,676 or 0·97 per cent. members of other castes.

561. At the commencement of the year, there were under treatment 6 persons, on whom major surgical operations had been performed and during the year under review, 1,067 were subjected to similar operations, thus making a total of 1,073 as compared with 1,310 in the previous year. Of these, 1,062 were cured, 2 died and 9 remained under treatment.

562. Of the operations performed, 17 were on the eye and its appendages, 25 were for the removal of calculi, 135 were incisions 43,

were operations on joints, 62 were on bones, 62 were for the removal of tumors, 15 were amputations, 100 were reparative operations, 384 were for the removal of foreign bodies, 2 were obstetric operations, 1 was an operation on vein and 227 were not classified.

563. 9,154 minor operations were performed as against 9,631 in the preceding year.

564. The average cost per patient was Re. 0-11-8 against Re. 0-11-7 in the previous year.

565. The Veterinary Hospitals at Dabhoi and Visnagar are doing good work and are gaining popularity and confidence. The total number of cases that came under treatment in the year was 2,262 against 1,612 in 1890-91. Of these, 2,016 cases were discharged cured, 204 relieved, 30 died, 11 were pronounced incurable and 1 remained under treatment at the close of the year. 1,738 of these cases were treated at the Dabhoi Hospital and 524 at the Visnagar Hospital.

566. Of the total number treated, 269 were horses, 1,461 bullocks, 179 cows, 226 buffaloes, 49 dogs, 5 sheep, 4 camels, 19 asses, 46 goats and 4 birds.

567. Epidemic cattle diseases appeared in the Savli, Amreli and Dhari Talukas. The affected places were visited by the Veterinary Surgeons and the necessary medical aid was rendered.

568. The expenditure on the Medical Department alone exclusive of the Vaccination Department was Rs. 2,15,084 (mixed currency) against Rs. 2,05,744 in the preceding year, out of which Rs. 1,50,738 or 70·1 per cent. represents the pay of establishment, Rs. 29,637 or 13·7 per cent. the cost of medicines (European and local) and instruments and Rs. 34,709 or 16·2 per cent. the cost of dieting, dead stock and contingencies. The whole cost is exclusively borne by the Government.

569. As compared with the previous year, there was an increase of Rs. 7,827 in the pay of the Medical Establishment which was chiefly due (1) to the appointment of a Sanitary Commissioner and a full-timed Medical Store-keeper and Superintendent of Animal Vaccination (2) to the filling up of the places of two first class hospital assistants by the appointment of graduates or licentiates in medicine and (3) to the increased salaries earned by the officers and medical subordinates already in employ.

Vaccination.

570. The vaccination staff at the end of the year consisted of:—

4 Inspectors,
5 1st Grade Vaccinators,
12 2nd Grade Vaccinators,
19 3rd Grade Vaccinators,
8 Paid Volunteers, and
40 Peons,

giving a total of 44 working vaccinators, besides 4 inspecting officers. This gives one operative to every 194·7 square miles and 54,895·3 of the population.

571. The total number of operations performed in the year amounted to 73,818, being an increase of 1,616 over the figure for the previous year. Of the total number, 72,951 were primary and 867 were re-vaccinations, showing an increase of 1,900 in the former and a decrease of 284 in the latter.

572. Of the total number primarily vaccinated, 62,997 were Hindus, 4,949 Mahomedans, 107 Parsees, 13 Christians and 4,885 persons of other castes as compared with 60,735, 4,999, 161, 7 and 5,149 respectively in the preceding year. The ratio per cent. of Hindus, Mahomedans, Parsees, Christians and persons of other castes was respectively 86·3, 6·8, 0·19, 0·01 and 6·7.

573. In primary vaccination the males and females respectively numbered 37,929 and 35,022. Of the number re-vaccinated, 763 were males and 104 females. Thus the total number of males and females operated on was 33,692 and 35,126 respectively. In primary vaccinations, the sex percentages were respectively 51·9 and 48·1 against 52·1 and 47·9 in the previous year and in re-vaccinations they were 88·0 and 12·0 against 81·5 and 18·5.

574. The age details of the number primarily vaccinated exhibit the following result:—

	1891-92.	1890-91.
Under one year	67,280	64,679
Between one and six years ...	5,472	6,040
Above six years...	199	332

575. The increase in the number of children vaccinated indicates that infantile vaccination is appreciated by the people.

576. 70,576 primary vaccinations or 96·7 per cent. of the total number were successful. The number of unsuccessful cases was 1,432 and in 1,082 cases the result was not known. 139 persons were operated on a second time on account of the failure of the first operation.

577. Of the 867 re-vaccinations, the number of successful cases was 548 or 63·2 per cent. against 63·5 in the preceding year; in 87 instances the result could not be ascertained and in 232 the operations failed.

578. The following table shows the total number of vaccinations and re-vaccinations, the number of persons successfully vaccinated, the percentage of successful vaccinations to the total number vaccinated, &c., as contrasted with the results for the two previous years:—

Years.	Total number of persons vaccinated and re-vaccinated.	Number of persons successfully vaccinated.	Percentage of successful vaccination to total number vaccinated.	Average number vaccinated per 1,000 of population.
1889-90	71,776	68,781	95·8	32·8
1890-91	72,202	69,546	96·3	33·0
1891-92	73,818	71,124	96·3	30·5

579. The four inspectors of vaccination dren travelled 7,832 m visited 1,403 villages, and inspected 44,364 chil on whom vacci.eil operations had been performed. The percentage of vaccinated children inspected was 60·8 against 54·7 in 1890-91.

580. The total cost of the Vaccination Department for the year was Rs. 18,709 against Rs. 17,904 in 1890-91 showing an increase of Rs. 805.

581. The total number of successful operations was 71,124 against 69,546 in the previous year. The average cost of each successful vaccine operation was annas four and pies two, against annas three and pies nine.

582. Animal vaccination was introduced during the year. Twenty heifers were inoculated, in 12 of which, the operation was successful. The lymph produced was of good quality and was chiefly used in the City.

583. The midwife attended 63 obstetric cases during the year under review against 50 in the preceding year. Of these, 31 were cases of natural labour, 5 of unnatural, 15 of tedious labour and 12 of premature labour or miscarriage. In two cases craniotomy was performed and in four turning was resorted to. The Head of the Department should find means to extend the usefulness of this subordinate.

584. The number of females examined by the midwife for diseases of the genito-urinary organs was 135 against 98 in the year 1890-91.

585. The number of medico-legal cases received for analysis by the Chemical Analyser was 89, being 43 less than those of the previous year, and the number of articles examined in connection with them was 421·38 of these cases were of suspected human poisoning and 49 involved the examination of articles suspected to be stained with blood or other animal fluid. The remaining two were cases of alleged cattle-poisoning. Besides these, there were 16 cases of miscellaneous nature in which 120 articles including 22 samples of water were examined.

586. During the year under report, the Sanitary Commissioner's place was newly created and Dr. Krishnarao V. Dhurandhar was appointed to it.

587. He made a useful tour in the Baroda and Nowsari Divisions and made some suggestions for improving the sanitary condition of the places visited by him.

588. Public health was on the whole good. Fever of a severe type and cholera prevailed during a part of the year.

589. In the appendices will be found the usual statistical details.

PALACE.

590. The ordinary expenditure of the Palace for the year 1891-92 was Babashai Rs. 20,64,395 against Rs. 21,62,097 in the previous year.

591. The following is a comparative statement of the expenditure under the principal heads as compared with that for the preceding year :—

No.	Heads of expenditure.	Expenditure for the year 1890-91 (Babashai currency).	Expenditure for the year 1891-92 (Babashai currency).	Increase.	Decrease.
1	Household	9,58,817	10,86,423	1,27,606	.....
2	Karkhanas	3,51,296	3,43,037	.....	8,259
3	Devasthans	37,333	44,908	7,575	.....

5	Dharmadaya	3,68,933	3,89,974	21,041	.....
6	Miscellaneous	4,05,839	1,69,359	.....	2,36,480
	Total.....	*21,62,097	20,64,395	1,56,222	2,53,924
	Net decrease.	.....	.....	.....	97,702

REVENUE SURVEY AND SETTLEMENT.

592. The Department was under the charge of Mr. F. A. H. Elliot, I. C.S.,C.I.E., during the whole year except for a period of one month and seventeen days, from 1st September to 17th October 1892, when he was on privilege leave.

593. The post of the Survey and Settlement Superintendent was held by Mr. A. F. Maconochie, I.C.S., throughout the year except for three months and seven days when he was on leave.

594. There was no change in the number or the strength of the Kamdars' establishments employed during the year. There were, as in 1890-91, four measuring and two classing parties each headed by a Survey Kamdar and a Nimtandar under him. Each of these parties consisted of 28 measurers and 24 classers respectively.

595. The following is a brief tabular statement exhibiting the amount of field work done by the measuring parties during the year under review as compared with that of the previous year:—

Year.	Field by field measurement.		Area traversed.	Total Area.
	Survey Nos.	Area.		
1890-91	88,842	5,04,942	30,470	5,35,412
1891-92	1,18,045	5,21,537	38,622	5,60,159
Increase.	29,203	16,595	8,152	24,747

* This figure will not tally with that given in para. 554 of the last year's report as the latter was shown in mixed currency.

596. The above figures show an increase of 29,293 in the number of fields measured, an increase of 16,595 bighas in the area measured field by field and an increase of 8,152 bighas in the area traversed. This out-turn of work is very satisfactory.

597. The measuring work done in each Taluka was as follows :—

Talukas.	Field by field measurement.			Traversed.		Total.	
	No. of villages.	Survey Nos.	Bighas.	No. of villages.	Bighas.	No. of villages	Bighas.
KADI DIVISION.							
Vadavli	20	20,093	1,03,624	1	6,784	31	1,10,408
Harij	5	3,334	23,884	2	10,768	7	34,652
Pattan	1	363	2,400	.....	.....	1	2,400
Kheralu	14	11,954	40,270	.....	4,893	14	45,163
Vadnagar	21	15,669	62,562	3	4,944	24	67,506
Visnagar	10	7,927	31,713	.....	.....	10	31,713
Kadi	45	24,904	1,23,031	.....	.....	45	1,23,031
Dehegaum	17	13,350	48,321	2	617	19	48,938
Atarsumba	10	2,956	15,612	.....	.....	10	15,612
Kalol	11	10,619	37,309	.....	.....	11	37,309
	164	1,09,169	4,87,726	8	28,006	172	5,15,782
NOWSARI DIVISION.							
Mahuva	13	7,457	28,600	.....	1,055	13	29,654
BARODA DIVISION.							
Baroda	1	377	13,11	2	9,562	3	10,873
Dabhoi	2	358	1,814	... ..	.....	2	1,844
Savli	1	684	2,056	.....	.....	1	2,056
	4	1,419	5,211	2	9,562	6	14,773
	180	1,18,045	5,21,537	10	38,623	190	5,60,159

598. In the Kadi Division, the measurement of the Sidhpur and Patan Talukas had been previously completed. During the year under report, the Harij, Kheralu, Vadnagar, Dehegam and Atarsumba Talukas were measured in their entirety, and Kadi and Visnagar brought so near completion that only one season's work for one party remains to be done in each.

599. The following abstract shows the amount of work done by each party and the test taken of it :—

Party.	No. of days occupied actually in measurement.	Field by field measurement.		Average Anni.	Test.	
		Survey Nos.	Bighas.		Survey Nos.	Bighas.
A.	3,674	30,247	1,58,508	69⅜	3,369	12,020
B.	3,568	35,550	1,34,545	68¼	3,410	9,249
C.	3,021	24,904	1,22,031	56	3,287	10,238
H.	2,955	27,344	1,06,453	67¼	3,715	10,611
	13,218	1,18,045	5,21,537	65	13,781	42,118

600. As regards the work of the individual parties, all have exceeded the required standard. The work of the C. and H. parties seems comparatively less than that of the A. and B. parties, but this is due to no fault of the former two, one of which was, throughout the season, employed in the most difficult villages of the Kadi Taluka, where the rice-fields are very small and the boundaries very irregular, while the efficiency of the other was impaired by the necessity it was under, of travelling about in six different Talukas. Under the circumstances, all the parties must be considered to have worked equally well.

601. This work was, as usual, supervised by the Superintendent in general and tested by the Assistant Superintendents, Kamdars and Nimtandars in particular. The results of the tests were generally very satisfactory.

Classing Parties.

602. Of the two classing parties, the E. party finished the classification of the Velachha and Patan Talukas and classified nine villages of the Harij Mahal. The F. party completed the classification of the Petlad Taluka with its Peta Mahal Sisva and also classified 5 villages of the Baroda Taluka, 2 of the Dabhoi Taluka and 1 of the Savli Mahal. Thus, at the end of the season, there were in all, three Talukas with one Peta Mahal ready for settlement, *viz.*, Velachha, Pattan, Petlad and Sisva.

603. The following abstract shows the amount of classification work done in each Taluka and the tests taken of it :—

No.	Talukas.	No. of villages.	Survey numbers.	Bighas.	Tests.	
					Survey numbers.	Bighas.
1	Patan	62	32,403	1,77,889	4,203	20,188
2	Harij	9	2,699	21,736	280	1,930
3	Velachha	5	677	8,007	89	737
4	Petlad	46	56,026	1,19,585	9,765	23,549
5	Sisva	3	3,608	9,196	962	2,394
6	Dabhoi	2	1,900	6,668	188	509
7	Baroda	5	2,436	5,175	268	448
8	Savli	1	684	1,508	74	135
	Total	133	1,02,433	3,49,764	15,829	49,890
	Corresponding figures for the year 1890-91 ..	290	79,038	4,34,039	12,750	55,290

604. Thus, as compared with the previous year, there has been a large increase in the number of fields classified and an enormous decrease in the area classified. This decrease is entirely due to the fact that the F. party, throughout the season, was engaged in the Petlad Taluka, where, owing to the minute sub-division of the land and the close nature of the country, the work was necessarily tedious and slow. Again, besides its current work, the E. party had to make a sub-soil classification of the villages in the Patan Taluka, which, it had already classed in the previous year without taking the sub-soil water into consideration. Under these circumstances, the out-turn of work must be considered on the whole very satisfactory. The tests taken were extensive and the results generally good.

605. The results of the field work were also, as usual, examined and tested during the rainy season. Owing to the very large amount of work done during the field season, it was necessary to employ a number of extra temporary hands to assist in the mechanical part of the examination. Notwithstanding this, the work could not be completed by the close of the rainy season.

606. Appendix **Aac.** shows the number of internal boundary disputes settled during the year under report. The number of cases decided was 29 only; in 26, the settlement was effected by regular enquiry and in 3 by mutual agreement. In addition to the above, the

E. party Kamdar, who was specially deputed for the purpose, settled in conjunction with the Rajpipla Survey Superintendent, 36 boundaries in dispute between the Baroda and Rajpipla States. The remaining six disputes were being settled amicably by the Survey and Settlement Superintendent and the administrator of Rajpipla.

607. Twenty appeals in boundary cases from the decisions of the Kamdars and Assistant Superintendents were heard and disposed of by the Survey and Settlement Superintendent. In 15 of these cases, the original decisions were confirmed and in the remaining 5, they were modified. Only one appeal was pending at the close of the year.

608. The Jamabandi settlement of the Talukas of Kamrej, Palana and Velachha (including the Vakal Tappa) in the Navsari Division and the Tilakwada Peta Mahal of the Sankheda Taluka in the Baroda Division was sanctioned, and the new rates are now being levied. The Navsari and Gandevi rates were also sanctioned during the year, but for want of time it was not found possible to apply them during the year under report.

609. The new survey rates were introduced in the Sidhpur, Sankheda and Baroda Talukas and in the village of Ranipura in the Savli Taluka. The introduction of rates into any particular Taluka entails the examination of Jamabandi Tharavbands, &c., which has been done by this Department in regard to the villages of the Talukas mentioned above as well as those of the Choranda Taluka where the announcement of new rates was made almost at the close of the year 1890-91.

610. In consequence of the redemption of the *Gharania* lands in the Kadi Division, the rates previously fixed had to be revised. Such revision took place in the villages of the following Talukas and each individual *Khata* in these villages had to be remodelled, the work entailing a considerable amount of labor and careful supervision:—

Talukas.	No. of villages in which the new rates were applied to		Total No. of villages in which the revised rates were introduced.
	Both the Gharania and Sirkari lands.	Gharania lands only.	
Mehsana	8	28	36
Vijapur	13	15	28
Kheralu	8	29	37
Kadi	52	1	53
Kalol	35	26	61
Dehgam	60	12	72
Atarsumba	9	9	18
Total	185	120	305

611. The following table shows the cost per Bigha of measurement and classification, as compared with the two previous years Half the expenditure of the Survey and Settlement Commissioner's Office as usual, and three-fourths that of the Superintendent's Office, are taken into account in estimating the cost per Bigha :—

Year.	Measurement cost.	Classification cost.	Combined cost.
	Rs. a. p.	Rs. a. p.	Rs a. p.
1889-90	0 4 10½	0 2 9	0 7 7½
1890-91	0 3 0	0 1 9	0 4 9
1891-92	0 2 11	0 2 4	0 5 3

612. The total expenditure of the Department for the year amounted to Rs. 2,87,592 against Rs. 2,80,720 in the previous year, showing an increase of Rs. 6,872. The subjoined statement shows the total expenditure classified under different heads :—

No.	Heads.	1891-92.	1890-91.	Difference.
1	2	3	4	5
		Rs.	Rs.	Rs.
1	Direction	42,882	42,967	− 85
2	Supervision	56,875	56,193	+ 682
3	Office	11,403	11,145	+ 258
4	Measuring	39,278	38,164	+ 1,114
5	Classing	17,305	16,811	+ 494
6	Training	1,701	856	+ 845
7	Outfit (dead stock articles).	3,691	5,622	− 1,931
8	Contingencies	22,551	20,609	+ 1,942

	Total.....	2,87,592	2,80,720	+ 6,872

613. *Training.*—The increase under this head is attributed to the employment of temporary hands in connection with *Tapasni* work during the rains.

614. *Contingencies.*—The printing of the Jamabandi Settlement reports, as also other reports, accounts for the increase under this head.

615. *Boundary marks.*—The decrease under this head is misleading. It shows the want of timely payment from the Taluka treasuries owing to the non-issue of the necessary circular by the Accountant-General to make these payments. This circular has subsequently been issued and the expenditure of the following year will far exceed that of the year under report.

616. *Barkhali.*—The increase under this head is owing to the promotions given to deserving members in that branch of the department.

617. *Cash.*—The reduction of establishment effected in this branch explains the cause of decrease in the expenditure under this head.

618. *Jamabandi.*—The increased expenditure under this head is due to the large number of temporary hands engaged to complete the preparation of Jamabandi papers of the Talukas settled or to be settled.

619. *Special duty.*—The increase is due to the entertainment of a measurer on special duty for the whole year to look after boundary marks.

Barkhali branch.

620. Appendices **Aaf** to **Aak** will show the progress made by the Barkhali branch between 1st February and 31st December 1892.

621. During the period under review, no *Gharaniya* redemption took place, but progress was made in the settlement of Barkhali lands of 447 villages. Final orders were issued in the Talukas of the Kadi Division in all cases. Provisional orders owing to special circumstances were issued in certain instances in the Baroda and Nowsari Divisions. Both, provisional orders or orders for life only, bore but a small proportion to final orders.

622. Appendix **Aag** shows that 2,361 Sanads have been issued for 20,375 bighas. The full assessment on this area would have been Rs. 68,654, while the actual charge amounted to Rs. 21,986, which latter figure includes Rs. 4,372 on account of *Vadharo* or illicit increment and Rs. 7,959 on account of *Mamul Haks* previously paid. Thus the Barkhali Settlement proper, yielded only Rs. 9,655 or considerably less than one half the total dues.

623. It will be noticed that Sanads were issued for 20,375 bighas and that this last short stage of Barkhali proceedings remained to be applied to 17,393 bighas, which work has since been completed.

624. Appendix **Aah** gives particulars, such as the nature of the decisions, &c., of the 6 village cases disposed of during the period under review. Most of the cases have been appealed against and the appeals are pending.

625. Appendix **Aai** shows that the Survey and Settlement Department disposed of 204 cases of compensation. The area taken, the compensation paid in lump sums or in the shape of *Kothali Santh* are detailed therein.

626. Much also was done to push on the settlement of village services. The following figures will give a rough idea of the additional expenditure, which the settlement of the village services of twenty Talukas effected during the period under review entailed on His Highness' Government:—

	Present cost.	Immediate cost according to new Settlement.
	Rs.	Rs.
Patels	54,618	1,04,372
Talatees	1,04,356	1,13,932
Talatees' contingency	12,278	12,042
Havaldars	71,529	76,635
Malvero	14,482	25,801
Chokiat Service...	1,50,819	2,05,734
Parab Havado	8,642	41,903
Bhangees	22,295	77,232

627. Regarding Dheds, Kumbhars, Hajams, Sutars, Lohars, Vethias and Khalpas or resumed services, nothing need be said.

628. The new service of School Masters cost Rs. 45,000 and over.

629. In this reason, and because of the increased pay of Patels, Chakariats, Parab Havado and conservancy, the village services will cost Government Rs. 8,01,100 in lieu of Rs. 5,62,492.

630. 465 claims to cash allowances of the aggregate value of Rs. 51,247 were disposed of and the annual amount awarded was Rs. 31,724. The arrears claimed were only Rs. 7,068, of which all but Rs. 1,149 were allowed. Asamees of an annual value of Rs. 2,386 were bought off at a cost of Rs. 25,425.

631. Appendix **Aak** shows the large amount of work done in the Vatan branch of the Barkhali Settlement Department.

SEASON AND RAINFALL.

632. The agricultural season was, on the whole, a good one. The rainfall was not only sufficient in the aggregate, but it occurred at timely intervals and was thus beneficial to the crops generally.

633. In the Baroda Division, the rainfall was more than the average of the last 5 years and seasonable. In the Kadi Division, it was

slightly below the average. The rainfall in the Nowsari Division was above the average and the crops were in fair condition. In the Amreli Division it was above the average.

634. There were no locusts or other insects which sometimes do so much damage to crops, except in four Talukas of the Kadi Division, where an insect locally known as *Katra* partially injured some crops.

635. Fever prevailed in the Kadi Division and in some parts of the Amreli Division. In some parts it was of a bad type and raged extensively.

636. The water-supply for both men and cattle was sufficient to meet the requirements all the year round, except in the outlying Mahal of Okhamandal and in the Talukas of Dehgam, Vadavli and Visnagar in the Kadi Division.

637. The following statement compares the rainfall at the head-quarter towns of the different divisions with that of the previous year and also with the normal fall:—

Division.	1890-91.	1891-92.	Average rainfall for the past 5 years.	Normal rainfall.
Baroda	26·86¼	33·13⅓	32·71	32
Kadi	20·71	22·98	23·68½	32
Nowsari	53·6½	62·5	46·43¾	48
Amreli	17·3	22·72	21·73¾	25

638. The average prices of food-grains for the years 1890-91 and 1891-92 are given below:—

	1890-91.	1891-92.
(1) *Baroda Division.*	Seers per British Rupee	Seers per British Rupee.
Wheat	22½	19½
Bajri	34	31½
Jowar.....	35	33
Rice	21	20¼
Tuvor pulses	27¾	24

	1890-91.	1891-92.
(2) *Kadi Division.*		
Wheat	28½	24¾
Bajri	35	28¼
Jowar	39½	33¾
Rice	15½	15¼
Tuver pulses	22	21
(3) *Nowsari Division.*		
Wheat	25½	19¾
Bajri	31¾	28¼
Jowar	32½	33¾
Rice	27¾	21¼
Tuver pulses	26	21¾
(4) *Amreli Division.*		
Wheat	30¾	23¾
Bajri	32	30½
Jowar	41½	39¾
Rice	20	19¼
Tuver pulses	20½	18½

639. Thus the ruling prices of food-grains were higher than those of the preceding year.

640. In the City of Baroda the following prices ruled during the year, as compared with those in the previous year:—

	Seers per British Rupee.	
	1890-91.	1891-93.
Wheat	22½	19½
Bajri	33¾	30½
Jowar	35½	34¼
Rice	21	20½
Pulses	27¾	23¾
Gram	36½	35¼

LAND REVENUE.

641. The demand under current land revenue, including miscellaneous land revenue, was Rs. 1,07,74,641. Out of this, Rs. 25,111

were remitted and the net demand amounted to Rs. 1,07,49,530, exhibiting an increase of Rs. 4,13,770 over the figure for the preceding year. The subjoined statement shows the gross land revenue, the remissions, and the net amount for collection for the year under review as compared with the corresponding figures for the previous year :—

Year.	Land revenue proper.	Miscellaneous revenue.	Total.	Remissions.	Amount for collection or net demand.
	Rs.	Rs.	Rs.	Rs.	Rs.
1890-91.....	90,88,605	12,70,588	1,03,59,193	23,433	1,03,35,760
1891-92.....	91,69,918	16,04,723	1,07,74,641	25,111	1,07,49,530
Increase.....	81,313	3,34,135	4,15,448	1,678	4,13,770

642. The increase of Rs. 81,313 in the land revenue proper was distributed over all the divisions, except Baroda, as will be seen from the following figures :—

Division.	1890-91. Rs.	1891-92. Rs.	Increase. Rs.	Decrease Rs.
Baroda	31,91,069	31,27,551	.....	63,518
Kadi	30,80,511	32,01,449	1,20,938	.....
Nowsari	19,19,925	19,35,798	15,873	.....
Amreli	8,97,100	9,05,120	8,020	.....
Total ...	90,88,605	91,69,918	1,44,831	63,518

643. The decrease in the Baroda Division is mainly due to the introduction of the revised rates of settlement in the Baroda, Choranda and Sankheda Talukas.

644. The increase in the Kadi Division is attributable partly to the redemption of Adaniya and other alienated lands and partly to a larger area of waste land brought under cultivation.

645. The increase in the Nowsari Division is chiefly due to a comparatively large amount realized from lands held under leases granted on a sliding scale and to additional area of waste land brought under cultivation.

646. The subjoined table shows the miscellaneous land revenue of each of the four divisions as contrasted with the corresponding figures for the previous year :—

Division.	1890-91.	1891-92.	Increase.
	Rs.	Rs.	Rs.
Baroda	4,86,417	5,71,751	85,334
Kadi	4,98,405	6,05,912	1,07,507
Nowsari.....	2,16,622	3,53,795	1,37,173
Amreli	69,144	73,265	4,121
Total.....	12,70,588	16,04,723	3,34,135

647. Thus, there was a general increase in the miscellaneous land revenue of all the four divisions.

648. A little less than one-third of the increase in the Baroda Division is attributable to the settlement of Barkhali lands in some of the Talukas and to the unauthorized encroachments discovered by the Survey Branch.

649. The amount of remissions in the current year's revenue in the Baroda Division came to Rs. 7,001, in the Kadi Division to Rs. 16,427, in the Nowsari Division to Rs. 1,372 and in the Amreli Division to Rs. 311. Thus, in all, remissions to the extent of Rs. 25,111 were granted in deserving cases against 23,433 in the previous year.

650. The following is an abstract of Appendix **Aab** which exhibits the actual collections and the outstanding balances for the year under notice and the previous year :—

	1891-92. Rs.	1890-91. Rs.
Amount for collection... ...	1,07,49,530	1,03,35,759
Collections, exclusive of excess payment or Fazil	1,03,59,538	1,00,41,170
Outstanding balance	3,89,992	2,94,589

651. The total sum realized is in excess of the previous year's realizations by Rs. 3,18,368 and the proportion it bears to the total revenue demand is 96·37 against 97·15 in the preceding year.

652. Looking to details, it appears that the proportions of collection in all the Divisions except Amreli, compare unfavourably with the corresponding ratios for the previous year. The aggregate outstanding balance of the land revenue proper and miscellaneous land revenue exceeded that at the close of the preceding year, but this was due to an almost equal increase in the amount for collection.

653. The following will indicate how far the rules regarding the recovery of arrears of revenue had to be resorted to:—

Nature of coercive measures.	Number of cases.
Sales of Khatas (holdings)	230
Sales of other property	123
Imprisonment of defaulters	315
Mohsul-fines inflicted	31

654. The permission given to occupants of Government land to relinquish a survey number or a recognised portion thereof, is working its legitimate effects. The ryot no longer finds himself handicapped in the matter of throwing up such land as he does not want. During the year, lands to the extent of 9,260 bighas and 11 kumbhas yielding an annual assessment of Rs. 11,593, were relinquished, as against 7,536 bighas and 11 kumbhas assessed at Rs. 8,475 in the year previous. It would not be correct, however, to suppose, that the whole of this land remained uncultivated inflicting loss upon Government to the amount of its assessment. Land relinquished by one occupant is often taken up by another, and a good deal of such land is thus taken up every year.

655. The following figures will show the transfers of land made in the year under report as contrasted with those of the two previous years:—

	1891-92.	1890-91.	1889-90.
Number of persons whose lands were transferred ...	19,422	8,905	9,158
Number of bighas transferred...	2,91,005	1,14,474	1,43,135
Number of Kumbhas transferred.	12,024	9,759	5,296
Assessment on the above, Rs.	7,21,471	3,78,469	3,95,037

656. Thus, there was a very large increase both as regards the number of persons who transferred their lands and of the area of land transferred. This indicates that the measure recently introduced in the interest of the ryot is increasingly taken advantage of.

657. During the year under report waste lands to the extent indicated below were taken up for cultivation:—

	Bighas.	*Kumbhas.*	*Assessment.* Rs.
Lands granted for cultivation on full assessment ...	44,785	263	45,950
Do. do. on a sliding scale	1,715	.....	2,144
Total.....	46,500	263	48,094
Figures for 1890-91	44,352	2,894	58,650

658. Advances were made to ryots, under the rules in force to enable them to effect improvements in agriculture or to tide over difficulties not of their own making, to the extent of Rs. 3,88,363 against Rs. 1,54,038 in the previous year as per details given in the subjoined table. It appears that in the Kheralu Taluka of the Kadi

Division, the people went in for a large amount of Takavi for sinking wells, a sum of Rs. 66,887 having been appropriated for this purpose out of the sum of Rs. 1,32,866 advanced for effecting improvements in land:—

Nature of advances made.	1890-91.	1891-92.	Increase.
	Rs.	Rs.	Rs.
For improvements in land	42,374	1,32,866	90,492
For purchasing seeds, implements and cattle for agricultural purposes, &c.	15,185	27,084	11,899
For opium cultivation	96,479	2,28,413	1,31,934
Total.....	1,54,038	3,88,363	2 34,325

659. Some useful works which did not require engineering skill were executed by the Revenue Department at an aggregate cost of Rs. 2,34,056. The cost of these works has not been included in the outlay of the P. W. Department.

FORMER YEARS' BALANCES.

660. The subjoined statement shows the outstanding balances of former years, the collections made and remissions granted during the year and balances which remained unadjusted. These outstandings are not of the land revenue alone. They include outstandings on account of all kinds of State demands allowed to accumulate for some years:—

Description of balances.	Baroda Division.	Kadi Division.	Nowsari Division.	Amreli Division.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
Balance standing unadjusted at the end of 1890-91 ..	34,26,269	16,38,730	3,39,477	1,44,805	45,49,281
Deduct.					
Balance written off during 1891-92	5,10,901	1,58,559	83,398	42,667	7,95,525
Balance collected during 1891-92	1,36,546	1,32,694	57,532	27,121	3,53,893
Total.....	6,47,447	2,91,253	1,40,930	69,788	11,49,418
Balance outstanding at the close of the year 1891-92 ...	17,78,822	13,47,477	1,98,547	75,017	33,99,863

661. In the previous year, an important and comprehensive step was taken to dispose of these old outstandings. By a Notification issued by order of His Highness the Maha-Raja in February 1891, all the outstandings up to the year 1887-88 were written off, with the excep-

tion of those due from persons who held lands on special tenures. During the year, Rs. 7,95,525 were written off and Rs. 3,53,893 were collected, thus reducing the balance to Rs. 33,99,863 at the close of the year under retrospect.

MODEL FARM.

662. The expenditure sanctioned during the year on account of this useful institution amounted to Rs. 4,506.

663. The expenditure actually incurred amounted to Rs. 4,220 and the income to Rs. 2,706 against Rs. 3,509 and Rs. 2,079 respectively in the preceding year.

664. Select samples of the produce of the farm were sent to the Exhibition held at Becharaji in the month of January 1892 and some of them secured prizes for excellence.

665. In addition to the ordinary products of the farm, special experiments were made to preserve maize stalks in *silos* and to rear up bajri with manual labour and English potato in cold season. Experiments in sericulture were also tried at some cost but without success. Trials to rear up Arrowroot, Casurina and Rain tree were attended with success and the Guinea grass grown was found to be a suitable food for stock.

CUSTOMS.

666. As in the preceding year, the customs revenue in all the divisions except the Talukas of Amreli, Dhari and Damnagar, was collected departmentally.

667. The revenue realized from this source amounted to Rs. 7,77,227 against Rs. 10,04,776 in the preceding year, thus showing a decrease of Rs. 2,27,549. The demand, realizations and outstangdings on account of customs are contrasted with those for the preceding year in the following statement:—

Items.	1890-91.	1891-92.	Increase.	Decrease.	Remarks
Baroda Division.					
Revenue demand	4,82,848	4,65,579	.....	17,269	
Realizations	4,82,847	4,65,568	.....	17,279	
Outstandings	1	11	10	.....	
Kadi Division.					
Revenue demand	4,28,562	2,24,845	.....	2 03,717	
Realizations	4,28,464	2,24,845	.....	2,03,619	
Outstandings	98	.....	.....	98	

Items.	1890-91.	1891-92.	Increase.	Decrease.	Remarks.
Nowsari Division.					
Revenue demand	30,356	21,021	.....	9,335	
Realizations	30,356	21,021	.....	9,335	
Outstandings	.....	.....	.....	.....	
Amreli Division.					
Revenue demand	63,906	65,794	1,888	.....	
Realizations	63,109	65,793	2,684	.....	
Outstandings	797	1	.....	796	

668. It will be seen, that except in the Amreli Division, there was a general decrease in the demand aggregating Rs. 2,30,321. The increase in Amreli is due to the comparatively larger amount realized at the auction sale of the farms for the three Talukas of Amreli, Dhari and Damnagar.

669. The decrease in the Baroda Division is attributable to less exportation of tobacco and to the abolition of some of the Kasba Nakas. More than 50 per cent. of the decrease is attributable to the former cause.

670. Nearly 88½ per cent. of the decrease in the total demand occurred in the Kadi Division and is attributable to the abolition of export duties almost on all articles except bones, hides and wool by notification No. 8, dated 9th December 1891 and to the abolition of Kasba duties in 17 towns out of 31.

671. The total charges of the department amounted to Rs. 1,13,738 against Rs. 1,14,995 in the preceding year, thus showing a reduction of Rs. 1,257; but the proportion of expenditure to the total collections was 14 per cent. against 11. The higher percentage is attributable to the falling off in the customs revenue realized during the year.

672. In the Baroda and Kadi Divisions, the duty on ginned cotton was reduced during the year, as an experimental measure, from Re. 0-3-6 to Re. 0-2-6 per maund.

ABKARI.

673. The principal sources of Abkari revenue are:—

(*a*) The manufacture and sale of country liquor.

(*b*) The drawing and sale of toddy.

(*c*) The manufacture and sale of intoxicating drugs other than opium and preparations of opium.

674. In former years, the revenue derived under the last head was insignificant. During the year under review, revenue was raised by the auction sale of the monopoly of the right to manufacture and sell the drugs. This Izara was given for 18 months from 1st February 1892.

675. The still-head duty per gallon of liquor was raised in some parts of the Nowsari Division. The still-head duty in the Nowsari and Baroda Divisions, where only the central distillery and minimum guaranteed system was in vogue, was as under:—

Nowsari Division.

676. For the Talukas of Nowsari, Gandevi, Palsana, Kamrej and the western parts of Mahuwa and Velachha, Rs. 2 for liquor of 25° U. P. and Re. 0-15-0 of 60° U. P. For the rest of the Nowsari Divison the duties were the same as those in the previous year, *i.e.*, Re. 0-12-0 per gallon of 25° U. P. and Re. 0-6-0 of 60° U. P.

Baroda Division.

677. For the Talukas of Petlad, Baroda, Padra and Choranda and the southern portion of the Sinore Taluka adjoining Rajpipla, Rs. 2-4-0 on liquor of 25° U. P. and Rs. 1-4-0 on 60° U. P. and for the Talukas of Jarod, Dabhoi, Sankheda and Tilakwada and the northern part of the Sinore Taluka, Re. 0-12-0 on 25° U. P. and Re. 0-6-0 on 60° U. P.

678. The Kathore and Umerpada distilleries were abolished and a branch distillery at Wakal was established in the latter part of the year, *i. e.* on 1st June 1892.

679. As noticed in para. 643 of the previous year's report, a tree-tax on toddy-producing trees belonging to private persons was levied from the beginning of 1890-91 in the Nowsari and Baroda Divisions, where the lump sum farming system prevailed in respect to the drawing and sale of toddy. No change was made in the rates of tree-tax to be levied on each tree licensed to be tapped and of the license fees for the privilege of selling toddy at the foot of the tree. The tree-tax collections amounted to Rs. 43,399 against Rs. 32,561 in the preceding year. The realizations from license fees for selling toddy at tree-foot booths amounted Rs. 320 in the Nowsari Division. The revenue realized in the Baroda Division from these two sources was almost trifling.

680. There was no change in the system of realizing revenue from the sale of imported foreign liquor and wines. There were 10 shops, the same as last year, for the sale of imported spirits and wines, and the fees levied for granting licenses authorizing their retail sale amounted to Rs. 485 against Rs. 510 in the preceding year.

681. The total Abkari revenue amounted to Rs. 7,84,605 against Rs. 8,41,114 in the previous year, thus showing a decrease of Rs. 56,509. The realizations were distributed over the four divisions as under:—

	1890-91.	1891-92.	Increase.	Decrease.	
	Rs.	Rs.	Rs.	Rs.	
Baroda Division...	3,00,708	2,31,090	...	69,618	The Bhang and Ganja revenue realized during the year is included in the figures for the different divisions.
Nowsari do. ...	4,52,094	4,62,009	9,915	...	
Kadi do. ...	81,525	84,643	3,118	...	
Amreli do. ...	6,787	6,863	76	...	
Total...	8,41,114	7,84,605	13,109	69,618	

682. The foregoing figures would show that there was a decrease only in the Baroda Division. The fluctuations depend mainly upon the proceeds of farms at the annual auction sales. Besides the low bid secured for the Baroda Division, the *Izara* of that Division had to be abruptly cancelled and departmental arrangements had to be made owing to the farmer's inability to pay the stipulated instalments.

683. The revenues derived from Abkari during the quinquennial period ending 1891-92 are noted below :—

	Rs.
1887-88	7,72,121
1888-89	8,55,280
1889-90	8,27,093
1890-91	8,41,114
1891-92	7,84,605
	40,80,213
Average per year	8,16,042

684. The foregoing figures will show that the total revenue for the year under review was less than the average realizations of the five years by Rs. 31,437.

685. The incidence of Abkari taxation per head of population comes to about 5 annas and 2 pies as against 5 annas and 6 pies of the previous year. The following statement shows the incidence for each division separately :—

Division.	Population.	Realizations.	Incidence of taxation per head of population.
		Rs.	Rs. a. p.
Baroda	8,17,023	2,31,090	0 4 6
Kadi	10,98,742	84,043	0 1 3
Nowsari	3,19,443	4,62,009	1 7 1
Amreli	1,80,188	6,863	0 0 7
Total ...	24,15,396	7,84,605	0 5 2

686. The above table shows that the incidence of taxation per head of population is highest in the Nowsari Division, where it amounted to Rs. 1-7-1 and lowest in the Amreli Divivion where it was 7 pies.

687. The following statement shows ths quantity of liquor (in gallons) distilled in the different distilleries, as compared with that of the past year :—

Year.	Nowsari including Wakal Branch distillery.		Kathore.		Vyara including Umerpada branch distillery.		Baroda.			Total.		
	25° U. P.	60° U. P.	25° U. P.	60° U. P.	25° U. P.	60° U. P.	15° U. P.	25° U. P.	60° U. P.	15° U. P.	25° U. P.	60° U. P.
1890-91	26,267	2,35,969	7,661	95,858	4,183	2,731.339	3,468	32,268	1,14,447	3,468	70,380	7,24,615
1891-92	21,002	1,63,893	5,442	41,883	4,304	2,45,789	5,698	39,945	1,04,608	5,698	70,694	5,59,174
Increase	.....	.....	.....	.....	121	.....	2,230	7,677	.....	2,230	314	.....
Decrease	5,265	72,076	2,219	50,975	.....	32,550	.....	.....	9,839	.....	.....	1,65,441

688. The following statement shows the quantities issued from the Sadar distilleries on payment of still-head duty:—

Name of distillery.	15° U. P.	25° U. P.	60° U. P.
Nowsari distillery	.....	20,402	1,54,455
Kathore do.	.....	5,392	50,609
Vyara do.	.....	4,066	2,48,405
Baroda do.	3,360	34,088	88,934
Total ...	3,360	63,948	542,403

689. The Kathore distillery and the Umerpada branch distillery were closed on 1st June 1892, and a Branch distillery at Wakal was opened on the same date. The figures, therefore, for Nowsari include those for Wakal from 1st June to the end of the year, and those for Vyara include the figures for Umerpada till the end of May.

690. Thus the farmers removed from the distilleries 3,360 gallons of spirit of strength 15° U. P. 63,948 gallons of 25° U. P. and 5,42,403 gallons of 60° U. P. for sale on payment of still-head duty to the amount of British Rs. 4,76,036 being Rs. 12,771 below the minimum amount guaranteed for the farms for the year.

691. The quantities of spirit, converted to strength 25° U. P., actually sold in each of the last two years in the Nowsari and Baroda Divisions where the still-head duty, central distillery and minimum guaranteed system was in vogue are contrasted below:—

Division.	Quantity consumed converted into 25° U. P.		Population according to last census.	Quantity consumed per head in gallon.	
	1890-91.	1891-92.		1890-91.	1891-92.
Nowsari	3,33,653	2,79,305	3,19,443	1·04	·8
Baroda...	93,222	78,852	8,17,033	·11	·2

692. The liquor obtained from the British distillery at Surat for sale in the villages of Variao, Jiava and Gabheni was 1,719 gallons as detailed under:—

25° U. P..... 449 gallons.
60° U. P.....1,270 „

Total 1,719 gallons.

Liquor obtained in 1890-91 was 2,823 gallons.

693. Thus it will be seen that the total quantity supplied to our isolated villages from the Surat distillery was much less than that of the preceding year. The still-head duty paid thereon amounted to Rs. 2,459-5-6 and the same was subsequently refunded to His Highness' Government.

694. The Asnera and Tegwa shops were closed during the year as the Broach Collector wanted to fix the quantity of supply to these shops, although the arrangement made in 1887 did not warrant any such restriction.

695. In the subjoined statement the quantity of liquor supplied to the isolated shops in the Kadi Division from the Ahmedabad distillery and the amount of still-head duty levied thereon are compared with the figures for the preceding year :—

Names of shops.	1890-91.				1891-92.			
	25° U. P.	60° U. P.	Total gallons.	Amount of duty.	25° U. P.	60° U. P.	Total gallons.	Amount of duty.
				Rs. a. p.				Rs. a. p.
Becharaji Mata ...	324	180	504	954 0 0	398	150	548	1083 0 0
Kathwada ...	352	220	572	1,124 12 0	365	348	713	1,323 10 0
Bhavda	38	56	94	15 5 8	120	40	160	320 0 0
Belasia	192	106	298	595 2 0	234	329	563	987 9 0
Chowlej	50	78	128	210 0 0	128	161	289	489 4 0
Banodra	4	4	8	14 0 0	13	16	29	49 4 0
Kanial T. Dehgam.	220	370	590	95 7 8	170	234	404	675 0 0
Kanial T. Attarsumba	72	232	304	188 0 0	108	286	394	251 0 0
Gareda	57	242	299	173 0 0	18	98	116	67 0 0
Sandesar	84	124	208	146 0 0	117	88	205	161 0 0
Total	1,393	1,612	3,005	4,522 14 0	1,671	1,750	3,421	5,406 11 0

696. No liquor was supplied to the shops at Gowindada and Bhaskerni-Muwadi during the year. The increase in the quantity drawn is accounted for by the fact that some of the shops supplied from the above distillery were open during the whole year which was not the case in the year preceding.

697. The quantity of liquor supplied from the Nowsari distillery to the shop in the isolated British village of Mota and from the Baroda distillery to the Baroda Cantonment shop and the amount of

still-head duty levied thereon are given in the following statement. The still-head duty levied was subsequently refunded to the British Government :—

	25° U. P.	60° U. P.	Total gallons.	Amount of duty.
Mota	157	2,949	3,106	3,079 5 5
Baroda Cantonment ...	3,050	550	3,600	7,550 0 0
Total ...	3,207	3,499	6,706	10,629 5 5

698. Although the total quantity of liquor supplied to the Cantonment shop remained the same as in the previous year, there was an increase in the number of gallons of 25° U. P. issued.

699. The sanctioned number of shops for the Nowsari and Baroda Divisions were 457 and 240 respectively, but there were in all 568 country liquor shops in the two divisions, 346 in the former division and 222 in the latter division.

700. 241 offences against the Abkari rules were investigated and 339 persons were arrested against 57 cases involving 86 persons in the previous year. In 216 involving 295 persons, conviction was secured. The percentage of cases in which conviction was secured was 89 against 66.

701. The expenditure on account of the Abkari Department was Rs. 51,653, or Rs. 15,406 more than that of the year preceding. This increase occurred in the Nowsari and Baroda Divisions where the Sadar distillery system prevails. Nearly 65 per cent. of the increase was nominal and was due to the refund of the revenue realized in the previous years from the Narwa and Seja villages of the Petlad Taluka to the Narwadars and Sejadars concerned.

702. The proportion of expenditure to the tolal realizations was 6·58 per cent. against 4·30 in the year previous.

OPIUM.

703. The following particulars relate to the opium production monopoly during the year under review.

704. The area under poppy cultivation and the out-turn of poppy juice in the year, as compared with those of the preceding year, were as noted below :—

	1890-91.	1891-92.
Area in acres	6,689-9-13	15,441-3-1
Yield juice ... ... lbs.	1,25,302-26¾	2,04,394-19
Average yield per acre ...lbs.	18-29¼	13-83¾

705. The area under poppy cultivation shows a notable advance as compared with that of the previous year. The average yield of juice per acre was considerably below that for the two preceding years. The decrease in the out-turn was owing to the disease by which the poppy plants were affected and to frost.

706. 19 guntas and 6 annas were cultivated without license during the year and the person concerned was dealt with under the opium law. There was no unauthorized cultivation of poppy in the year previous.

707. There were on hand at the commencement of the year 1,25,839 lbs. and 29¼ tolas of juice, including the dryage of the previous year. The quantity produced during the year was as mentioned above, 2,04,394 lbs. and 19 tolas, thus making a total of 3,30,234 lbs. and 8¼ tolas.

708. Juice weighing 1,25,612 lbs. and 4 tolas was utilized in the manufacture of opium and 144 lbs. were destroyed.

709. The following figures show the total quantity of opium in the Sidhpur store including the opium imported from Malwa, the quantity disposed of and the balance at the end of the year under notice :—

	lbs.	tolas.
Balance of the previous year inclusive of dryage	1,11,534	36¼
Manufactured during the year inclusive of 1881bs. of opium received from the Subha, Baroda Division	1,11,877	20
Imported from Malwa	27,033	22½
Total...	2,50,445	38¾
Deduct.		
Sent to the Divisional depôts for retail sale...	85,860	0
Written off the accounts as dryage	11,222	21½
Total...	97,082	21½
Balance on hand on 31st July 1892, in the Sidhpur store, inclusive of dryage ... lbs.	1,53,363	17¼

710. The following figures show the operations under the head of retail sale monopoly in the Divisional depôts :—

	lbs.	tolas.
Balance of the previous year	24,335	17½
Received from the Sidhpur store	85,860	0
Confiscated	52	22 3/16
Total...	1,10,247	39 11/16

Deduct.

Issued to license-holders	71,504-17$\frac{15}{64}$
Dryage	871-16$\frac{13}{64}$
Pieces of opium sent to Sidhpur for being washed	188- 0
Total...	72,563-33$\frac{7}{16}$
Balance on hand on 31st July 1892	37,684-6$\frac{1}{4}$

711. The quantity of opium actually sold by retailers and the consumption per head of population are compared in the subjoined table with those of the previous year:—

Division.	Opium sold by vendors in lbs.		Population as per last census.	Consumption per head in tolas.	
	1890-91.	1891-92.		1890-91.	1891-92.
Baroda	34,098-24	38,412-23	8,17,023	1·67	1 88
Kadi	16,481-39	18,361-28	10,98,742	·6	·67
Amreli	12,088-28	11,708-12	1,80,138	2·6	2·5
Navsari	3,549·4	3,526·5	3,19,443	·44	·44
Total	66,218-15	72,008-28	24,15,396	1·1	1·19

712. The financial results of the retail sale monopoly were as follows:—

British

	Rs.	a.	p.
Cost of 71,504 lbs. and 17$\frac{15}{64}$ tolas	3,07,547	12	9
Cost of 922 lbs. and 1$\frac{5}{64}$ tolas lost by dryage.	3,871	15	6
Establishment charges	2,921	6	9
Contingencies	4,599	4	8
Total...	3,18,940	7	8

The realizations were:—

Price of 71,504 lbs. and 17$\frac{15}{64}$ tolas issued to the Izardars	7,08,194	8	0
Miscellaneous...	56,118	8	6
Total...	7,64,313	0	6

713. The foregoing figures show a net profit of Rs. 4,45,372-8-10 against Rs. 4,05,090-12-2 in the preceding year.

714. The following details relate to offences against the opium law :—

	1890-91.	1891-92.
Cases remaining from past year	2	2
No. of prosecutions in the year	44	63
Total...	46	65
Cases disposed of during the year	44	63
Cases pending at the close of the year ...	2	2
Cases in which the accused were convicted..	23	52
No. of persons convicted	29	55
	lbs. T.	lbs. T.
Poppy juice seized	0 0	11 21 $\frac{9}{16}$
Opium seized...	55 2 $\frac{3}{4}$	65 9 $\frac{1}{8}$

STAMPS.

715. The stamp revenue during the year under report amounted to Rs. 4,91,036 against Rs. 4,72,233 in the past year, showing an increase of Rs. 18,803. The increase, it will be observed from the subjoined table, occurred generally under all the heads except "Court-fee stamps" the realizations from which source show a decrease of Rs. 4,865 :—

Items.	1890-91.	1891-92.	Increase.	Decrease.
Court-fee stamps	2,79,532	2,74,667	.....	4,865
Ordinary stamps	1,63,229	1,80,624	17,395	.....
Penalty levied on unstamped or insufficiently stamped documents.	15,496	15,441	.....	55
Miscellaneous.	13,950	20,264	6,314	.....
Recovery.	26	40	14	.....
Total...	4,72,233	4,91,036	23,723	4,920

716. The decrease in receipts from the sale of court-fee stamps is attributable to a diminution in the number of suits and other civil court business.

717. The increase of Rs. 17,395 in the sale of ordinary stamps is mainly attributable to the operations of the new Stamp Act.

718. The increase of Rs. 6,314 in the miscellaneous receipts is attributable to a comparatively larger amount of stamp-fees having been recovered during the year in pauper suits, or suits in which the court-fees had, for special reasons, been suspended at their commencement.

719. The expenditure during the year amounted to Rs. 60,716 against Rs. 20,220 in the year preceding. The increase was mainly

due to the cost of water-marked paper purchased during the year. The various items of expenditure are shown below:—

		1890-91.	1891-92.	Increase.
1	Establishment charges	14,767	15,914	1,147
2	Dead stock purchase	.....	2,021	2,021
3	Contingent and miscellaneous expenses..	2,145	2,510	365
4	Service stamps	238	249	11
5	Papers for stamps	95	35,574	35,479
6	Refund of value of unused stamps ...	2,975	4,448	1,473
	Total...	20,220	60,716	40,496

720. The above figures will show that there was an increase in all the items of expenditure.

721. The expenditure under the head "Establishment" amounted to Rs. 15,914 against Rs. 14,767 in the year preceding, and Rs. 10,428 in 1889-90. This increase is attributable to the additional establishment engaged.

722. The amount refunded on account of stamps returned, rose from Rs. 2,975 in the previous year to Rs. 4,448 in the year under review. The amount refunded in the year 1889-90 was Rs. 501 only.

723. As in previous years, thewhole of our stock of stamps was printed on special water-marked paper procured from Europe.

724. Deducting the expenditure from the receipts, there was a net revenue of Rs. 4,30,320 or Rs. 21,693 less than the preceding year. The proportion of expenditure to income was 12·36 per cent. against 4·28 in the preceding year. The cause of the heavy percentage of expenditure is mentioned in para. 719 supra.

725. 345 stamp papers of the aggregate value of Rs. 1,975 were destroyed during the year under Section 42 of the Stamp Rules.

FORESTS.

726. As noticed in para. 702 of the previous year's Report, His Highness' Government, with a view to improve our forests, applied for the loan of the services of Mr. E. E. Fernandez, an experienced British officer, for a limited period. This officer joined the state service in June 1891.

727. A long-felt want was supplied during the year by the passing of the Jungle Nibandh (Forest Act) for the better protection and management of forests.

728. The formation of reserved forests was commenced, and their selection and demarcation was completed in the Mahuwa Taluka and in the portion of the Vyara Taluka, south of the river Ambika. In the former Taluka, land to the extent of about twenty thousand Bighas was excluded from the area of protected forests. In the Talukas of Songhad, Vyara and Peta Wakal, the forest areas underwent no change

worth noticing. In the Amreli Division, 19,490 Bighas were taken up in the Gir for forest conservancy, including which, the total forest area in this Division at the close of the year amounted to 82,673 Bighas.

729. For the sake of convenience, the head-quarters of the Forest Conservator were transferred from Nowsari to Baroda. Mr. Ganesh Vishnu Sharangpani completed his course of study at Dehra Dun and joined the department as Ranger.

730. Some attempt was made to regulate grazing in the Gir forest and in the forests of the Mahuwa Taluka. The felling rules were also re-considered and improved.

731. Forest produce of the estimated value of about Rs. 30,070 was granted free during the year, showing a marked decrease as compared with similar grants made in the preceding year. Some limitation appeared desirable to the granting of forest produce gratis to the inhabitants of forest tracts as, of late, there was considerable growth of this indulgence.

732. The Gir forests received some real protection this year and a few seedlings and the starting up of small stalks were visible.

733. Improvement fellings were made as usual in teak forests. All growing and promising trees were preserved from such cuttings and only those on the decline or incapable of improvement were felled. In selection fellings, the essential restriction of a minimum girth, below which, no trees were to be cut, was imposed. With regard to unregulated fellings, no restriction was put upon them, as none is possible until reserved forests are formed.

734. Leases were granted for catechu boiling and the distillation of Rousa oil. The right of extracting the leaves of the Asintara and Timburni was leased, as an experimental measure.

735. The total revenue derived from the forests compares as follows with that of the previous year:—

		Rs.
1891-92.	Net realizations	75,182
	Balance to be recovered	4,577
	Total, mixed currency Rs...	79,759
1890-91.	Net realizations	62,731
	Balance to be recovered	17,856
	Total, mixed currency Rs.	80,587

736. Including the recoveries made on account of previous years amounting to Rs. 26,870, the total collections amounted to British Rs. 1,01,755.

737. The total expenditure on account of the Forest Department, as compared with the previous year, was as follows:—

Items.	1890-91.	1891-92.	Increase.
	Rs.	Rs.	Rs.
Conservancy	9,681	18,583	8,902
Establishment	27,027	43,570	16,543
Contingencies and miscellaneous.	3,927	10,332	6,405
Amount refunded	4	50	46
Total...	40,639	72,535	31,896

738. Of the total expenditure of Rs. 72,535, a sum of Rs. 21,314 was disbursed on account of certain bills pertaining to previous years. Thus the actual expenditure for the year under review amounted to Rs. 51,221.

739. Inclusive of arrears, the number of forest offences for disposal was 57 against 87 in the preceding year. Of these, 46 were disposed of, conviction being secured in 33.

TAXES ABOLISHED.

740. The following petty imposts were abolished during the year under retrospect.

741. *Bhada Dhuma.*—A tax levied in the town of Padra when sale-deeds of houses are executed, as a sort of fee for registering the transactions. Now that a new Registration Act has been passed and the Registration Department has been regularly organized, the levy has been abolished.

742. *Kanya Dappu*—or a tax levied in the village of Varsoda of the Savli Taluka on the occasion of marriages was abolished, as the impost was considered objectionable.

743. Besides the above, the following imposts which used to be levied in the Savli Taluka of the Baroda Division from Barkhali holders, were abolished during the year. The villages in which the

cesses were collected and the average annual amount realized are noted below :—

Name of the Vero.	Average annual amount.	Villages from which collected.
	Rs.	
1 Tafarik Vero.	1,475	1. Akalia. 2. Kadachhaba. 3. Dhantej. 4. Namisera. 5. Rasalpur.
2 Talpad Vero ...	1,237	1. Oondawa. 2. Namisera.
3 Pani Vero ...	4,194	1. Desar. 2. Lasudra. 3. Jerode (Kasba). 4. Bhadole (Nani.) 5. Samalya. 6. Lilodra. 7. Varsada. 8. Saoli (Kasba.) 9. Vejpur. 10. Sandasal.
4 Wanta Vero ...	1,352	1. Tundav.

714. The introduction of the Survey and Settlement in the Sankheda Taluka resulted in the abolition of certain vexatious imposts yielding an aggregate revenue of Rs. 1,776 per annum.

MINT.

745. The old Baroda Rupee, which is still extant, is a rude coin and can be easily counterfeited. Measures were, therefore, taken in the preceding year for striking silver coins of a superior description and the necessary machinery was received and installed.

746. The minting work done during the year was as detailed below :—

	Rs.
Cost of 1,40,542 tolas of silver melted	19,27,577
Total coinage struck (in rupees)	19,65,336
Gross profit.....Rs.	37,759
Deduct establishment charges, contingencies and miscellaneous expenditure	38,354
Net loss ... Rs.	595

747. Of the silver coins struck, 1,48,033 were half rupee pieces and 18,91,318 were rupees.

748. Worn-out coins and coins otherwise rendered unfit for circulation to the amount of Rs. 4,43,509 were re-coined.

749. The operations of the mint during the year regarding the copper coin were as noted below :—

	Rs.
Half-anna pieces or double pice coined worth ...	43,678
Quarter-anna pieces or single pice coined worth ...	10,603
Pies coined worth	83
Sundry receipts	508
Total...Rs.	54,872 0 0

Deduct expenditure.—

	Rs.	a.	p.
Cost of copper sheets (less realizations from clippings) including customs duty	32,282	0	0
Establishment, contingencies and other charges	5,133	0	0
Total...Rs.	37,415	0	0

750. Thus the net profit comes to Rs. 17,457, which gives Rs. 32-1-9 per cent., as against Rs. 26-13-4 in the preceding year. The higher percentage was due chiefly to the comparatively large proportion of half-anna pieces coined during the year.

751. The sub-joined table shows how the value of Baroda rupees varied in relation to British Indian rupees in the City market on the

first day of each month of the year under review and the two preceding years :—

Months.	One hundred British rupees equal to Babashai.								
	1889-90.			1890-91.			1891-92.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

AUDIT AND ACCOUNTS.

752. With a view to introduce a proper system of accounts, a loan of the services of Rai Bahadur Babu Rajaninath Ray, M. A., Deputy Comptroller General, Calcutta, was obtained from the Government of India for a limited period. He brought to bear upon his work his long experience in the theory and practice of accounts as kept in British Provinces, and the suggestions made by him, after getting an insight into the character of some of the problems presented by Baroda accounts, as essential to the ends of a proper system of accounts, are steadily kept in view and acted upon.

753. The pre-audit system has been discontinued and the *Taleband* system introduced. Such necessary registers, returns, &c. as were essential for the proper audit and compilation of accounts have been added. The Audit and Account branches of the different departments were separated from them and placed under the direct control of the Accountant General. The Prant or Divisional Treasuries were abolished and the whole work of compiling the accounts was entrusted to the central office which was sufficiently strengthened for the purpose.

754. The Audit Department disposed of 56,794 bills during the year, and discovered over and erroneous payments to the extent of Rs. 27. In the P. W. Audit Branch 1,214 bills were audited and items of unauthorized expenditure aggregating Rs. 1,974 were discovered and retrenched.

755. 1,993 bills received for pre-audit, before the pre-audit system was abolished, were disposed of including 713 bills returned for explanation.

756. Fair progress was made as regards the remaining work of adjusting the old State Bank accounts. Rs. 1,829 were recovered and Rs. 21,577 were adjusted in settlement of accounts.

757. The monthly accounts for the whole State, together with the annual general account, were prepared, as usual, in the compilation branch of the Audit Office.

758. Three cases of pension and three of gratuity were disposed of during the year.

759. The cost of the Audit Department including that of the P. W. Audit Branch was Rs. 1,01,917 against Rs. 58,737 in the preceding year, thus exhibiting an increase of Rs. 43,180 which is attributable to extra printing charges incurred.

FINANCIAL.

760. The subjoined statements show the receipts and disbursements in Baroda currency for the year under review, as compared with those of the previous year. It will be seen therefrom that there has been a decrease in both the receipts and disbursements to the extent of Rs. 3,14,594 and Rs. 41,308 respectively:—

761. The figures in the above statements will not agree with those given in other parts of the report. The amounts shown in those parts represent either the receipts which accrued or expenditure which was incurred during the year, irrespective of the sums actually paid into or drawn from the Treasuries.

762. The more important of the differences between the figures for the two years exhibited in the above statements are explained below :—

Receipts.

763. *Land Revenue.*—In the previous year, there was a large increase under this head attributable to the formal adjustment in the State accounts of the former years' balances up to the end of Samvat 1944, (corresponding with A.D. 1887-88) written off under Notification No. 105 dated 17th February 1891, issued by order of His Highness the Maharaja. The absence of any such nominal adjustments in the year under review accounts for the decrease. The actual collections of the land revenue proper and miscellaneous land revenue during the year show an increase, as compared with those of the previous year.

764. *Tribute.*—The increase is due to larger collections of arrears of previous years and to less outstandings for the year under review.

765. *Abkari.*—The increase is attributable to the collection of outstanding balances from the Abkari farmers.

766. *Miscellaneous taxes.*—The decrease is due to the amalgamation of several taxes levied in the newly settled Talukas with the land revenue proper of those Talukas.

767. *Customs.*—The decrease under this had occurred in the Kari and Baroda Divisions and was due partly to the abolition of export duties almost on all articles except bones, hides and wool by Notification No. 8, dated 9th December 1891 and partly to the abolition of some Kasba Nakas.

768. *Stamps.*—The increase occurred in the sale of ordinary stamps and was mainly due to the operations of the new Stamp Act.

769. *Registration.*—The increase is owing to the improvement in the number of documents presented for registration.

770. *Mint.*—The increase occurred in the profits from copper coinage.

771. *Judicial fees, fines &c.*—The decrease being insignificant needs no remark.

772. *Education.*—The increase is mainly due to larger receipts in the shape of school-fees from newly opened institutions.

773. *Interest.*—The decrease under this head is mainly due to the interest on loans to private parties &c. having been allowed to accumulate.

774. *Railways.*—The increase is due to the fact that the net profits were greater than those for the previous year owing to the opening of new lines.

775. *Forests.*—The increase is chiefly attributable to larger realizations from the sale of timber.

776. *Jails.*—The increase occurred mainly under the head 'Jail Factory.'

777.—*Municipalities.*—The increase under this head is chiefly attributable to the sale of old timber and other materials of houses taken up for widening the roads in the City and for other public purposes.

Disbursements.

778. *Huzur Cutcherry establishments.*—The increase under this head amounts to Rs. 35,289 and is due to the organization of the Geological Survey Department.

779. *Land Revenue Department.*—The increase is mainly due to the redemption of *gharania* lands and to the establishment of village schools for the dissemination of primary education.

780. *Other Civil establishments.*—The increase is trifling and calls for no special remarks.

781. *Forest Department.*—The increase is attributable partly to the payment of certain bills pertaining to previous years and partly to the disbursement of the salary of the Forest conservator, whose place was allowed to remain vacant for a portion of the preceding year.

782. *Stamp Department.*—The increase under this head is attributable to the entertainment of additional establishment and to the adjustment of certain items of expenditure pertaining to the year preceding.

783. *Mint.*—The decrease is due to less expenditure incurred on account of the pay of the establishment and contingencies.

784. *Judicial Establishments.*—The decrease is due to the change introduced in the mode of calculating the proportions of the salaries of revenue officers doing magisterial duties.

785. *Registration Department.*—The decrease is owing to less expenditure incurred in the purchase of dead stock and on account of contingencies.

786. *Military Department.*—The decrease was partly due to the absence of extraordinary expenditure, such as that incurred in the preceding year in purchasing new bullocks for the Battery and remounts for the Moti Khas Paga and partly to the payment of a smaller amount on account of arrears to the Shilledari and Shibandi portions of the Irregular force.

787. *Public Works.*—The increase is principally owing (1) to the large expenditure incurred in connection with the construction of Wahiwatdars' and Mahalkaries' cutcherries and Munsiffs' courts and (2) to the extensive repairs executed to the several Government buildings in the City.

788. *Education.*—The increase under this head is due to the opening of new Vernacular schools, to the maintenance of the Technical Institute (*Kala Bhawan*) and to the expenditure incurred on account of the State scholars prosecuting their studies in Europe.

789. *Medical Department.*—The increase is mainly attributable to promotions granted to deserving medical officers and subordinates and to the creation of the Sanitary Commissioner's place.

790. *Municipalities.*—The decrease is due to less expenditure incurred on account of repairs to tanks and wells.

791. *Religious and Charitable allowances.*—The decrease under this head is chiefly attributable to less payment of arrears.

792. *Railways.*—The decrease is owing to the completion of the metre gauge lines in the Kari Division which were under construction in the year preceding.

MANIBHAI J.,
Dewan.

Appendix A.

GENERAL STATEMENT No. I.

JUDICIAL, CIVIL, AND CRIMINAL.

General Statement showing the various Judicial Tribunals existing in the Territory of His Highness the Gaikwar in the year 1891-92, *together with their Location, Territorial Jurisdiction, present Incumbents, Income, Expenditure and Work done during the year.*
